Shaw Gertrude Stein Mark Twain Edith Wharton E B White From the Trade Paperback edition *The Personality of Paris* Alan R. H. Baker, 2021-01-28 What was the personality of 19th century Paris To answer that question this book eschews the conventional narrative and chronological route taken by most histories of Paris Instead it thematically analyses the complex personality traits of Paris from the onset of the Revolution of 1789 to the beginning of the Great War Starting with the topographical and cultural legacies that late 18th century Paris inherited from its foundation in pre Roman and Roman times and from its medieval infancy and early modern adolescence The Personality of Paris unpacks the social and material complexity of the 19th century city It considers the role of immigration in the making of Parisians and in the city's growth from half a million in 1801 to almost three million in 1911 It examines the making of its distinctive landscape through the construction of monuments and architectural icons through its massive re-modelling by Napoleon III and Baron Haussmann through its five world exhibitions through its emphasis on food fashion and leisure and through the ways in which Parisians sought rural release from urban pressure Finally the book considers the self-harm done to the person of 19th century Paris by revolutions and wars and the damage inflicted on it by 20th century hubristic politicians and architects Illuminated Paris S. Hollis Clayson, 2019-05-16 The City of Light For many these four words instantly conjure late nineteenth century Paris and the garish colors of Toulouse Lautrec's iconic posters More recently the Eiffel Tower's nightly show of sparkling electric lights has come to exemplify our fantasies of Parisian nightlife Though we reflect longingly on such scenes in Illuminated Paris Hollis Clayson shows that there's more to these clichés than meets the eye In this richly illustrated book she traces the dramatic evolution of lighting in Paris and how artists responded to the shifting visual and cultural scenes that resulted from these technologies While older gas lighting produced a haze of orange new electric lighting was hardly an improvement the glare of experimental arc lights themselves dangerous left figures looking pale and ghoulish As Clayson shows artists' representations of these new colors and shapes reveal turn of the century concerns about modernization as electric lighting came to represent the harsh glare of rapidly accelerating social change At the same time in part thanks to American artists visiting the city these works of art also produced our enduring romantic view of Parisian glamour and its Belle époque *City of Light* Rupert Christiansen, 2018-10-09 A sparkling account of the nineteenth century reinvention of Paris as the most beautiful exciting city in the world In 1853 French emperor Louis Napoleon inaugurated a vast and ambitious program of public works in Paris directed by Georges Eugène Haussmann the prefect of the Seine Haussmann transformed the old medieval city of squalid slums and disease-ridden alleyways into a City of Light characterized by wide boulevards apartment blocks parks squares and public monuments new rail stations and department stores and a new system of public sanitation City of Light charts this fifteen year project of urban renewal which despite the interruptions of war revolution corruption and bankruptcy set a template for nineteenth and early twentieth century urban planning and created the enduring landscape of modern Paris now so famous around the globe Lively and engaging City of Light is a book for

The Oxford Handbook of Arab Novelistic Traditions Wail S. Hassan, 2017-08-01 The Oxford Handbook of Arab Novelistic Traditions is the most comprehensive treatment of the subject to date In scope the book encompasses the genesis of the Arabic novel in the second half of the nineteenth century and its development to the present in every Arabic speaking country and in Arab immigrant destinations on six continents Editor Wail S Hassan and his contributors describe a novelistic phenomenon which has pre modern roots stretching centuries back within the Arabic cultural tradition and branching outward geographically and linguistically to every Arab country and to Arab writing in many languages around the world The first of three innovative dimensions of this Handbook consists of examining the ways in which the Arabic novel emerged out of a syncretic merger between Arabic and European forms and techniques rather than being a simple importation of the latter and rejection of the former as early critics of the Arabic novel claimed The second involves mapping the novel geographically as it took root in every Arab country developing into often distinct though overlapping and interconnected local traditions Finally the Handbook concerns the multilingual character of the novel in the Arab world and by Arab immigrants and their descendants around the world both in Arabic and in at least a dozen other languages The Oxford Handbook of Arab Novelistic Traditions reflects the current status of research in the broad field of Arab novelistic traditions and signals toward new directions of inquiry
