Math Facing An American Phobia:

Math Marilyn Burns,1998 Humorously Uncovers the Reasons Behind Math s Dreadful Reputation and Shows us How we Can Help Prevent Our Own Children From Adopting Similar Phobic Attitudes **ENC Focus** ,2001 **Family Involvement in Education** ,1998 *Getting Your Math Message Out to Parents* Nancy Litton,1998 Tackle the tricky issue of bridging the communication gap between teachers students and their parents This unique resource explore the various channels newsletters back to school night presentations homework and more through which teachers can communicate with parents about their children s math education **Math Wars** Carmen Latterell,2004-12-30 This book is written for parents and other interested parties so that they can understand the great debate taking place in many states in this country about how to teach basic math The debate centers around the standards written by the National Council of Teachers of Mathematics NCTM which call for a radically different approach to mathematics education Because the issues are so heated between the NCTM oriented curricula and traditional curricula the curricula that NCTM oriented replaced the term Math Wars was coined to describe them Parents are concerned about their children s math learning Teachers are concerned about math teaching When parents see what children are bringing home under the new curriculum it is clear that their children are not working on the same mathematics that parents remember from the time when they were in school But the problem goes beyond grades K 12 Post secondary mathematics courses are the fear of many students The standards created by the NCTM do not necessarily prepare students for success either on SATs or in college Besides lack of knowledge about mathematics education many parents have an additional problem in that they feel they lack knowledge in mathematics itself This is very intimidating thus it is difficult for parents to do anything about the confusing state of mathematics education This book provides some answers **Anxiety in Schools** Jerrell C. Cassady,2010 Anxiety in Schools presents current theory and research addressing both context and content specific contributions to anxieties experienced in schools The concept of academic anxiety is a new construct formed through the content within this book and is proposed as a unifying representation for various forms of specialized manifestations of anxiety in school settings With contributions from leaders in their respective fields of academic anxieties the book provides detailed and thorough explorations of the varied and specific orientations toward anxieties in school settings Explicit attention is given to the broader construct of academic anxiety and the contextual influences that can be brought to overcome or mitigate the impact of the many academic anxieties encountered by learners *Teaching Math, Science, and Technology in Schools Today* Dennis Adams,Mary Hamm,2014-02-19 Teaching Math Science and Technology in Schools Today Guidelines for Engaging Both Eager and Reluctant Learners offers unique engaging and thought provoking ideas The activities open imaginative doors to learning and provide opportunities for all learners It surveys today s most important trends and dilemmas while explaining how collaboration and critical thinking can be translated into fresh classroom practices Questions engagement and curiosity are

viewed as natural partners for mathematical problem solving scientific inquiry and learning about technology Like the Common Core State Standards the book builds on the social nature of learning to provide suggestions for both eager and reluctant learners The overall goal of the book is to deepen the collective conversation challenge thinking and provide some up to date tools for teachers so they can help reverse the steady erosion of math science and technology understanding in the general population *Bringing Science and Mathematics to Life for All Learners* Dennis M. Adams, Mary Hamm, 2008
