*The Paris Conservatoire and the Contest Solos for Bassoon* Kristine Klopfenstein Fletcher, 1988      **Contest Pieces for Bassoon and Piano** James R. Briscoe, 2015-05-15 The Paris Conservatoire's rigorous curriculum for training both singers and instrumentalists led to a wealth of musical treasures in the form of pieces composed specifically for the end of year examinations which culminated in a public prize competition the Concours du Conservatoire The solos composed for these examinations both the sight reading works and the longer contest pieces morceaux de concours constitute the first extended series of compositions for woodwinds brass and harp in music history being composed nearly annually for each instrument beginning in the 1830s The wealth of musical treasures resulting from this systematic accumulation of works represents the historical core of these instrumental repertoires today The present volume contains a selection of morceaux de concours and other pieces written in a similar style representing some of the most influential oboists and composers associated with the Conservatoire      *A Comprehensive Performance Project in Bassoon Literature with an Essay on the Paris Conservatoire and the Contest Solos for Bassoon* Kristine Klopfenstein Fletcher, 1986      *Bassoon Reed Making* Christin Schillinger, 2015-12-14 Withheld by leading pedagogues in an effort to control competition the art of reed making in the early 20th century has been shrouded in secrecy producing a generation of performers without reed making fluency While tenets of past decades remain in modern pedagogy Christin Schillinger details the historical pedagogical trends of bassoon reed making to examine the impact different methods have had on the practice of reed making and performance today Schillinger traces the pedagogy of reed making from the earliest known publication addressing bassoon pedagogy in 1687 through the publication of Julius Weissenborn's *Praktische Fagott Schule* and concludes with an in depth look at contemporary methodologies developed by Louis Skinner Don Christlieb Norman Herzberg and Lewis Hugh Cooper Aimed at practitioners and pedagogues of the bassoon this book provides a deeper understanding of the history and technique surrounding reed making craft and instruction      **The Paris Conservatory and the Solos de Concours for Flute 1900-1955** Kathleen Roberta Cook, 1991

*The Bassoon* James B. Kopp, 2012-01-01 This welcome volume encompasses the entire history of the bassoon from its origins five centuries ago to its place in twenty first century music James Kopp draws on new archival research and many years experience playing the instrument to provide an up to date and lively portrait of today's bassoon and its intriguing predecessors He discusses the bassoon's makers its players its repertory its myths and its audiences all in unprecedented detail The bassoon was invented in Italy in response to the need for a bass register double reed woodwind suitable for processions and marching Composers were quick to exploit its agility and unique timbre Later during the reign of Louis XIV the instrument underwent a major redesign giving voice to its tenor register In the early 1800s new scientific precepts propelled a wave of invention and design modifications In the twentieth century the multiplicity of competing bassoon designs narrowed to a German or Heckel type and a French type the latter now nearly extinct The author examines the

acoustical consequences of these various redesigns He also offers new coverage of the bassoon's social history including its roles in the military and church and its global use during the European Colonial period Separate historical chapters devoted to contrabassoons and smaller bassoons complete the volume Publisher description **Gaston Crunelle and Flute Playing in Twentieth-Century France** Leonard Garrison,2024-09-09 Gaston Crunelle 1898 1990 was Professor of Flute at the Paris Conservatory from 1941 to 1969 and taught an entire generation of the world's leading flutists A leading orchestral chamber music and solo flutist his recordings are among the best of the 78 rpm and early LP eras Gaston Crunelle and Flute Playing in Twentieth Century France establishes Crunelle's place in history as one of the most important flutists of the twentieth century and shines light on musical life in France during his lifetime from the silent film era through the German Occupation to the changes in music and education since 1968 Wind Talk for Woodwinds Mark C. Becker, 2024-03-29 This book approaches opera fantasias instrumental works that use themes from a single opera as the body of their virtuosic and flamboyant material both historically and theoretically concentrating on compositions for and by woodwind instrument performers in Italy in the nineteenth century Important overlapping strands include the concept of virtuosity and its gradual demonization the strong gendered overtones of individual woodwind instruments and of virtuosity the distinct Italian context of these fantasias the presentation and alteration of opera narratives in opera fantasias and the technical and social development of woodwind instruments Like opera itself the opera fantasia is a popular art form stylistically predictable yet formally flexible based heavily on past operatic tradition and prefabricated materials Through
