Paramodern Architecture Shuhei Endo:

SHUHEI ENDO Hiroyuki Suzuki, 2003-06-25 A detailed survey on the Japanese avant garde architect *Endo Shuhei* Shuhei Endo, 2021 **Endo Shuhei - Paramodern Architecture**, 2015 **Shuhei Endo** Shuhei Endo, Hiroyuki Suzuki, 2002 *Dwell*, 2003-10 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines **Japan** Masaaki Takahashi, 2007 Insightful look at the many young interior designers and architects creating an impression in Japan today The City as Target Ryan Bishop, Gregory Clancey, John W. Phillips, 2012-03-29 Bringing together scholars from a diverse range of disciplines *The City as Target* provides a sustained and critical response to the relationship between the concept of targeting in its many forms and notions of understanding imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight both the power of *The Global City* and the current vulnerability and fragility of urban culture exploring the city as a recipient and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies Corrugated Iron Adam Mornement, Simon Holloway, 2007-12-25 *Corrugated Iron Building on the Frontier* *New Japan Architecture* Geeta Mehta, Deanna MacDonald, 2012-07-09 Featuring dozens of high quality photographs schematic designs and insightful commentary this Japanese architecture book is a must have for architects or collectors The past five years are widely consider to have been the most innovative period in contemporary Japanese design history The projects featured in *New Japan Architecture* were completed during this extraordinarily fertile time Featuring breathtaking images of modern Japan this volume presents forty eight extraordinary projects by forty two of the world s leading architects including Hitoshi Abe Ward Kishi Tadao Ando Chiba Manabu Architects Toyo Ito Kengo Kuma Kazuyo Sejima This architecture book features a wide range of buildings some exhibiting the ultimate ideal of the white Zen cube while others exemplify the search for the new wow factor in iconic design In many cutting edge modernity is

counterbalanced by a concern for sustainability an issue that has motivated many architects to rethink and reintroduce concepts drawn from traditional Japanese architecture Projects big and small private and public residential and commercial are included Insightful text by two leading experts in the field of Japanese architecture highlights the remarkable aspects of each building and places these developments within the wider context of world architecture Offering an essential overview of current trends New Japan Architecture points the way to modern architecture s future *Asian Ethical Urbanism: A Radical Postmodern Perspective* William Siew Wai Lim,2005-07-15 With the impending demise of modernist planning the footprints and corpses of failed modernist visions are littered everywhere A vacuum of implementable urban theories has occurred at the time when unprecedented expansion and restructuring of cities in rapidly developing economies are taking place In this collection of essays William S W Lim zeroes in on the peculiarities and dynamics of present Asian urban and architectural conditions in order to challenge and transcend the socio ecological forms and political influences generated by the current system of global capitalism Part I of this book consists of the main essay which attempts to establish baselines for an effective formulation of ethical urbanism in Asia by clarifying issues that have previously been unquestioningly bound up with Western values and discourses As an architect urbanist Lim lends a determinedly spatialist and environmental perspective to issues such as rights ethics happiness and social justice while compelling his readers to rethink previously established notions about them Part II of this book consists of three city studies on Hanoi Shanghai and Singapore completed in the last two years which attempt to match Lim s theoretical formulation with actual conditions occurring in Asia today Also included is *Asian Architecture in the New Millennium* a fascinating discourse on contemporary design conducted from a postmodern perspective Designing Emerging Markets Giaime Botti,2023-05-22 This book offers a unique glance into the process of globalisation of the architectural practice during the last three decades through the lenses of innovative methodologies in architectural history based on quantitative data Focusing on the golden age of globalisation 1990 2019 it investigates the transnational work of more than one thousand architectural firms of different business models from Europe North America and the Asia Pacific in a broad sample of emerging markets Mainland China South East Asia India the Persian Gulf Sub Saharan Africa Russia and Kazakhstan and Latin America In the book different thematic geographies are presented to explore the global scope of the contemporary profession examine significant projects and the structural conditions behind them and reveal the debates that such works generated Understanding the global agency of design firms in emerging markets also becomes a way to study different market conditions modes of production and architectural trends comparatively and to highlight the shifts that occurred in the profession over the last few decades The use of quantitative methodologies produces a novel and updated narrative on contemporary architecture in emerging markets grounded in quantitative data rather than in preassumptions and purely qualitative interpretations Richly illustrated this book is further enhanced by an ample set of maps graphs and tables to visualise data better *Compact Houses* Cristina del Valle,2005 This volume

showcases 55 architect designed compact houses including beach cottages mountain houses ski chalets and vacation homes Each project profiled includes a case history describing the design challenges the architect faced and how these were overcome **Paramodern** Shuhei Endo,2002 **Building and Ground** Erin Elizabeth Moore,2003 Contemporary Japanese Architecture James Steele,2017-03-16 Contemporary Japanese Architecture presents a clear and comprehensive overview of the historical and cultural framework that informs the work of all Japanese architects as an introduction to an in depth investigation of the challenges now occupying the contemporary designers who will be the leaders of the next generation It separates out the young generation of Japanese architects from the crowded distinguished multi generational field they seek to join and investigates the topics that absorb them and the critical issues they face within the new economic reality of Japan and a shifting global order Salient points in the text are illustrated by beautiful descriptive images provided by the architects and from the extensive collection of the author By combining illustrations with timelines and graphics to explain complex ideas the book is accessible to any student seeking to understand contemporary Japanese architecture

Modern Architecture Jonathan Glancey,2023-05-16 A pocket size visual guide to the great buildings and structures of the modern age from around the world *Choice* ,2004 Restroom Jennifer Hudson,2008 Restrooms can be the hidden gems of an interior design scheme every building needs them yet they are often overlooked in favor of the more public spaces This book sets out to remedy this by covering more than 45 of the best recent designs from around the world by major international designers Organized into chapters by type of interior restaurants hotels bars and clubs public restrooms and other public buildings for each project there will be numerous images together with plans where useful showing the location and interior arrangement of the space making this an invaluable resource for both interior designers and architects The British National Bibliography Arthur James Wells,2005 **Bibliographic Index** ,2007
