The methods presented are based on scientific findings that have been tested in many classrooms. A wealth of examples, hands-on activities, and classroom vignettes, including lesson plans, assessments, lists of children's literature, books to fiction and nonfiction texts, and more, illustrate the methods and bring them to life. The text highlights the importance of teaching every child to become competent in Books in Print Supplement, 2002 Geometry Grade 6, 1999-11 Young Adult Nonfiction Judith A. Hayn, Jeffrey S. Kaplan, Amanda L. Nolen, Heather A. Olvey, 2015-11-19 No matter the location, schools are guided by standards including Common Core State Standards. This collection of contributions by some of the country's leading literacy experts offers practical suggestions for implementing young adult literature to meet the demand that standards mandate for focusing on nonfiction in teaching literacy. The challenges to CCSS abound, and teachers who are currently seeking avenues to reach their students, no matter what content they teach, will find the strategies and suggestions useful. The text advocates using young adult literature to accomplish content area literacy and is intended as a primer for those who are building curriculum.
