Parents Education As Autism Therapists Applied Behaviour Analysis In Context:

Parents' Education as Autism Therapists Michael Keenan, Ken P. Kerr, Karola Dillenburger, 2000 Clear focused and practical this book is a useful introduction to ABA for parents and professionals working with children with autism Successful child rearing is an essential skill for any parent For most of us this skill is handed down from our own parents and society in general In real terms this means that rather than relying on any formal instruction to help us we bring up our children using skills based largely upon common sense and a willingness to do our best These methods are by and large successful in everyday situations However when it comes to more difficult aspects of developing skills in our children we need something more dependable than good will Applied Behaviour Analysis ABA the systematic implementation of scientifically proven behavioural principles offers just that Aimed at enhancing people's lives in ways that they or their carers feel are important it includes a variety of methods and techniques which can be used to promote decrease or maintain skills for daily living ABA has been used to help children with autism for many years in many countries In Northern Ireland the PEAT group offers parents the education necessary to become their own child's therapists using ABA In this book these parents and the professionals involved in their training share their knowledge experience and successes

Applied Behaviour Analysis and Autism Michael Keenan, 2006 This practical book gives detailed guidance on how to develop a tailored Applied Behavioural Analysis programme that includes the key features of ABA detailed individual behaviour assessment reinforcement strategies to encourage new behaviours and systematic programme implementation

Understanding Applied Behavior Analysis, Second Edition Albert J. Kearney, 2015-06-21 This introductory guide to ABA demystifies the often complex terminology the underlying principles and commonly used procedures of ABA using accessible everyday language This revised and updated edition reflects recent developments and introduces new key terms Albert J Kearney explains the kinds of learning and reinforcement processes that form the basis of ABA programs Having covered these essential principles he describes how the science of behavior analysis can be effectively applied to real life behavior problems He looks at how behavior is assessed and various intervention techniques that are often employed with children who have autism and other special needs Having laid these essential foundations Kearney touches on more advanced topics the applications of ABA in behavioral education such as precision teaching and programmed instruction

Tales from the Table Margaret Anderson, 2007 Tales from the Table is a practitioner's account of the successes and limitations of using Lovaas ABA home education with five young boys on the autistic spectrum The abilities and skills of these children before during and after intervention are documented with a focus on the realities of undertaking Lovaas ABA home education the impact of a 35 hour learning week on both child and parents changing tutors and issues of commitment to the approach Each chapter includes a commentary on the programme from a different perspective with the voices of parents siblings and teachers providing the context to the individual children's learning processes This book will help parents to make an informed decision about using

Lovaas ABA interventions and will give professionals and students practical insights and useful information on the approach

Video Modelling and Behaviour Analysis Mickey Keenan, Christos Nikopoulos, 2006-06-15 Applied Behaviour Analysis ABA is a successful educational method for developing social and communication skills in children with autism The use of video modelling in ABA programmes has demonstrated great effectiveness in teaching behavioural skills to autistic children and this book explains how and why Video modelling is an easy to use behaviour modification technique that uses videotaped rather than live scenarios for the child to observe concentrating the focus of attention for the child with autism and creating a highly effective stimulus for learning Video Modelling and Behaviour Analysis provides a practical introduction to the technique its objectives strategies for use and evidence of its success Illustrative case examples are supported by detailed diagrams and photographs with clear accessible explanations Video Modelling and Behaviour Analysis will be a welcome addition to the practical literature on autism interventions for parents of autistic children and the professionals working with them

How Children Learn Sean MacBlain, 2014-02-17 Understanding How Children Learn is a vital part of working with children Every child is unique and understanding differences in learning helps all to benefit This book goes beyond simply understanding the work of key theorists and the various theories of learning to recognise what learning actually looks like and how it is best facilitated in any setting Each chapter includes Exercises to help you evaluate your understanding and practice Examples taken from real experiences to illustrate concepts beyond the

theory Summaries to help you take the key messages from each chapter Suggestions for further reading to help push your own learning further Looking at key topics such as brain development technology in childhood and barriers to learning this book will explain what learning really is Why not also have a look at the companion title *Learning Theories in Childhood* to explore the key learning theories Sean MacBlain is Reader in Child Development and Disability at the University of St Mark St John Plymouth

Behavioural Concerns and Autistic Spectrum Disorders John Clements,Ewa Zarkowska,2000-01-01 This book is a practical account of how people who attract autism labels can come to behave in ways that give rise to serious concerns in other people and sometimes themselves The authors identify the range of needs that may be expressed through behaviours that cause concern and provide strategies for addressing both needs and behaviours

The Transitional Social Art Group Eleni Konstantinidou,2014-10-20 According to various research data transition from primary to secondary school causes concern to many children Jindal Snape 2010 This is more intense in the case of children with autism because of their difficulty to face changes Al Ghani in this case they could be prepared to provide practical and social support to peers with autism communication difficulties during this transition under adult supervision In this way this programme could also contribute to the prevention or elimination of bullying In the present book there is an analytical presentation of the Transitional Social Art Group Programme addressed to practitioners or parents of children with autism Additionally it could be implemented for children having communication or adjustment difficulties due to other reasons The Transitional Social Art Group Programme can be used during other transitions too

Autism and Understanding Walter Solomon,Chris Holland,Mary Jo Middleton,2012-05-17 The authors provide a detailed breakdown of the scientific underpinnings of Waldon s theory in language accessible enough for parents and rigorous enough to satisfy the informed researcher practitioner The Journal of Autism and Developmental Disorders Daniel S Posner Assistant Clinical Professor of Psychiatry Icahn School of medicine at Mt Sinai New York NY The author sets out an approach based on Dr Geoffrey Waldon s philosophy of the development of understanding which centres on helping children learn how to learn The book includes The inspirational and well documented story of the author s son diagnosed at two with autism and as basically sub normal now a successful professional with a wife and child An introduction to Geoffrey Waldon s theory and working methods Testimony from parents and teachers covering autism and a range of learning difficulties This book does not offer a miracle cure for autism although the author aims to counteract the prevailing view that autism is a lifetime condition The author demonstrates that with the appropriate intervention children with autism and other special needs can gain a fuller understanding of the world and learn to take a constructive and contributing place in it Teachers therapists doctors parents and special interest groups will find this book an important and potentially transformational read

Learning Theories in Childhood Colette Gray,Sean MacBlain,2012-03-26 Request and receive an e inspection copy today By focusing on the early philosophies of learning and the key behavioural cognitive and social theorists this book provides a comprehensive overview

of children's learning. The authors discuss the key learning theories, highlight the strengths and weaknesses of each approach and encourage reflection on how different approaches impact on the learning environment. The discussion finishes with an exploration of the new sociology of childhood. Examples are drawn from practice to highlight key concepts and to make vital links between theory and practice. Theorists considered include Locke, Rousseau, Montessori, Piaget, Vygotsky, Bandura, Bronfenbrenner, Bruner. Accessibly written with key questions and recommended reading included, this book is essential reading for all those studying on child development, early childhood and childhood studies courses and for anyone interested in understanding more about how children learn and think. Why not also have a look at the companion title *How Children Learn* to explore how learning is best facilitated in any setting. Colette Gray is Principal Lecturer in Early Childhood Education at Stranmillis University. Dr Sean MacBlain is Reader in Child Development and Disability at University College Plymouth St Mark St John. It gives the reader food for thought and questions how we recognise that children have learnt something and more importantly challenges our own confidence and ability to explain the process they moved through to reach that final point. Denise Chadwick, Course Leader BA Early Childhood Studies, University of Huddersfield.

How to Live with Autism and Asperger Syndrome Chris Williams, Barry Wright, Olive Young, 2004. This accessible introduction to caring for a child with autism is an ideal resource for the families of children with Autism Spectrum Disorders as well as for the professionals who work with them. In clear and simple language and with many illustrations, the authors explain the nature of this condition and its variations and tackle common problems experienced in everyday activities such as eating, sleeping and going to the toilet. They also suggest strategies for coping with aggression and tantrums, approaches to preoccupations and compulsions and suggest ways in which to improve communication and social skills. Based on up to date research and using many case examples, the authors consider each problem and its causes step by step and suggest a number of solutions.

Learning to Live with High Functioning Autism Mike Stanton, 2000. Intended for the professionals who work with autistic people and their families and friends, *Learning to Live with High Functioning Autism* draws on the Stanton family's experience and compares it with the experiences of others to offer an honest portrayal of what living with autism is actually like for all of those involved.

Neurodevelopmental Pediatrics David D. Eisenstat, Dan Goldowitz, Tim F. Oberlander, Jerome Y. Yager, 2023-02-22.
