Maternal Echoes Aimee Boutin, 2001-09 *Maternal Echoes* examines maternal imagery in the poetry of two French Romantic poets the increasingly popular Desbordes Valmore and the critically marginalized Lamartine Drawing on psychoanalytic theories on the maternal voice as well as feminist criticism the book argues that both poets find a voice of their own by echoing their mother's voice

Maternal Echoes Aimée Boutin, 2001 *Maternal Echoes* examines maternal imagery in the poetry of two French Romantic poets the increasingly popular Desbordes Valmore and the critically marginalized Lamartine Drawing on psychoanalytic theories on the maternal voice as well as feminist criticism the book argues that both poets find a voice of their own by echoing their mother's voice

Graziella Alphonse de Lamartine, 2018-11-13 In its first modern translation a novel cum memoir of a Frenchman's erotic awakening in Italy by a preeminent writer of the Romantic period In 1812 Alphonse de Lamartine a young man of means traveled through southern Italy where during a sojourn in Naples he fell in love with a young woman who worked in a cigar factory and whose death after he returned to France would haunt him throughout his writing life *Graziella* Lamartine called this lost girl in his poetry and memoirs and also in *Graziella* a novel that closely follows the story of his own romance When I was eighteen the narrator begins as if penning his memoir my family entrusted me to the care of a relative whose business affairs called her to Tuscany The tale that unfolds of the young man's amorous experiences amid the natural grandeur and subtle splendors of the Italian countryside is one of the finest works of fiction in the French Romantic tradition a bildungsroman that is also a melancholy portrait of the artist as a young man discovering the muse who would both inspire and elude him Remarkable for its contemplative prose its dreamy passions and seductive drawing of the Italian landscape and its place in the Romantic canon *Graziella* is a timeless portrait of love chronicling the remorse and the misguided ideals of youth that find their expression if not their amends in art

God's Mirror Katherine Davies, Toby Garfitt, 2014-12-01 Gathering in one place a cohesive selection of articles that deepen our sense of the vitality and controversy within the Catholic renewal of the mid twentieth century *God's Mirror* offers historical analysis of French Catholic intellectuals This volume highlights the work of writers thinkers and creative artists who have not always drawn the attention given to such luminaries as Maritain Mounier and Marcel Organized around the typologies of renewal and engagement editors Katherine Davies and Toby Garfitt provide a revisionist and interdisciplinary reading of the narrative of twentieth century French Catholicism Renewal and engagement are both manifestations of how the Catholic intellectual reflects and takes position on the relationship between the Church personal faith and the world and on the increasingly problematic relationship between intellectuals and the Magisterium A majority of the writings are based on extensive research into published texts with some occasional archival references and they give critical insights into the tensions that characterized the theological and political concerns of their subjects

completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism

A Delicate Choreography David Sabeen, 2023-10-24 The origins of the incest taboo have puzzled many of the most influential minds of the West from Plutarch to St Augustine St Thomas Aquinas Martin Luther David Hume Lewis Henry Morgan Sigmund Freud Emile Durkheim Edward Westermarck and Claude Lévi Strauss This book puts the discussion of incest on a new foundation It is the first attempt to thoroughly examine the rich literature from philosophical theological and legal treatises to psychological and biological genetic studies to a wide variety of popular cultural media over a long period of time The book offers a detailed examination of discursive and figurative representations of incest during five selected periods from 1600 to the present The incest discussion for each period is complemented with a presentation of dominant kinship structures and changes without arguing for causal relations Part I deals with the legacy of ecclesiastical marriage prohibitions of the Middle Ages Historians dealing with the Reformation have wondered about the political and social implications of theological debates about the incest rules the Enlightenment opted for sociological considerations of the household and a new anthropology based on the passions Baroque discourse focused upon sexual relations among kin by marriage while Enlightenment and Romantic discussions worried the intimacy of siblings The first section of Part II deals with the six decades around 1900 during which European and American cultures obsessed about the sexuality of women Almost everyone concurred in the idea that mother made the family what it was that she configured the household kept the lines of kinship vibrant and stood at the threshold as stern gatekeeper and many thought that she managed these tasks through her sexuality and an eroticized relationship with sons Another story line taken up in the section Intermezzo this one about the physical and mental consequences of inbreeding appeared after 1850 To what extent do close kin marriages pose risks for progeny At its center lay the incest problematic now restated Is avoidance of kin genetically programmed Do all cultures know about risks of consanguinity As for the twenty first century evolutionary and genetic assumptions are challenged by a living world population containing roughly one billion offspring of cousin marriages Part III deals with one of the perhaps most remarkable reconfigurations of Western kinship in the aftermath of World War I The shift from an endogamous to an exogamous alliance system centered on the nuclear family An historical anomaly this family form began to dissolve almost as soon as it came together and in the process shifted the focus of incest concerns to a new pairing father and daughter By the 1970s when the father daughter problematic swept all other considerations of incest aside that relationship had come to be modeled for the most part around power and its abusive potential As for incest its representations in the last three decades of the twentieth century no longer focused on biologically damaged progeny but rather on power abuses in the nuclear family sexual abuse By the mid 1990s Western culture at least partly redirected its

gaze away from father and daughter towards siblings especially towards brothers and sisters and the sexual boundaries and erotics of their relationships Correspondingly siblings became a model organism for psychotherapy evolutionary biology and the science of genetics
