## **Material Discourses Of Health And Illness:**

*Material Discourses of Health and Illness* Lucy Yardley, 2013-01-11 *Material Discourses of Health and Illness* applies discursive approaches to the field of health psychology in stark contrast to the bio medical model of health and illness. The discursive approach uses the person's experience and feelings as the central focus of interest, whereas the more traditional models regarded these as coincidental and relatively unimportant. The book provides an accessible and compelling introduction to social constructionist and discursive approaches to those with limited previous knowledge of socio linguistic theory and research. It provides practical examples of how these approaches can be applied to the field of health psychology with a collection of sophisticated discursive analyses which demonstrate the distinctive contribution that can be made by psychologists to a field that has been largely dominated by sociologists and anthropologists. **Understanding Depression** Janet Stoppard, 2014-01-14 Women are particularly vulnerable to depression. *Understanding Depression* provides an in depth critical examination of mainstream approaches to understanding and treating depression from a feminist perspective. Janet Stoppard argues that current approaches give only partial accounts of women's experiences of depression and concludes that a better understanding will only be achieved when women's experiences and lived realities are considered in relation to the material and social conditions in which their everyday lives are embedded. The impact of this change in approach for modes of treatment are discussed and solutions are suggested. *Understanding Depression* offers new insights into the problem and its treatment. It will prove useful to those with an interest in depression and gender as well as mental health practitioners.

*The Health Psychology Reader* David F Marks, 2002-06-06 *The Health Psychology Reader* is designed to complement and support the recent textbook *Health Psychology: Theory, Research and Practice* by David F Marks, Michael Murray, Brian Evans and Carla Willig. SAGE 2000. It can also be used as a stand alone resource given its didactic nature. The Reader explores key topics within the health psychology field with incisive introductions to each section by the Editor and includes a selection of the most important theoretical and empirical published work. **Discourse as Data** Simeon Yates, Margaret

Wetherell, Stephanie Taylor, Simeon J Yates, 2001-05-25 A highly effective introduction which gives readers a clear sense of how to analyze discourse data and then employ the analytic approaches in their own research. David Silverman, Goldsmith's College, University of London. This workbook will be invaluable for students across the social sciences who need to learn how to analyze discourse. Using a step by step approach, students are introduced to the principal range of methods for analyzing different types of text taken through key analytic concepts, offered specimen analyses and given the opportunity to try out analytic concepts on new data. *Discourse as Data* is organized around eight chapters, six of which are related to the domains covered in the Reader and top and tailed by two chapters which set up common methodological issues in discourse research relevant to all approaches such as transcription and the application and the critical evaluation of discourse research. Though the text will be a perfect companion to the simultaneously published Reader, its broad coverage combined with didactic

practical guidance should make this important reading for any student or researcher wishing to learn more about discourse analysis. This book will be ideal as a teaching tool and an invaluable aid on discourse analysis courses which have a practical content most notably within the fields of psychology, cultural and media studies, sociology and linguistics. This book is a course reader for The Open University course Discourse Analysis D843.

*Positioning Identities* Hazel K. Platzer, 2017-07-12. How do lesbians and gays negotiate their sexual identities in mental health care contexts? How do they manage the institutional homophobia and heterosexism embedded in health care practice and practitioners? Using interpretive phenomenology, Hazel Platzer overturns limiting dualisms to describe the ways in which lesbians and gays are silenced and pathologized in their mental health care encounters, how they resist, and how their resistance can restrict access to care. She highlights the difficulties of researching a sensitive topic with a relatively hidden population and devises innovative techniques for handling bias and a multi-methods approach to the phenomenological study of experience and identities. She then offers proactive steps toward creating a health care environment in which lesbian and gay identities are normalized, improving both access to and quality of health care.

*Health Psychology* Antonia C. Lyons, Kerry Chamberlain, 2006-02-16. This textbook aims to provide students with a stimulating alternative to the textbooks currently available by placing the discipline within the context of the social world and encouraging them to question some of the assumptions and values underlying much current research. A comprehensive survey of the discipline is provided, framed within a lifespan approach and emphasising social cultural factors such as gender, ethnicity and social economic status. All major topics are covered, including health behaviours, health promotion, coping strategies, stress, biomedical and biopsychosocial models of health and illness, chronic illnesses, psychoneuroimmunology, disability, pain, and patient-provider communication. Each topic is situated within its social and cultural context and constantly linked back to real-world experience. Chapters include valuable features such as research updates, learning objectives, and recommended readings. This book will be an invaluable resource for students of health psychology across a range of disciplines, including psychology, anthropology, and health studies.

**An Introduction to Critical Social Psychology** Alexa Hepburn, 2003-02-28. What is critical social psychology? In what ways can social psychology be progressive or radical? How can it be involved in political critique and reconstruction? Is social psychology itself the problem? Critical social psychology offers a confusing array of diverse answers to these questions. This book cuts through the confusion by revealing the very different assumptions at work in this fast-growing field. A critical approach depends on a range of often implicit theories of society, knowledge, as well as the subject. This book will show the crucial role of these theories for directing critique at different parts of society, suggesting alternative ways of doing research and effecting social change. It includes chapters from

*Advanced Research Methods for Applied Psychology* Paula Brough, 2024-08-27. *Advanced Research Methods for Applied Psychology* provides a comprehensive discussion of 21 key topics for the completion of an applied psychology or similar research thesis project. The book provides a one-stop shop for the current issues and

discussions of key research methods and common statistical analysis techniques but avoids being a step by step instruction guide The book is divided into four sections representing the stages of thesis completion getting started data collection data analysis and reporting research Each chapter presents a detailed scholarly discussion on a topic and represents the most up to date reference for that topic The Chapters also provide key references for further detailed readings and guides The chapters are authored by leading researchers from all around the world This book discusses both emerging and traditional research methods commonly utilised within applied psychology research projects and directly assists early researchers in providing an informed discussion of their decisions relating to their choice of for example research sampling the use of diary studies appropriate survey time lags conducting systematic reviews and the macro and micro process issues involved with conducting organisational interventions This book is an important reference text for applied psychology research thesis project students and researchers including both undergraduate and postgraduate students It will be of interest to applied psychology researchers in all fields clinical organisational developmental forensic etc and to those in other disciplines The book provides coverage of advanced research methods and statistical topics and is suitable for adoption for these courses in honours post graduate levels of study within applied psychology and related fields Rethinking Health Psychology Crossley, Michele, 2000-10-01 This introductory text presents a coherent overview of prevalent theories methods and applications within contemporary health psychology The Business of Being Made Katie Gentile, 2015-12-22 The Business of Being Made is the first book to critically analyze assisted reproductive technologies ARTs from a transdisciplinary perspective integrating psychoanalytic and cultural theories It is a ground breaking collection exploring ARTs through diverse methods including interview research clinical case studies psychoanalytic based ethnography and memoir Gathering clinicians and researchers who specialize in this area this book engages current research in psychoanalysis sociology anthropology philosophy and debates in feminist queer and cultural theory about affect temporality and bodies With psychoanalysis as its fulcrum The Business of Being Made explores the social constructions and personal experiences of ARTs Katie Gentile frames the cultural context exploring the ways ARTs have become a complex form of playing with time attempting to manufacture a hopeful future in the midst of growing global uncertainty The contributors then present a range of varied experiences related to ARTs including Interviews with women and men undergoing ARTs A psychoanalytic memoir of male infertility Clinical research and work with transgender gay and lesbian patients creating new Oedipal constellations the experiences of LBGQTQ people within the medical system and the variety of families that emerge Research on the experiences of egg donors now central to the business of ARTs and a corresponding clinical case study of successful egg donation The experiences of ongoing failure which is the often unacknowledged for ART procedures How and when people choose to stop using ARTs A psychoanalytic ethnography of a neonatal intensive care unit populated in part with the babies created through these technologies and their parents haggard and in shock after years of failed attempts Full of original

material The Business of Being Made conveys the ambivalence of these technologies without simplifying their complicated consequences for the bodies of individuals the family cultures and our planet This book will be relevant to clinicians medical and psychological personnel working in assisted reproductive technologies and infertility as well as academics working in the fields of sociology literature queer and feminist theories and at the intersections of cultural critical and psychoanalytic theories

*Women Voicing Resistance* Suzanne McKenzie-Mohr, Michelle N. LaFrance, 2014-03-26 Feminist scholars have demonstrated how dominant discourses and master narratives frequently reflect patriarchal influence thereby distorting and depoliticizing women's storying of their own lives In this groundbreaking volume a number of internationally recognized researchers working across a range of disciplines provide a detailed examination of women's attempts to counter story their lives when prevailing discourses are unhelpful or indeed harmful As such it is an exploration of women's agency and resistance which highlights the challenges and complexities of such discursive work The chapters explore women's resistance across a wide range of experiences including intimate partner violence casual sex depression premenstrual change disordered eating lesbian identity women's work in male dominated spaces rape and child birth Each chapter combines theoretical analyses with illuminating first hand accounts and elaborates practical implications that provide directions for individual and social change Providing an incisive and comprehensive exploration of discourse oppression and resistance that cuts across domains of women's everyday lives *Women Voicing Resistance* will be of great interest to students scholars and practitioners in the fields of psychology gender studies women's studies sociology and social work

*Research in Practice* Martin Terre Blanche, Martin J. Terre Blanche, Kevin Durrheim, Desmond Painter, 2006 A major shift in research methodology from technical to more contextual and pragmatic approaches this thorough resource incorporates new trends while also providing comprehensive coverage of the full range of established research approaches and techniques skillfully combining epistemology methodology statistics and application in a volume that is both sophisticated and practical Placing a greater emphasis on interdisciplinary and applied research skills this guide encourages the concurrent use of qualitative and quantitative methods and explores such complex topics as ethical issues in social science research inferential statistical methods and Marxist feminist and black scholarship perspectives

**Giving Birth To A Subject** Biljana Stanković, 2025-01-24 This book analyses how women navigate their personal worlds during a life stage of intense changes and ruptures within a complex and rapidly changing sociocultural context of a post socialist society The transition to first time motherhood is considered a unique phase in adult development bringing about an abundance of profound psychosocial and bodily changes This book length study examines these changes from a first person perspective with particular attention to dimensions of personal experience and functioning that are usually neglected in psychological and even sociocultural scholarship embodiment and techno material mediatedness To account for the complex and contextualised phenomenon the author outlines a theoretical framework that connects sociocultural psychology with phenomenology and science and

technology studies This pluralistic and interdisciplinary approach promises to move forward the way we think not only about women's experiences pregnant and birthing bodies and medical practices but also the way we think about subjects their embodied condition of existence and their entanglements with socio material aspects of culture The Criminalisation of Unaccompanied Migrant Minors Ioannis Papadopoulos,2023-07-17 In times of increasing migration flows Greece is often viewed as the gateway to Europe for significantly high numbers of asylum seeking individuals including unaccompanied minors Between 2016 and 2020 under Greek law unaccompanied children were to be temporarily placed in a protective environment upon irregular entry pending referral to suitable accommodation However in reality they were being subjected to detention procedures instead Giving voice to migrant children and professionals throughout the author combines legal analysis with criminology and unveils the discrepancy between the law and practice The findings demonstrate that unaccompanied children in Greece are criminalised through detention processes while being deprived of the right to be heard This book promotes child friendly practices in the international migration setting with a view to safeguarding the fundamental rights of unaccompanied minors experiencing detention upon arrival in host countries Risk and 'The Other' Hélène Joffé,1999-09-29 From earthquakes to epidemics AIDS to industrial accidents the mass media continually bring into our daily lives the awareness of risk But how do people respond to this increased awareness How do people cope with living in what has been termed the risk society This book attempts to explain how within a given social and cultural context individuals make sense of impending crisis In particular it tries to explain the phenomenon of a widespread sense of personal invulnerability when faced with risk the not me factor Using a social psychological framework it highlights emotional factors which are a key component of responses to risk but have hitherto been neglected due to the tendency of much work on risk to concentrate almost exclusively on cognitive processing This book will appeal to an international audience of post graduates academics and researchers in the areas of risk psychology sociology medical anthropology and psychoanalytic studies **Introducing Narrative Psychology** Crossley, Michele,2000-02-01 This introductory textbook presents a coherent overview of the theory methodology and potential application of narrative psychological approaches It compares narrative psychology with other social constructionist approaches and argues that the experience of self only takes on meaning through specific linguistic historical and social structures **Communicating Care** Paul Crawford,Brian Brown,Peter Nolan,1998 The authors of this book use their unique blend of experience to synthesise theoretical studies They offer critical analysis of a wide range of examples of good and bad use of language in order to guide nurses towards models of good practice Full consideration is given to the changing nature of the health care environment and to the need to address ethical legal and professional issues beyond the fundamentals of patient nurse interaction Treating Young Veterans Diann Kelly,Sydney Barksdale,David Gitelson,2011-04-22 The editors of Treating Young Veterans and the authors of the individual chapters provide practitioners with essential information about the needs desires and possibilities for veterans and their

families This book represents a thoughtful sensitive and sensible approach to working with military personnel and veterans who have been deployed to wars in the Persian Gulf Iraq and Afghanistan From the Foreword by Peter B Vaughan Dean Graduate School of Social Service Fordham University New York NY Many veterans unsuccessfully attempt to self manage their mental and physical health needs This volume examines the multiple challenges awaiting the new generation of young veterans returning to civilian life and provides strategies for mental health professionals to assist them in the process of readjustment It incorporates multidisciplinary state of the art research to present practice and advocacy opportunities that facilitate a healthy and socially engaged reintegration into society for both traditional veterans enlisted and career military personnel and nontraditional veterans reservists national guardsmen and women aged 18 to 40 years The volume is divided into three sections Assessment and Practice Approaches to Promote Resilience Outreach and Practice With Special Communities and Advocacy Practice to Promote Young Veterans Well Being Each section includes an introduction highlighting the chapters and an epilogue delineating important steps in practice outreach and advocacy Key Features Targets the specific needs of veterans of the Iraqi and Afghani conflicts Includes chapters on women and sexual trauma in the military and homeless combat veterans Addresses the special needs of children of veterans and the nature of ambiguous loss as veteran by proxy employment issues and equity issues related to reservists Authored by recognized experts including military officers attorneys and Veterans Affairs administrators Designed for both general and scholarly readers

*Systematic Synthesis of Qualitative Research* Michael Saini, Aron Shlonsky, 2012-02-01 Qualitative synthesis within the family of systematic reviews meets an urgent need to use knowledge derived from qualitative studies to inform practice research and policy Despite the contingent nature of evidence gleaned from synthesis of qualitative studies systematic synthesis is an important technique and used judiciously can deepen understanding of the contextual dimensions that emerge from qualitative research This pocket guide presents an overview for planning developing and implementing qualitative synthesis within existing protocols and guidelines for conducting systematic reviews The authors also explore methodological challenges including the philosophical tensions of integrating qualitative synthesis within the family of systematic reviews the balance of comprehensive and iterative information retrieval strategies to locate and screen qualitative research the use of appraisal tools to assess quality of qualitative studies the various approaches to synthesize qualitative studies including interpretive integrated and aggregative and the tensions between the generalizability and transferability of findings that emerge from qualitative synthesis Social work researchers educators and doctoral students who are interested in systematic reviews will find the step by step format of this book invaluable for conducting their reviews both in the form of rapid evidence assessments and in high quality critical reviews **Domestic Violence and Psychology** Paula

Nicolson, 2010-12-14 This book rethinks the way psychological knowledge of domestic violence has typically been constructed It puts forward a psychological perspective which is both critical of the traditional woman blaming stance as well as being at

odds with the feminist position that men are wholly to blame for domestic abuse and that violence in intimate relationships is caused by gender power relations. It is rather argued that to neglect the emotions, experiences and psychological explanations for domestic violence is to fail those who suffer and thwart attempts to prevent future abuse. Paula Nicolson suggests that domestic violence needs to be discussed and understood on several levels: material contexts including resources such as support networks as well as the physical impact of violence; the discursive as a social problem or gendered analysis; and the emotional level which can be both conscious and unconscious. Drawing on the work of scholars including Giddens, Foucault, Klein and Winnicott and using interview and survey data to illustrate its arguments, *Domestic Violence and Psychology* develops a theoretical framework for examining the context, intentions and experiences in the lives of women in abusive relationships, the men who abuse and the children who suffer in the abusive family. As such, this book will be of great interest to those studying social and clinical psychology, social work, cultural studies, sociology and women's studies.

Material Discourses Of Health And Illness: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthraling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the captivating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Material Discourses Of Health And Illness : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
