Old News: Resurrection City Jill Freedman, 1970 The Rev Martin Luther King Jr's dream of a Poor Peoples Campaign in Washington was still in the planning stages when he was assassinated on April 4 1968 King had envisioned a mass rally of economically disadvantaged people which would shut down Washington DC until legislators promised solutions to poverty and unemployment He had all the poor in mind not just black folks He also spoke out about against the war in Vietnam In May the March on Washington began I knew I had to shoot it I had to see what was happening to record it and be part of it Of course it was old stuff from the start Another nonviolent demonstration Another March on Washington Another army camping calling on a deaf government Even poverty is ancient history We built Resurrection City out of plywood shacks on the Washington Mall between the Lincoln Memorial and the Washington Monument Talk about poor Some of those people raised their whole standard of living just by moving in Food every day electric lights enough beds for everyone This mudhole was a paradise At 2 30 in the morning of the last day the authorities gassed us in our beds photographer's website viewed 9 23 2020

King and the Other America Sylvie Laurent, 2019-01-08 Shortly before his assassination Martin Luther King Jr called for a radical redistribution of economic and political power to transform the whole of society In 1967 he envisioned and designed the Poor People's Campaign an interracial effort that was carried out after his death This campaign brought together impoverished Americans of all races to demand better wages better jobs better homes and better education *King and the Other America* explores this overlooked and obscured episode of the late civil rights movement deepening our understanding of King's commitment to social justice and also of the long term trajectory of the civil rights movement Digging into earlier radical arguments about economic inequality across America which King drew on throughout his entire political and religious life Sylvie Laurent argues that the Poor People's Campaign was the logical culmination of King's influences and ideas which have had lasting impact on young activists and the public Fifty years later growing inequality and grinding poverty in the United States have spurred new efforts to rejuvenate the campaign This book draws the connections between King's perceptive thoughts on substantive justice and the ongoing quest for equality for all

Native Activism in Cold War America Daniel M. Cobb, 2008-10-24 The heyday of American Indian activism is generally seen as bracketed by the occupation of Alcatraz in 1969 and the Longest Walk in 1978 yet Native Americans had long struggled against federal policies that threatened to undermine tribal sovereignty and self determination This is the first book length study of American Indian political activism during its seminal years focusing on the movement's largely neglected early efforts before Alcatraz or Wounded Knee captured national attention Ranging from the end of World War II to the late 1960s Daniel Cobb uncovers the groundwork laid by earlier activists He draws on dozens of interviews with key players to relate untold stories of both seemingly well known events such as the American Indian Chicago Conference and little known ones such as Native participation in the Poor People's Campaign of 1968 Along the way he introduces readers to a host of previously neglected but critically important activists Mel Thom Tillie Walker Forrest Gerard Dr Jim Wilson Martha Grass and many others Cobb takes readers inside the early movement from D Arcy McNickle's founding of American Indian Development Inc and Vine Deloria Jr's tenure as executive director of the National Congress of American Indians to Clyde Warrior's leadership in the National Indian Youth Council and describes how early activists forged connections between their struggle and anticolonialist movements in the developing world He also describes how the War on Poverty's Community Action Programs transformed Indian Country by training bureaucrats and tribal leaders alike in new political skills and providing activists with the leverage they needed to advance the movement toward self determination This book shows how Native people who never embraced militancy and others who did made vital contributions as activists well before the American Indian Movement burst onto the scene By highlighting the role of early intellectuals and activists like Sol Tax Nancy Lurie Robert K Thomas Helen Peterson and Robert V Dumont Cobb situates AIM's efforts within a much broader context and reveals how Native people translated the politics of Cold War civil rights into the language of tribal sovereignty Filled with fascinating portraits Cobb's groundbreaking study expands our understanding of American Indian political activism and contributes significantly to scholarship on the War on Poverty the 1960s and postwar politics and social movements

Protest Camps Anna Feigenbaum, Fabian Frenzel, Patrick McCurdy, 2013-10-10 From Tahrir Square to Occupy from the Red Shirts in Thailand to the Teachers in Oaxaca protest camps are a highly visible feature of social movements activism across the world They are spaces where people come together to imagine alternative worlds and articulate contentious politics often in confrontation with the state Drawing on over fifty different protest camps from around the world

over the past fifty years this book offers a ground breaking and detailed investigation into protest camps from a global perspective a story that until now has remained untold Taking the reader on a journey across different cultural political and geographical landscapes of protest and drawing on a wealth of original interview material the authors demonstrate that protest camps are unique spaces in which activists can enact radical and often experiential forms of democratic politics

Dr. Martin Luther King Jr. and the Poor People's Campaign of 1968 Robert Hamilton,2020-12 This book introduces new audiences to Dr Martin Luther King Jr s final initiative the multiracial Poor People s Campaign PPC of 1968 Robert Hamilton depicts the experience of poor people who traveled to Washington in May 1968 to dramatize the issue of poverty by building a temporary city Resurrection City His narrative allows us to hear their voices and understand the strategies objectives and organization of the campaign In addition he highlights the campaign s educational aspect showing that significant social movements are a means by which societies learn about themselves and framing the PPC as an initiative whose example can teach and inspire current and future generations The study thus situates Dr Martin Luther King Jr s legacy and teachings in relation to current events and further solidifies Dr King s cultural and sociopolitical relevance In the decades since 1968 we have seen increasing global inequality leading to greater social polarization including in the United States Hamilton offers the insight that the radical politics of Dr King as represented in the civil rights and human rights agendas of the PPC can help us understand and address the challenges of this polarization Hamilton highlights Dr King s commitment to ending poverty and explains why Dr King s ideas on this and related issues should be brought to the attention of a wider public who often view him almost exclusively as a civil rights but not a human rights leader

Composition in the Age of Austerity Nancy Welch,Tony Scott,2016-04-01 In the face of the gradual saturation of US public education by the logics of neoliberalism educators often find themselves at a loss to respond let alone resist Through state defunding and many other reforms fueled by austerity politics a majority of educators are becoming casual labor in US universities while those who hang onto secure employment are pressed to act as self supporting entrepreneurs or do more with less Focusing on the discipline of writing studies this collection addresses the sense of crisis that many educators experience in this age of austerity The chapters in this book chronicle how neoliberal political economy shapes writing assessments curricula teacher agency program administration and funding distribution Contributors also focus on how neoliberal political economy dictates the direction of scholarship because the economic and political agenda shaping the terms of work the methods of delivery and the ways of valuing and assessing writing also shape the primary concerns and directions of scholarship Composition in the Age of Austerity offers critical accounts of how the restructuring of higher education is shaping the daily realities of composition programs The book documents the effects and implications of the current restructuring examines how cherished rhetorical ideals actually leave the field unprepared to respond effectively to defunding and corporatizing trends and establishes points of departure for collective response

The Roots of Urban Renaissance Brian D. Goldstein,2023-03-14 An acclaimed

history of Harlem's journey from urban crisis to urban renaissance. With its gleaming shopping centers and refurbished row houses today's Harlem bears little resemblance to the neighborhood of the midcentury urban crisis. Brian Goldstein traces Harlem's Second Renaissance to a surprising source: the radical social movements of the 1960s that resisted city officials and fought to give Harlemites control of their own destiny. Young Harlem activists inspired by the civil rights movement envisioned a Harlem built by and for its low-income, predominantly African American population. In the succeeding decades, however, the community-based organizations they founded came to pursue a very different goal: a neighborhood with national retailers and increasingly affluent residents. *The Roots of Urban Renaissance* demonstrates that gentrification was not imposed on an unwitting community by unscrupulous developers or opportunistic outsiders. Rather, it grew from the neighborhood's grassroots, producing a legacy that benefited some longtime residents and threatened others. **WITNESS**

Howard University Library, Washington, D.C. Moorland Foundation, 1970. **Making the Movement** David L. Crane, 2022-09-20. Packed with over 200 color photos, this visual journey through Black history and the Civil Rights Movement is told through the objects: buttons, badges, flyers, pennants, posters, and more, designed by activists as tools to advance the fight for justice and freedom, offering a unique perspective on the Civil Rights Movement from Emancipation through the present day. From Reconstruction through Jim Crow through the protest era of the 1960s and 70s to current-day resistance and activism, such as the Black Lives Matter movement, the material culture of the Civil Rights Movement has been integral to its goals and tactics. During decades of sit-ins, marches, legal challenges, political campaigns, boycotts, and demonstrations, objects such as buttons, flyers, pins, and posters have been key in the fight against racism, oppression, and violence. *Making the Movement* presents more than 200 of these nonviolent weapons alongside the stories of the activists, organizations, and campaigns that defined and propelled the cause of civil rights. It is a must-read for anyone seeking to learn about Black and African American history in the United States and about strategies to combat racism and the structures that support it.

Symbols, the News Magazines and Martin Luther King Richard Lentz, 1999-03-01. More than two decades after his death, Martin Luther King Jr. remains America's preeminent symbol of the civil rights movement. In the early years of the movement, King advocated a policy of nonviolent resistance to the racism ingrained in American society. In later years, however, King adopted a more militant stance toward racial and other forms of injustice. In this innovative book, Richard Lentz considers King as a cultural symbol from the Montgomery bus boycott of 1955-1956 to the Poor People's Campaign, which King helped organize shortly before his assassination in 1968. In particular, Lentz examines the ways the three major news weeklies, *Newsweek*, *Time*, and *U.S. News & World Report*, presented King to their readers. It is primarily through media

institutions that Americans shape and interpret their values Newsweek Time and U S News though representing different shadings of political ideology ranging from left of center to conservative were all aimed at the same audience middle class Americans Therefore their influence on the nation s values during a period of enormous social upheaval was significant In the mid 1960s when King shifted from reform to radicalism the news magazines were thrust into what Lentz calls a crisis of Symbols because King no longer fit the symbolic mold the magazines had created for him Lentz investigates how the magazines responded to this crisis discussing the ways in which their analyses of King shifted over time and the means they employed to create a new symbolic image that made sense of King s radicalization for readers This is an important perceptive study of Martin Luther King Jr s career and an astute critical analysis of the reporting practices of the news media in the modern era

Image operations Jens Eder,Charlotte Klonk,2016-12-14 Still and moving images are crucial factors in contemporary political conflicts They not only have representational expressive or illustrative functions but also augment and create significant events Beyond altering states of mind they affect bodies and often life or death is at stake Various forms of image operations are currently performed in the contexts of war insurgency and activism Photographs videos interactive simulations and other kinds of images steer drones to their targets train soldiers terrorise the public celebrate protest icons uncover injustices or call for help They are often parts of complex agential networks and move across different media and cultural environments This book is a pioneering interdisciplinary study of the role and function of images in political life Balancing theoretical reflections with in depth case studies it brings together renowned scholars and activists from different fields to offer a multifaceted critical perspective on a crucial aspect of contemporary visual culture Photographer's Forum,2003
