**Matchmaking and the Marriage Market in Postrevolutionary France** Andrea Mansker, 2024-12-15 Matchmaking and the Marriage Market in Postrevolutionary France uncovers the unexplored history of matrimonial agents their novel marketing tactics and the rise of personal advertisements to track the commercialization of marriage in nineteenth century France Brokers transformed courtship and marriage into forms of commercial exchange linking them to the burgeoning urban values of abundance pleasure and social mobility By studying agents and readers media fictions on love alongside court cases legislation and literature surrounding the industry Andrea Mansker reveals the intimate and socioeconomic pressures of finding a spouse At the same time she demonstrates how contemporaries used the business of matrimony to reimagine their public identities relationships and courtship rituals following unprecedented historical change due to the French Revolution and Napoleonic wars The matchmaking business both responded to and helped shape national anxieties over fluctuating nuptial rates and changing laws on marriage and divorce As a result marriage itself was reconceived as a commercial contract inseparable from the atomistic and corrupt marketplace The debates and pressures Mansker describes in Matchmaking and the Marriage Market in Postrevolutionary France are still relevant today As contemporary online daters likely understand the possibility of finding a mate in an expanded pool of candidates beyond one's family locality and nation offered individuals the liberating opportunity to explore new personas just as it produced a novel sense of danger about these impersonal transactions in the anonymous marketplace

**Polyandry and Wife-Selling in Qing**

**Dynasty China** Matthew H. Sommer, 2015-09-15 This book is a study of polyandry wife selling and a variety of related practices in China during the Qing dynasty 1644 1912 By analyzing over 1200 legal cases from local and central court archives Matthew Sommer explores the functions played by marriage sex and reproduction in the survival strategies of the rural poor under conditions of overpopulation worsening sex ratios and shrinking farm sizes Polyandry and wife selling

represented opposite ends of a spectrum of strategies. At one end polyandry was a means to keep the family together by expanding it. A woman would bring in a second husband in exchange for his help supporting her family. In contrast wife sale was a means to survive by breaking up a family; a husband would secure an emergency infusion of cash while his wife would escape poverty and secure a fresh start with another man. Even though Qing law prohibited both practices under the rubric illicit sexual relations, Sommer shows how magistrates charged with propagating and enforcing a fundamentalist Confucian vision of female chastity tried to cope with their social reality in the face of daunting poverty. This contradiction illuminates both the pragmatism of routine adjudication and the increasingly dysfunctional nature of the dynastic state in the face of mounting social crisis. By casting a spotlight on the rural poor and the experiences of both men and women, Sommer provides an alternative to the standard paradigms of women's history that have long dominated scholarship on gender and sexuality in late imperial China.

Love at Last Sight Tyler Carrington, 2019. Framed by the life murder and sensational trial over an enterprising seamstress, *Love at Last Sight* tells a history of dating in Berlin where the romantic technologies and opportunities of the turn of the century city such as missed connections and newspaper personal ads offered men and women on the margins the best shot at finding love but exposed them to tremendous risk.

**The Relationship People** Erika R. Alpert, 2024-04-08. Japan has often been portrayed as a mysterious sexless troubled land. Birth rates and marriage rates have been decreasing for decades and national surveys show that Japanese people are simply having less sex overall. But Japan is not so different from anywhere else; it's simply on the leading edge of worldwide demographic shifts. Because of rigid norms around gender, marriage, childbearing, and work and relatively strict immigration policies, Japan is also experiencing these shifts more acutely. In *The Relationship People*, Erika R. Alpert starts by exploring some of the factors that have contributed to later and less marriage and childbearing in Japan and elsewhere. Alpert then goes on to explore the disjuncture between what Japanese singles report as preventing them from getting married and popularly proposed solutions to this problem. Japanese singles point to economic factors such as low income as one of their most significant barriers to marriage. However, much of the popular discourse aimed at Japanese singles elides these economic concerns; instead, it encourages them to exert more personal effort to meet people in order to get married. These marriage activities, *konkatsu*, may take the form of signing up with a professional matchmaker, using an online dating site, or going to singles parties. By examining *konkatsu* from the perspective of matchmakers, clients, and online daters, Alpert looks at the linguistic processes of connection that underpin *konkatsu* and its successes or more often failures. Institutions of matchmaking and technological structures such as databases and online profiles give shape to the ways singles connect. As this research shows, understanding this linguistic connective tissue enables us to answer questions about what constitutes attractive and marriageable in Japan, what kind of consciousness *konkatsu* is supposed to instill in singles, and what role Japan's various partner matching industries might be able to play in alleviating the country's demographic crisis.

*On the Job* Margo DeMello, 2021-01-13 This one-volume encyclopedia examines jobs and occupations from around the world that are unique and out of the ordinary: from bike fishermen in the Netherlands and professional wedding guests in South Korea to elephant dressers in India. It's not surprising that the first question we are asked by strangers often has to do with what we do for a living. It's another way of asking: Who are you and what are you about? But what happens when the answer to that question is I am a gondolier or I am an Instagram influencer? This book answers that question focusing on approximately 100 unusual occupations around the world. Arranged alphabetically, entries define the jobs and detail their historical, social and cultural significance. Entries also examine where the job is located, how it came to be, how people get into the position and what the economic and future outlook is for that job. While the entries focus on contemporary jobs, the encyclopedia also includes sidebars that highlight unique jobs from history to give the reader a sense of how unusual and often terrible some jobs once were. Students will find this book useful in looking at cultures around the world.

**For Better or For Worse** Hung Cam Thai, 2008-02-20 Marriage is currently the number one reason people migrate to

the United States and women constitute the majority of newcomers joining husbands who already reside here But little is known about these marriage and migration streams beyond the highly publicized and often sensationalized phenomena of mail order and military brides Less commonly known is that most international couples are immigrants of the same ethnicity In *For Better or For Worse* Hung Cam Thai takes a closer look at marriage and migration with a specific focus on the unions between Vietnamese men living in the United States and the women who marry them Weaving together a series of personal stories he underscores the ironies and challenges that these unions face He includes the voices of working class immigrant men dealing with marginalization in their adopted country These men speak about wanting traditional wives who they hope will recognize their gendered authority Meanwhile young Vietnamese college educated women undesirable to bachelors in their own country who are seeking subservient wives express a preference for men of the same ethnicity but with a more liberal outlook on gender men they imagine they will find in the United States A sense of foreboding pervades the book as Thai captures the incompatible viewpoints of the couples who appear to be separated not only geographically but ideologically
