Remillard,Ok-Kyeong Kim,2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors *Managing the New Tools in K-12 Teaching and Learning* Jerome A. Schulz,2018-02-02 *Managing the New Tools in K 12 Teaching and Learning* How Technology Can Enable School Improvement is about how to manage technology for learning at the district and school levels It provides an overview of the components of learning technology these include student devices networking software productivity toolkits electronic curricula and resources and data system infrastructure And it discusses how we can manage our technology efforts more effectively to help our students attain the benefits of this technology The book concludes with case studies of how this is being done at pioneering districts We are now at a tipping point in implementing learning technology on a larger scale This is happening very quickly Historically learning technology was driven by a strategy of technology integration where we called on individual teachers to each determine how to use technology in their classes and make changes in their own ways of working But to successfully implement technology on the scale we need requires top

down as well as bottom up efforts Managing the New Tools in K 12 Teaching and Learning focuses on how districts and schools can now use technology to bring about the big improvements in learning we are all striving for **Catalog of Copyright Entries.
