Mercier,1802 *The Presence of the Word* Walter J. Ong,1967-01-01 This provocative exploration of the nature and history of the word in some of its social psychological literary phenomenological and religious dimensions argues that the word is initially aural and in the last analysis always remains sound it cannot be reduced to any other category Father Ong contends that sound is essentially an event manifesting power and personal presence and his descriptive analysis of the development of the media of verbal expression from their oral sources through the laborious transfer to the visual world and then to contemporary means of electronic communication shows that the predicament of the human word is the predicament of man himself Examining the close alliance of the spoken word with the sense of the sacred particularly in the Hebreo Christian tradition he reveals that in a world where presence has penetrated time and space as never before modern man must find the God who has given himself in the Word which brings man more into the world of sound than of sight **In Sunny France**

Henry Tuckley,1894 *A Cultural History of Tragedy in the Age of Enlightenment* Mitchell Greenberg,2021-05-20 The period covered by this volume in the Cultural History of Tragedy set is bookended by two shockingly similar historical events the beheading of a king Charles I of England in 1649 and Louis XIV of France in 1793 The period between these two dates saw enormous political social and economic changes that altered European society s cultural life Tragedy which had dominated the European stage at the beginning of this period gradually saw itself replaced by new literary forms culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s The dominance of France s military and cultural prestige during this period is reflected in the important almost exclusive space dedicated in this volume to the French stage This book covers the tragedies of France s two greatest playwrights Pierre Corneille 1606 84 and Jean Racine 1639 99 which would dominate not only the French stage but through translations and adaptations became the model of tragic theater across Europe finding imitators in England Dryden Italy Alfieri and as far afield as Russia This dominance continued well into the 18th century with the triumph of Voltaire s tragedies This volume also examines how the writings of

Diderot and Lessing changed the direction of theatre and how after the Revolution in the writings of Goethe Shiller Hegel tragedy and the tragic were reimagined and became the sign of European modernity Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality [The Pariahs of Yesterday](#) Leslie Page Moch,2012-03-30 This work looks at the surge of Bretons who left their homes in Western France in the latter half of the 19th century to live and work in Paris Portrayed as backward ignorant peasants they found no welcome until after WWII Moch positions her work within immigration theory connecting migration studies to theories about state projects of assimilation and about cultures of inclusion and exclusion *Companion to Literary Myths, Heroes and Archetypes* Pierre Brunel,2015-07-30 First published in French in 1988 and in English in 1992 this companion explores the nature of the literary myth in a collection of over 100 essays from Abraham to Zoroaster Its coverage is international and draws on legends from prehistory to the modern age throughout literature whether fiction poetry or drama Essays on classical figures as well as later myths explore the origin development and various incarnations of their subjects Alongside entries on western archetypes are analyses of non European myths from across the world including Africa China Japan Latin America and India This book will be indispensable for students and teachers of literature history and cultural studies as well as anyone interested in the fascinating world of mythology A detailed bibliography and index are included The Companion provides a fine interpretive road map to Western culture s use of archetypal stories Wilson Library Review It certainly is a comprehensive volume extremely useful Times Higher Education Supplement **On the Boulevards; Or, Memorable Men and Things Drawn on the Spot, 1853-1866** Blanchard Jerrold,1867 **Proust's Duchess** Caroline Weber,2019-11-26 PULITZER PRIZE FINALIST A brilliant look at turn of the century Paris through the first in depth study of the three women Proust used to create his supreme fictional character the Duchesse de Guermantes Weber has done a remarkable job of bringing to life a world of culture glamour and privilege The Wall Street Journal Genevi ve Hal vy Bizet Straus Laure de Sade Comtesse de Adh aume de Chevign and lisabeth de Riquet de Caraman Chimay the Comtesse Greffulhe these were the three superstars of fin de si cle Parisian high society who as Caroline Weber says transformed themselves and were transformed by those around them into living legends paragons of elegance nobility and style All well but unhappily married these women sought freedom and fulfillment by reinventing themselves between the 1870s and 1890s as icons At their fabled salons they inspired the creativity of several generations of writers visual artists composers designers and journalists Against a rich historical backdrop Weber takes the reader into these women s daily lives of masked balls hunts dinners court visits nights at the opera or theater But we see as well the loneliness rigid social rules and loveless arranged marriages that constricted these women s lives Proust as a twenty year old law student in 1892 would worship them from afar and later meet them and create his celebrated composite character for The Remembrance of Things Past *The*
