Musico-Poetics in Perspective, 2021-11-08 The volume is dedicated to the memory of the late Calvin S Brown of the University of Georgia author of the first systematically conceived survey *Music and Literature A Comparison of the Arts* 1948 of the branch of interart studies now generally known as Melopoetics Part One consists of six original contributions by experts from Austria Belgium France and the United States Authored by a novelist and a composer scholar respectively the first two essays Jean Libis's *Inspiration musicale et composition littéraire Reflexions sur un roman schubertien* and David M Hertz's *The Composer's Musico Literary Experience Reflections on Song Writing* focus not surprisingly on the creative process The third piece Francis Claudon's review of the pertinent research done between 1970 and 1990 complements the honoree's analogous report on the preceding decades reprinted in the present volume whereas the fourth Jean Louis Cupers *Metaphores de la lumière et de l'ombre Regards sur l'évolution des études musico littéraires* surveys the plethora of metaphorical applications in music and literature of two significant natural phenomena the one acoustic and the other optical Linked to each other the two remaining papers Ulrich Weisstein's *The Miracle of Interconnectedness* Calvin S Brown a *Critical Biography* and Walter Bernhart's *A Profile in Retrospect* Calvin S Brown as a Musico Literary Scholar offer critical accounts of the honoree's theoretical and methodological stance as viewed in the first case from a biographical angle and in the second in the light of subsequent scholarly practice Part Two bundles eleven of Professor Brown's previously uncollected articles covering a period of nearly half a century of significant scholarly activity in the field The selection demonstrates

Brown's poignant interest in transpositions of art exemplifying the musicalization of literature in the formal and structural rather than thematic domain as culminating in his trenchant critique of music in poetry as understood somewhat naively by Mallarmé and his critics and to a slightly lesser extent by his translation of Josef Weinhebers variations on Friedrich Hölderlin's ode *An die Parzen*. Just as Professor Brown's successive anatomies of melopoetic theory and practice illustrate his steadily growing sophistication and the maturing of his mind so his Bloomington lecture *The Writing and Reading of Language and Music: Thoughts on Some Parallels Between two Artistic Media* reflects his unique ability to assemble and organize vast materials and comprehensive data in such a way as to reveal the underlying pattern. *The Comparative Study of Traditional Asian Literatures* Vladimir Braginsky, 2013-10-11 This book represents the first ever published introduction to the comparative study of traditional Asian literatures embracing three vast literary zones Arab Islamic Indo South East Asian and Sino Far Eastern. The aim of the book is to outline the main properties of Asian literatures in the period of reflective traditionalism the early centuries CE to the first half of the 19th century when the creation of a vast body of aesthetically significant works was coupled with the emergence of literary self awareness when the nature of the creative process the poetics and functions of the literary works and the ways of their influence on the reader were thoroughly comprehended and committed to writing for the first time. The book is intended for specialists in Asian literatures comparative literature and literary theory and for students of these topics. *The Freischütz Phenomenon: Opera As Cultural Mirror* Donald G. Henderson, 2011-05-11 *Der Freischütz* a German opera composed by Carl Maria von Weber premiered to great acclaim in 1821. It eventually became a national treasure in its homeland as well as an enduring fixture in the international repertory. Wilhelm Furtwängler a renowned conductor of the twentieth century proclaimed it to be an utterly unique opera and one of the greatest masterworks of world literature. The story is deeply rooted in German folklore. It involves rustic life in the forest threatening supernatural machinations strong communal bonds and the triumph of love and simple faith over dark power. *Der Freischütz* is not a typical opera. There are two reasons for considering it to be a singular cultural phenomenon 1 an extraordinary charisma in the Germanic sphere and 2 a fateful vulnerability to alteration and exploitation in its long performance history which undermined the opera's integrity while reflecting a wide range of ideas and attitudes in Western culture. The ultimate goal of this book is to restore the integrity of the original *Freischütz* and its depth of reference as well.

Classical World Literatures Wiebke Denecke, 2014 Ever since Karl Jaspers's axial age paradigm there have been a number of influential studies comparing ancient East Asian and Greco Roman history and culture. However to date there has been no comparative study involving multiple literary traditions in these cultural spheres. This book compares the dynamics between the younger literary cultures of Japan and Rome and the literatures of their venerable predecessors China and Greece. How were writers of the younger cultures of Rome and Japan affected by the presence of an older reference culture whose sophistication they admired even as they anxiously strove to assert their own distinctive identity? How did they tackle

the challenge of adopting the reference culture's literary genres rhetorical refinement and conceptual vocabulary for writing texts in different languages and within distinct political and cultural contexts *Classical World Literatures* captures the striking similarities between the ways early Japanese authors wrote their own literature through and against the literary precedents of China and the ways Latin writers engaged and contested Greek precedents But it also brings to light suggestive divergences that are rooted in geopolitical linguistic sociohistorical and aesthetic differences between early Japanese and Roman literary cultures Proposing a methodology of deep comparison for the cross cultural comparison of premodern literary cultures and calling for an expansion of world literature debates into the ancient and medieval worlds *Classical World Literatures* is both a theoretical intervention and an invitation to read and re read four major literary traditions in an innovative and illuminating light Illinois English Bulletin ,1961 **Ornithologies of Desire** Travis V. Mason,2013-09-03 *Ornithologies of Desire* develops ecocritical reading strategies that engage scientific texts field guides and observation Focusing on poetry about birds and birdwatching this book argues that attending to specific details about the physical world when reading environmentally conscious poetry invites a critical humility in the face of environmental crises and evolutionary history The poetry and poetics of Don McKay provide *Ornithologies of Desire* with its primary subject matter which is predicated on attention to ornithological knowledge and avian metaphors This focus on birds enables a consideration of more broadly ecological relations and concerns since an awareness of birds in their habitats insists on awareness of plants insects mammals rocks and all else that constitutes place The book's chapters are organized according to apparatus that is science as ecocritical tool flight and song Reading McKay's work alongside ecology and ornithology through flight and birdsong both challenges assumptions regarding humans place in the earth system and celebrates the sheer virtuosity of lyric poetry rich with associative as well as scientific details The resulting chapters interchapter and concordance of birds that appear in McKay's poetry encourage amateurs and specialists birdwatchers and poetry readers to reconsider birds in English literature on the page and in the field *Comic Books and American Cultural History* Matthew Pustz,2012-02-23 *Comic Books and American Cultural History* is an anthology that examines the ways in which comic books can be used to understand the history of the United States Over the last twenty years there has been a proliferation of book length works focusing on the history of comic books but few have investigated how comics can be used as sources for doing American cultural history These original essays illustrate ways in which comic books can be used as resources for scholars and teachers Part 1 of the book examines comics and graphic novels that demonstrate the techniques of cultural history the essays in Part 2 use comics and graphic novels as cultural artifacts the third part of the book studies the concept of historical identity through the 20th century and the final section focuses on different treatments of contemporary American history Discussing topics that range from romance comics and Superman to American Flagg and Ex Machina this is a vivid collection that will be useful to anyone studying comic books or teaching American history **Pierre Key's Music Year Book** ,1926

Philip Roth and World Literature: Transatlantic Perspectives and Uneasy Passages Velichka D. Ivanova, 2014-03-18 A book like this is long overdue because not many are aware of the numerous intersections between Philip Roth's fiction and world literature. In highlighting these intersections and uneasy passages, this comparative approach offers an important contribution to Philip Roth studies as well as to comparative literary study in general. The fourteen chapters on this book summon Roth's intertextual links to authors ranging from the anonymous writer of the medieval play *Everyman* through Thoreau, Hawthorne, Crane, Ellison, Coover, and the New York intellectuals in the United States to Swift, Chekhov, Svevo, Kafka, Schulz, Gombrowicz, Camus, and Kierkegaard in Europe and on to Coetzee in South Africa. The book does not deal with all the works in Roth's canon but it offers a selection of works representing the different stages of Roth's development as a writer. By offering new readings of both well studied and lesser studied works, sometimes in unexpected company, the book discloses the critical difference that comparative scholarship can affect. The uneasy passages the book opens will not exhaust the numerous intersections between Roth and the work of other writers. The book's contribution is to place Roth's fiction firmly in a larger transnational context. Far from insular, Roth's work appears as deeply rooted in the American canon while at the same time showing a remarkable openness, a persistent need for contact with his European forebears and true engagement with contemporary world literature. The transnational perspective of the book makes it important for the rapidly growing field of transatlantic and transnational American studies. The book will be a value to collections in American literature and Jewish studies, comparative literature and criticism, and transatlantic and transnational American studies.

Tensions in World Literature Weigui Fang, 2018-09-28 This collection gives a diversified account of world literature, examining not only the rise of the concept but also problems such as the relation between the local and the universal and the tensions between national culture and global ethics. In this context, it focuses on the complex relationship between Chinese literature and world literature, not only in the sense of providing an exemplary case study but also as an introspection and re-location of Chinese literature itself. The book activates the concept of world literature at a time when it is facing the rising modern-day challenges of race, class, and culture.
