**Motherhood, Childhood, and Parenting in an Age of Education** Maryellen Schaub, 2023-05-05 Motherhood as a celebrated yet underappreciated role is often thought of as a natural process something instinctive that we refine by watching our own mothers and others in our community We rarely think of motherhood as something that is time and culturally specific yet like culture itself it is socially constructed and both motherhood and childhood evolve over time With the rise in educational attainment of mothers in the American population the expectations associated with childhood increasingly include not just education but cognitive development and extracurricular activities as the partnership between parents and education intensifies in the joint project

of human development of children Motherhood Childhood and Parenting in an Age of Education offers a new way to conceptualize the high demands of contemporary parenthood It traces the emerging narrative about the good mother changes in the underlying assumptions of what constitutes the good mother and the implications for the good childhood as education grows in institutional strength This book demonstrates that education is driving the formation of the parent and child roles in the dominant contemporary culture of the US although alternate models exist Education itself has expanded over time to become our largest social intervention defining behaviors and beliefs such as parental involvement in schooling the unengaged parent and the deficient student

*Psycho-legal Concepts for Parenting in Child Custody and Child Protection Vol. 2* Don Tustin, 2024-10-19 This book provides an overview of changes in legislation in Australia concerning both family law and child protection law The topic is important as the Australian Government has identified that the rate of mental disorder in some cohorts of children is high and rising These cohorts of children live in families where they are vulnerable because they are exposed to risk factors that can be changed by a coordinated effort from parents therapists and lawyers The aim of the book is to identify psycho legal concepts that need to be understood by professionals who work in the fields of child custody and child protection and to bring these concepts together to improve coordination between the two fields of practice The purpose of the book is to be a practice manual for professionals from the disciplines of law social work and psychologists who work in specialized legal roles dealing with families where children are vulnerable to developing mental health difficulties Volume 2 of the book provides a perspective from a mental health clinician about concepts and principles that arise in Australian family oriented courts and that need to be shared between disciplines This book proposes that some concepts be identified as psycho legal as the concepts need to be shared between disciplines who work with court involved families The book also proposes that psycho legal concepts be shared between the jurisdictions of child custody and child protection In this book proposals are made to improve collaboration between disciplines and to maximize the best interests of children
