

# Positive Parenting

**ZERO TO THREE**  
Early connections last a lifetime

**Positive parenting** describes a set of parental behaviors that foster a child's capacity to **love, trust, explore and learn**. The goal of positive parenting is to help parents guide their children's healthy development in the context of the family's culture. Key elements of positive parenting include the ability to:

Understand or imagine the **child's point of view**, especially during challenging moments.

Respond with interest and **sensitivity** to the child's cues.

Recognize that **parenting can be stressful** and missteps are a natural part of child-rearing.

Recognize and **celebrate** the child's strengths, abilities, and capacity to learn and develop.

Provide consistent, **age-appropriate guidelines** and limits for child behavior.

Work toward a **balance** of meeting parental needs and child needs.

Delight in **moments of connection** with the child.

Recognize and **regulate their own feelings** and behaviors before they respond to the child.

**Seek help, support or additional information on parenting when needed.**
