Masters William G Roll Russell Targ Charles T Tart Montague Ullman and many more **Parapsychology: Frontier Science of the Mind** J. B. Rhine, J. G. Pratt, 2010-06-01 Master magician Harry Houdini and English ghost researcher Harry Price were true pioneers in both establishing skepticism and scientific methods in the newly created field of paranormal research They set the foundation for future 20th Century researchers such as J B Rhine Joseph Banks Rhine was a botanist who later developed an interest in parapsychology and psychology Rhine founded the parapsychology lab at Duke University the Journal of Parapsychology and the Foundation for Research on the Nature of Man He also initiated the Parapsychological Association Rhine also coined the term ESP I think the reader will find that 1957's Parapsychology Frontier Science of the Mind is as relevant today as it was when it first written Parapsychology Etzel Cardeña, John Palmer, David Marcusson-Clavertz, 2015-08-14 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone's satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don't know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories Instructors considering this book for use in a course may request an examination copy here **Basic Research in Parapsychology, 2d ed.** K. Ramakrishna Rao, 2016-03-15 This expanded and revised text includes thirteen experimental reports five new to this edition and seven review articles involving meta analysis and the assessment of evidence in specific areas of psi research The author provides a representative sample of the extensive literature in the controversial field of parapsychology and presents a few basic experiments illustrating various procedures and broadly reflecting the major trends of psi research Possible experimental procedures cumulative evidence showing the replicability of individual experiments and promising areas of psi research are also discussed Instructors considering this book for use in a course may request an examination copy here **Survival Research: Problems and Possibilities** William G. Roll, 2016-05-01 When we ask whether consciousness continues after death we usually assume that a surviving self will exist in some kind of body and will include the personality familiar from waking experience Since the consciousness that may continue after death presumably exists before we may explore it in the living This essay chapter 17 of Psychic Exploration studies the problems and possibilities of survival research The full volume of Psychic Exploration can be purchased as an ebook or paperback version from all major online retailers and at cosimobooks.com Psychic Research in the Soviet Union Thelma Moss, 2016-05-01 This essay chapter 20 of Psychic Exploration is an

The Concise Guide to Today's Religions and Spirituality James K. Walker, 2007-04-01 Biblical, evangelical, and orthodox. The Concise Guide to Today's Religions and Spirituality supplies readers with a comprehensive A to Z information source. Supported by the trustworthy research of Watchman Fellowship and its president James Walker, its thousands of entries give the basics needed to evaluate spiritual belief systems, movements, and phenomena. Christian, quasi-Christian, and non-Christian, and the people connected with them. Definitions, descriptions, and cross references pack the maximum useful information into concise form, as in these examples: Adler, Margo. A witch affiliated with the Covenant of the Goddess, the second largest coven in the United States. Adler wrote the highly influential book *Drawing Down the Moon*. See GODDESS WICCA. Bioenergy. NEW AGE practice of healing in which life energy is balanced by opening blocked meridians. See HOLISTIC HEALING. A great resource for individuals, parents, church leaders, counselors, friends who want to give sound advice, as well as for study groups and church libraries.

Advances in Parapsychological Research Stanley Krippner, 2013-03-08. Montague Ullman. The second volume of this series includes essays on methods and issues in ESP research. Morris research findings in ESP. Palmer and theories of psi. Rao. It thus complements the areas covered in Volume 1, the two volumes taken together providing the reader with a sound grounding in the progress and achievements of parapsychological research from its inception to the present day. What is immediately striking is the rapid increase in the amount and variety of experimental reports appearing in the last decade and the increasing number of centers in which research is being carried out. Work in parapsychology is moving toward a broader disciplinary base, the use of more imaginative technology, greater academic support, and more activity on an international scale. These are promising signs of a rapprochement between parapsychological research and the mainstream of science. Robert O. Becker, in his preface to Volume 1, holds out the hope that parapsychology will lead the way to a new view of the biological organism, one going beyond mechanism to a new vision of the human being and his place in the universe. Becker, 1977. Heavy as this responsibility may be, a careful reading of the present volume should persuade the reader that a new view is very much in order.

The Elusive Quarry Ray Hyman, 1989-04. Ever since the Society for Psychical Research was founded over a hundred years ago, parapsychologists have been attempting to prove the existence of paranormal phenomena: things like clairvoyance, telepathy, precognition, and remote viewing. This research into what is now often called psi has become increasingly technical. Controlled laboratory experiments have replaced systematic surveys of spontaneous occurrences; complicated statistical analyses have replaced anecdotal data. In short, psychical research has aspired to the standards of hard science. With what

results Ray Hyman is supremely qualified to say A research psychologist held in the highest esteem by both parapsychologists and skeptics Ray Hyman here reviews the history and methods of psychical research The Elusive Quarry is Hyman s fascinating fair minded critique of the field a book designed not to debunk but to discern In Part 1 Parapsychology Hyman gives us a historical overview Over the past hundred years what have been the strongest claims made for the paranormal Hyman gives close scrutiny to what have been called ganzfeld experiments a body of research considered by parapsychologists to be especially compelling Part 2 Scientists and the Paranormal focuses on the scientists themselves from Michael Faraday and Sir William Crookes in the last century to Helmut Schmidt and his recent work with random event generators Scientists have been interacting with an admittedly unique group of people psychics Are their methods of testing and reporting appropriate for the phenomena under examination Hyman steps outside of the laboratory for his book s third part Psychic Phenomena and evaluates the claims of water witching occult healing and remote viewing In doing so he demonstrates that one s interpretation of scientific data is strongly affected by one s underlying belief or lack of belief in paranormal phenomena In Part 4 The Psychology of Belief Hyman vividly explains cold reading that ability psychics have to convince strangers that they know all about them It s an ability anybody can develop Hyman says The psychology is common not psychic
