Parlement Of Bordeaux And The End Of The Old Regime 1771 179:

The Parlement of Bordeaux and the End of the Old Regime, 1771-1790 William Doyle, 1974 *The Notables and the Nation* Vivian R. Gruder, 2007 The ending of absolute monarchy and the beginning of political combat between nobles and commoners make the years 1787 to 1788 the first stage of the French Revolution In this detailed examination Gruder looks at how the French people became engaged in a movement that culminated in demands for the public's role in government

British Book News, 1975 *Women and Medicine in the French Enlightenment* Lindsay Blake Wilson, 1993 In *Women and Medicine in the French Enlightenment* Lindsay Wilson takes a new approach to the social history of medicine by focusing on the key role that women played as both providers and recipients of health care during the Ancien Regime Wilson pays special attention to three medical controversies involving *maladies des femmes* in eighteenth century France the miraculous cures claimed by the Convulsionaries of St Medard the uncertainty over the maximum length of pregnancy and its implications for the legitimacy of heirs and the debate over the medical effectiveness of mesmerism Wilson's analysis of these debates reveals how social and political concerns affected the medical community's efforts to establish an enlightened science of medicine which would in turn legitimize its own authority But because the issues of legitimacy hierarchy and authority raised by the medical causes *celebres* resonated so deeply throughout French society debate extended far beyond medical circles to an increasingly engaged public Such debate reflected a significant shift in the center of politics from the institutions of court academy and parlement to journals theaters and the streets Wilson's description of these debates provides insight into the forces that were transforming the family the church corporate society and the state on the eve of the Revolution She argues for a re assessment of a period that has been all too easily categorized as an age of triumph either for enlightenment or for repression Her work also offers concrete examples of the ways in which sexual symbolism can be employed to maintain social order or promote change Based on medical treatises medical topographies official reports judicial documents physicians correspondence and memoirs of eighteenth century women *Women and Medicine in the French Enlightenment* is a thoroughly interdisciplinary work that will appeal to anyone with an interest in the social history of medicine women's studies Enlightenment thought and French social history **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved Proceedings Consortium on Revolutionary Europe, 1750-1850, 1990
