Critical Praxis Research Tricia M. Kress,2011-08-17 Critical

Praxis Research CPR is a teacher research methodology designed to bridge the divide between practitioner and scholar drawing together many strands to explain the research process not just as something teacher researchers do but as a fundamental part of who teacher researchers are Emphasizing the researcher over the method CPR embraces and amplifies the skills and passions teachers naturally bring to their research endeavours Emerging from the tradition of critical pedagogy Critical Praxis Research Breathing New Life into Research Methods for Teachers transcends longstanding debates over quantitative vs qualitative and scholar vs practitioner research The text examines the histories and current applications of common methodologies and re conceptualizes the ways that these methodologies can be used to enhance teachers identities as practitioners and researchers It also provides a critical examination of the role of Institutional Review Boards and explores the complexity and ethics of data collection data analysis and writing Through guiding questions and writing prompts the author encourages readers to think through the process of design and conducting CPR The text is theoretically rich but written in an accessible style infused with metaphor irony and humour Critical Praxis Research Breathing New Life into Research Methods for Teachers is both instructive and uplifting sending the message that research is difficult but also joyful like life itself

Inside Mathforum.org Wesley Shumar,2017-09-07 The internet has dramatically transformed social space and time for many people in many different contexts This dramatic warping of the social fabric has happened slowly over time as digital technologies have evolved and internet speeds have increased While we are all aware of these changes the impact is often little understood There are few monographs about social groups made possible by the internet and even fewer about educational communities made possible through digital technologies Inside Mathforum org details the ways that digital media are used to enhance the practices that teachers and students of mathematics engage in The book also shows how different kinds of mathematical conversations and interactions become possible through the digital media Unlike many other educational uses of digital media the Math Forum s community has provided online resources and sustained support for teachers and students and it leads the way in showing the power of digital media for education
