Department of the Interior and Related Agencies Appropriations for 1979 United States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies, 1978 Sowing the Seeds of Safe Motherhood in Sub-Saharan Africa Kelsey A. Harrison, 2010-07-20 In most areas of Sub Saharan Africa it is expensive dangerous and unsafe to give birth especially when pregnancy is complicated by life threatening conditions Safe caesarean section has a key role to play in making childbearing safer but it costs around 300 or more and in a continent where most people live on less than 1 per day this is simply unaffordable to most households Worse still many cannot afford even the user fees charged Additionally the public healthcare systems are run down and understaffed often with demoralised underpaid and poorly motivated workers who often have to moonlight in order to supplement their wages Poverty and inadequacies in existing healthcare services and public utilities are however not the only factors undermining safe motherhood in Africa Governance structures are also weak and life for most people is harsh and chaotic Religious doctrines harmful cultural

beliefs and lack of education often reinforce women's inferior status and the neglect that follows especially during pregnancy labour and puerperium combine to produce the appalling health statistics common in Sub Saharan Africa today For instance maternal deaths per 100 000 deliveries are close to 900 and for every 1000 children born 100 die during the first week and 130 weigh less than 2.5 kg at birth Kelsey Harrison worked and researched on these issues for close to four decades and during that period published extensively in many of the most highly regarded peer reviewed journals in medicine This book is a selection of some of his publications in such journals as The Lancet British Journal of Obstetrics and Gynaecology British Medical Journal Clinical Science and Journal of the Royal Society of Medicine between 1966 and 2010 Included in this volume is the groundbreaking Zaria Maternity Survey which he initiated and whose results and recommendations are now being gradually accepted globally as the model for enhancing maternal health in Sub Saharan Africa

The Great Experiment Yascha Mounk, 2022-04-19 One of Barack Obama's Recommended Reads for Summer A brave and necessary book Anyone interested in the future of liberal democracy in the US or anywhere else should read this book Anne Applebaum A convincing humane and hopeful guide to the present and future by one of our foremost democratic thinkers George Packer A rare thing an academic treatise that may actually have influence in the arena of practical politics Passionate and personal Joe Klein New York Times Book Review From one of our sharpest political thinkers a brilliant big picture vision of how to bridge the bitter divides within diverse democracies Never in history has a democracy succeeded in being both diverse and equal treating different ethnic or religious groups fairly And yet achieving that goal is now central to the democratic project It is Yascha Mounk argues the greatest experiment of our time Drawing on history social psychology and comparative politics Mounk explains why we need to create a world in which our ascriptive identities come to matter less not because we ignore global injustices but because we have succeeded in addressing them The Great Experiment is that rare book that offers both a profound understanding of an urgent problem and genuine hope for our human capacity to solve it As Mounk contends it is up to us and the institutions we build whether we come to see each other as strangers or compatriots Giving up on the prospect of diverse democracies is simply not an option and that is why we must strive to realize a more ambitious vision for the future of our societies
