**Abigail Tucker**

## **Maternal Instinct:**

**Mother Nature** Sarah Blaffer Hrdy, 1999 We are tempted to think of maternal instinct as a quality a woman has or lacks But the belief that mothers instinctively nurture their offspring one of the West's most cherished ideals and a view widely accepted even in scientific circles has become increasingly controversial Mother Nature presents a radical new way of understanding how mothers act and why and how this new understanding is changing the way scientists think about how evolution works Drawing on anthropology history literature developmental psychology and animal behavior Sarah Hrdy examines the distinct biological and genetic elements that constitute maternal instinct She strips away the biases implicit in conventional stereotypes of female nature to give us very different and provocative perspectives on maternal ambivalence the links between maturity and ambition mother love and sexual love and why age old tensions between the sexes persist and are being played out today in efforts to control women's reproductive choices Combining decades of research with her own experience as a mother Hrdy makes clear in this remarkable book what it means from a historical and evolutionary perspective to be a mother and explains how this knowledge has transformed our understanding of human development and behavior

**Maternal Instincts** Ann Sumner Holmes, Claudia Nelson, 1997-12-13 Maternal Instincts brings together seven new essays exploring conflicting visions of motherhood and sexuality in a period during which both terms were undergoing radical change Representations of both concepts mutated to accommodate different cultural contexts and individual ideologies Drawing upon sources including literature film medical handbooks popular science and legal records the articles collected here construct a vision of motherhood as alternately idealized discredited and fragmented by virtue of its connection with sexualities licit and illicit

**Maternal Instinct; Or Love** Joseph Meredith Toner, 1864 [The Maternal Instinct](#) Susan Hampshire, 1984 *Drug Use, Recovery, and Maternal Instinct Bias* Caitlyn D. Placek, 2024-01-26 *Drug Use Recovery and Maternal Instinct Bias* A Biocultural and Social Ecological Approach draws upon theoretical perspectives in anthropology and public health to provide insight into the barriers women experience when seeking treatment for substance use disorders In both theoretical perspectives in biological anthropology and social discourse within the United States there is an emphasis on explaining why women avoid or should avoid using psychoactive substances during their reproductive years especially during pregnancy Theories of women's drug avoidance during the childbearing years rely on statistics to show that women are less likely to use all types of illicit drugs than their male counterparts This gender gap however is closing in high income countries HICs calling for more research on the biocultural and social ecological factors contributing to women's drug use and the barriers to their recovery The book uses qualitative data from participants in Indiana to illustrate women's struggles along the pathway to recovery The overarching conclusion is that internalized models of maternal instinct a topic inherent in theoretical and public discourse can often impede efforts for women seeking treatment and recovery is only possible when proper social and structural supports are in place

**Mom Genes** Abigail

Tucker,2021-04-27 Everyone knows how babies are made but scientists are only just beginning to understand the making of a mother Mom Genes reveals the hard science behind our tenderest maternal impulses tackling questions such as whether a new mom s brain ever really bounces back why mothers are destined to mimic their own moms or not and how maternal aggression makes females the world s most formidable creatures Publisher s description *Encyclopedia of Motherhood*

Andrea O'Reilly,2010-04-06 In the last decade the topic of motherhood has emerged as a distinct and established field of scholarly inquiry A cursory review of motherhood research reveals that hundreds of scholarly articles have been published on almost every motherhood theme imaginable The Encyclopedia of Motherhood is a collection of approximately 700 articles in a three volume A to Z set exploring major topics related to motherhood from geographical historical and cultural entries to anthropological and psychological contributions In human society few institutions are as important as motherhood and this unique encyclopedia captures the interdisciplinary foundation of the subject in one convenient reference The Encyclopedia is a comprehensive resource designed to provide an understanding of the complexities of motherhood for academic and public libraries and is written by academics and institutional experts in the social and behavioural sciences *Miguel Street* V. S. Naipaul,Vidiadhar Surajprasad Naipaul,2000 The time is World War II the setting a derelict street in Trinidad s capital Port of Spain In this tender early novel Naipaul renders the residents lives and the legends that arise around them with Dickensian verve and Chekhovian compassion Copyright Libri GmbH All rights reserved **The Misunderstood Gene**

Michel Morange,2001 At a time when the complete human genome has been sequenced and when seemingly every week feature news stories describe genes that may be responsible for personality intelligence even happiness Michel Morange gives us a book that demystifies the power of modern genetics The Misunderstood Gene takes us on an easily comprehensible tour of the most recent findings in molecular biology to show us how and if genes contribute to biological processes and complex human behaviors As Morange explains if molecular biologists had to designate one category of molecules as essential to life it would be proteins and their multiple functions not DNA and genes Genes are the centerpiece of modern biology because they can be modified But they are only the memory that life invented so that proteins could be efficiently reproduced Morange shows us that there is far more richness and meaning in the structure and interactions of proteins than in all the theoretical speculations on the role of genes The Misunderstood Gene makes it clear that we do not have to choose between rigid genetic determinism and fearful rejection of any specific role for genes in development or behavior Both are true but at different levels of organization Morange agrees with those who say we are not in our genes But he also wants us to understand that we are not without our genes either We are going to have to make do with them and this book will show us how **Uncovering the Act of Maternal Infanticide from a Psychological, Political, and Jungian Perspective**

Brooke Laufer,2024-07-02 Using a wide range of disciplinary backgrounds Laufer examines the topic of maternal infanticide through the lens of Jungian theory and presents an integrated and forensic view of this issue as an aggregate of personal and

political moments and as a feminine and feminist outcry urging human evolution The first part of the book will dissect the identity of the infanticidal mother and the Death Mother archetype with the author providing firsthand accounts of patients that she has worked with in her professional career The second part of the book focuses on interpreting that act of maternal infanticide and these chapters will look to the construct of patriarchal Motherhood as a way of explaining the drive and actions of an infanticidal mother The third and final section of the book takes the concept of evolution and transmutation a step further and addresses what is required in our modern state for the event of maternal infanticide This is an important new book for Jungian and analytic clinicians and scholars with an interest in maternal archetypes as well as psychologists and psychiatrists who specialize in perinatal mental health It would also be appropriate for forensic psychologists and legal analysts and academics and clinicians in the fields of women s health and studies      **Maternal Instincts** Beth Henderson,2001 *Maternal Instincts* by Beth Henderson released on Jun 24 2000 is available now for purchase      **The Evolution of Childhood** Melvin Konner,2010-05-31 A comprehensive Darwinian interpretation of human development which examines both the cross cultural and universal characteristics of our growth from infancy to adolescence      *Child Development* Jean Mercer,2012-11-02 In *Child Development Myths and Misunderstandings 2e* Jean Mercer uses intriguing vignettes and questions about children and families to guide readers in thinking critically about 59 common beliefs      The Maternal Instinct Maria Vicedo-Castello,2005      **Psychology and Morals** J.
