Masterworks of California Impressionism Franchise Finance Corporation of America, Jean Stern, 1987 The Fleischer Collection Jean Stern, James Irvine Swinden, 2020 Masterworks of California Impressionism Thomas Gilcrease Institute of California Impressionists Susan Landauer, Irvine Museum, Georgia Museum of Art, Atlanta American History and Art,1988 Committee for the Olympic Games, 1996 The years around the turn of the century were a dynamic time in American art Different and seemingly contradictory movements were evolving and the dominant style that emerged during this period was Impressionism Based in part on the broken brushwork and high keyed palette of Claude Monet it was a form especially suited to the dramatic landscape and shimmering light of California This book celebrates forty Impressionist painters who worked in California from 1900 through the beginning of the Great Depression it includes widely recognized California artists such as Maurice Braun and Guy Rose less well known artists such as Mary DeNeale Morgan and Donna Schuster and eastern painters who worked briefly in the region such as Childe Hassam and William Merritt Chase The contributors essays examine the socioeconomic forces that shaped this art movement as well as the ways in which the art reflected California s self cultivated image as a healthful sun splashed arcadia Impressionism John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is guite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes California Impressionism William H. Gerdts, Will South, 1998 Lavishly illustrated meticulously researched and gracefully written this definitive study of California's distinctive style of impressionism surveys the movement's sources abroad its most influential artists and the critical responses to the style 248 illustrations 201 in color

Masterworks of European Painting in the California Palace of the Legion of Honor Steven A. Nash, Lynn Federle Orr, California Palace of the Legion of Honor, Marion C. Stewart, 1999 This beautiful volume presents colorplates and essays covering 100 masterpieces of European art from one of America's finest collections housed in the California Palace of the Legion of Honor Shows of Force Timothy W. Luke, 1992 It has long been considered a mark of na vet to ask of a work of art What does it say But as Timothy W Luke demonstrates in Shows of Force artwork is capable of saying plenty and much of

the message resides in the way it is exhibited By critically examining the exhibition of art in contemporary American museums Luke identifies how art showings are elaborate works of theater that reveal underlying political social and economic agendas The first section Envisioning a Past Imagining the West looks at art exhibitions devoted to artworks about or from the American West Luke shows how these exhibitions displaying nineteenth and early twentieth century works by artists such as George Caleb Bingham Frederic Remington Frederic Edwin Church and Georgia O Keefe express contemporary political agendas in the way the portray the past and shape new visions of the West In Developing the Present Defining a World Luke considers artists from the post 1945 era including Ilya Kabokov Hans Haacke Sue Coe Roger Brown and Robert Longo Recent art exhibits his analysis reveals attempt to develop politically charged conceptions of the present which in turn struggle to define the changing contemporary world and art s various roles within it Luke brings to light the contradictions encoded in the exhibition of art and in doing so illuminates the political realities and cultural ideologies of the present Shows of Force offers a timely and surely controversial contribution to current discussions of the politics of Early California Impressionists Ronald E.
