Museum in the Years ... British Museum, 1891 Ford Madox Ford's Cosmopolis: Psycho-geography, Flânerie and the Cultures of Paris, 2016-08-15

The controversial British writer Ford Madox Ford 1873 1939 is increasingly recognized as a major presence in early twentieth century literature This series of International Ford Madox Ford Studies was founded to reflect the recent resurgence of interest in him Each volume is based upon a particular theme issue or work and relates aspects of Ford's writing life and contacts to broader concerns of his time Ford is best known for his fiction especially *The Good Soldier* long considered a modernist masterpiece and *Parade's End* which Anthony Burgess described as the finest novel about the First World War Samuel Hynes has called the greatest war novel ever written by an Englishman and which was adapted by Tom Stoppard for the acclaimed 2012 BBC HBO television series starring Benedict Cumberbatch and Rebecca Hall The twelve essays in this volume Ford Madox Ford's *Cosmopolis* focus directly on the internationalism so important to Ford and bring out three main ideas First his lifelong commitment to an international vision of literature and culture Second *Cosmopolis* also refers to Ford's experiences of the particular cosmopolitan cities he lived in London Paris New York Third the idea that his lifelong experience of Paris in particular informed and shaped his writing Ford's *Cosmopolis* is thus not only an ideal city or state open to such cosmopolitan exchange It is also a mode of writing which invents forms and styles to render the experience of such hybridity diversity fluidity and tolerance Contributors are Alexandra Becquet Helen Chambers Martina Ciceri Laurence Davies Claire Davison Annalisa Federici Georges L tissier Caroline Patey Andrea Rummel Max Saunders Rob Spence Martin Stannard George Wickes Joseph Wiesenfarth *The National Habitus* Marie-Pierre Le Hir, 2014-08-27

Stories about border crossers illegal aliens refugees that regularly appear in the press everywhere point to the crucial role national identity plays in human beings' lives today *The National Habitus* seeks to understand how and why national belonging became so central to a person's identity and sense of identity Centered on the acquisition of the national habitus the process that transforms subjects into citizens when a state becomes a nation state the book examines this transformation at the individual level in the case of nineteenth century France Literary texts serve as primary material in this study of national belonging because as Germaine de Staël pointed out long ago literature has the unique ability to provide access to inner feelings The term habitus in the title of this book signals a departure from traditional approaches to nationalism a break with the criteria of language race and ethnicity typically used to examine it It is grounded instead in a sociology that deals with the subjective dimension of life and is best exemplified by the works of Norbert Elias 1897 1990 and Pierre Bourdieu 1931 2002 two sociologists who approach belief systems like nationalism from a historical instead of an ethical vantage point By distinguishing between two groups of major French writers three who experienced the 1789 Revolution firsthand as adults Olympe de Gouges Françoise Renée de Chateaubriand and Germaine de Staël and three who did not Stendhal Prosper Mérimée and George Sand the book captures evolving understandings of the nation as well as thoughts and emotions associated with national belonging over time Le Hir shows that although none of these writers is

typically associated with nationalism all of them were actually affected by the process of nationalization of feelings thoughts and habits irrespective of aesthetic preferences social class or political views By the end of the nineteenth century they had learned to feel and view themselves as French nationals they all exhibited the characteristic features of the national habitus love of their own nation distrust and or hatred of other nations By underscoring the dual contradictory nature of the national habitus the book highlights the limitations nation based identities impose on the prospect for peace *The Paris that is Paris* Watson White,1926 *Manuel Du Libraire Et de L'amateur Des Livres* Jacques-Charles Brunet,1865
