*Material Culture and Mass Consumerism* Daniel Miller, 1997-12-08 Exploring materialism and social relationships in modern culture *Material Culture and Mass Consumption* offers an in depth exploration of objects objectification ideology and materialism in modern society Drawing from Hegel Marx Munn and Simmel the discussion delves into the physicality of the material world and attempts to understand materialism as a form of cultural expression Targeting mass production as the root of mass consumption rather than the result this book positions material goods at odds with genuine social interaction and questions these relationships from the abstract to the intensely specific

**Material Culture and Technology in Everyday Life** Phillip Vannini, 2009 Focusing on the technoculture of everyday life this book attempts to zero in on the simplicity and the habitual character of the interaction between humans and material objects which is often assumed or taken for granted Because objects are always meaningful in the pragmatic use to which they are directed the material world of everyday life can be seen as a technoculture of its own one made of behaviors as simple and yet as significant as using a lawnmower or decorating one's body In discussing the unique methodological components of the ethnography of the technoculture of everyday life this book begins a dialogue on how we can examine from the participants perspective the interconnections between social agents their technological material practices their material objects or technics and their social and material environment

*Cultural Materialism* Marvin Harris, 2001-08-28 Cultural Materialism published in 1979 was Marvin Harris's first full length explication of the theory with which his work has been associated While Harris has developed and modified some of his ideas over the past two decades generations of professors have looked to this volume as the essential starting point for explaining the science of culture to students Now available again after a hiatus this edition of Cultural Materialism contains the complete text of the original book plus a new introduction by Orna and Allen Johnson that updates his ideas and examines the impact that the book and theory have had on anthropological theorizing

**Material Powers** Tony Bennett, Patrick Joyce, 2013-05-13 This edited collection is a major contribution to the current development of a material turn in the social sciences and humanities It does so by exploring new understandings of how power is made up and exercised by examining the role of material infrastructures in the organization of state power and the role of material cultural practices in the organization of colonial forms of governance A diverse range of historical examples is drawn on in illustrating these concerns from the role of territorial engineering projects in seventeenth century France through the development of the postal system in nineteenth century Britain to the relations between the state and road building in contemporary Peru for example The colonial contexts

examined are similarly varied ranging from the role of photographic practices in the constitution of colonial power in India and the measurement of the bodies of the colonized in French colonial practices to the part played by the relations between museums and expeditions in the organization of Australian forms of colonial rule These specific concerns are connected to major critical re examination of the limits of the earlier formulations of cultural materialism and the logic of the cultural turn The collection brings together a group of key international scholars whose work has played a leading role in debates in and across the fields of history visual culture studies anthropology geography cultural studies museum studies and literary studies

**The Stuff of Spectatorship** Caetlin Benson-Allott, 2021-04-06 Film and television create worlds but they are also of a world a world that is made up of stuff to which humans attach meaning Think of the last time you watched a movie the chair you sat in the snacks you ate the people around you maybe the beer or joint you consumed to help you unwind all this stuff shaped your experience of media and its influence on you The material culture around film and television changes how we make sense of their content not to mention the very concepts of the mediums Focusing on material cultures of film and television reception *The Stuff of Spectatorship* argues that the things we share space with and consume as we consume television and film influence the meaning we gather from them This book examines the roles that six different material cultures have played in film and television culture since the 1970s including video marketing branded merchandise drugs and alcohol and even gun violence and shows how objects considered peripheral to film and television culture are in fact central to its past and future
