House of Representatives, 1959 **The Italian Parliament in the European Union** Nicola Lupo, Giovanni Piccirilli, 2017-10-05 The Lisbon Treaty states that national Parliaments shall contribute to a better functioning of the EU Can they really do it and therefore enrich the European democracy How far can they extend their original sovereignty without distorting political responsibilities that should be geared upon the European Parliament The authors analyze the experience of the Italian Parliament under the light of these crucial questions and their exhaustive answers are greatly helpful to the readers of all over Europe Giuliano Amato Judge of the Italian Constitutional Court This important new collection explores the role of the Italian Parliament in the European national parliamentary system as an example of an increased role for national parliaments within the composite European constitutional order It illustrates how parliamentary interactions within the European Union are highly systematic with integrated procedures and mutual interdependence between the various institutions and stakeholders The book argues that this dynamic is vital for both the functioning and the future equilibrium of democracy in the EU This is significant particularly given the challenges posed to democracy within the EU institutions and the Member States Notwithstanding its peculiarities a symmetrical bicameral system in which both Houses are directly elected hold the same powers and are linked through a confidence relationship with the government the Italian Parliament deserves specific attention as a lively active player of the European polity The grid for its analysis proposed by this collection may also be applied to other national parliaments so contributing to the development of comparative research in this field *Parliamentary Debates (Hansard)*. The Parliamentary Debates Great Britain. Parliament,1902      **Parliamentary Representation in France** Olivier Costa,2017-07-05 Despite real improvements since the beginning of the last decade legislative studies are still underdeveloped in France compared to other modern democracies This weakness is linked to the characteristics of the political system itself the Constitution of 1958 has created a semi presidential regime the centrality of which has been constantly reinforced since The French parliament is thus supposed to be extremely feeble This lack of interest for legislative studies is also to be found in the specificities of French political sociology which pays little attention to institutions As a result very few papers and books deal with French chambers and MPs Yet they are fascinating cases of study for scholars interested in parliamentary representation professionalization of political life and French politics The French parliament and MPs are deeply paradoxical MPs are very attached to the concept of national sovereignty but remain involved at local level and in surgery work the French National Assembly is supposed to be weak but is quite active and influential citizens are more aware of the role of MPs than it seems and their views and values are closer than predicted This book gathers seven papers from the LEGIPAR research project 2008 2012 The project was designed by the contributors to rejuvenate French legislative studies by collecting systematic data on MPs socio biographical profiles and activities conducting face to face interviews gathering exhaustive data on National Assembly activity and organising focus groups to analyse citizens perceptions of their MPs This book was originally published as a special issue of the Journal of Legislative Studies      *Public Law* Mark Elliott,Robert Thomas,2020 This market leading textbook covers the essential topics of the public law module in an insightful and interesting way The book guides students through key themes which help them to understand how the many strands of public law are interlinked The authors have a real flair for capturing both the vibrant nature of public law in practice and the key contemporary debates in the field They use practical examples to bring this subject to life and include expert commentaries on each chapter to allow students to see academic debate first hand Online resources This book is accompanied by a range of online resources Updates from the authors to help students stay up to speed on this fast moving subject Extensive self test questions with instant feedback give students the opportunity to test their learning Videos of the authors introducing the key themes and issues discussed in each chapter A library of web links and advice on which websites students should use when planning their own research Online versions of the diagrams featured the book      **Legislatures of Small States** Nicholas Baldwin,2013-04-02 This book provides a comparative study of the legislatures of small nations states and territories to explore the extent to which size is a factor in how they function and fulfil the roles and responsibility of a legislature Though the physical nature and environment of states is a neglected subject in political science research this book examines the impact of small state size on the structure and functions of legislatures and contributes to a better understanding of the interplay of physical and social factors Focussing on legislatures in democratic nations or in territories

that are parts of democratic units the book features case studies on Malta Bermuda Jersey Guernsey Gibraltar Hong Kong Lesotho Liechtenstein the Isle of Man Commonwealth Caribbean Nunavut Canada Pacific islands Swaziland and Scotland Contributors employ an interdisciplinary approach to examine both the outcomes and causes of different political mechanisms and bring to the surface underlying correlation between small states through their analysis Legislatures of Small States will be of interest to students and scholars of international politics comparative politics and legislative studies *UK Politics* Andrew Blick,2021 *UK Politics* is the ideal introduction to the subject providing students with the foundational understanding critical perspectives and historical knowledge they need to make sense of politics in the United Kingdom today **World Today**,1911 *The Making of the United Kingdom and Black Peoples of the Americas* Nigel Kelly,Rosemary Rees,Jane Shuter,1998 Helping you win the battle for History **Reimagining Parliament** David Judge,Cristina Leston-Bandeira,2024-05-22 With trust in Parliament and politicians at a seriously low level there is an increasing need to rebuild our public institutions This innovative book questions what Parliament should be in the 21st century and how it can be reimagined It shows how a new democratic parliamentary space can be created to better represent and engage with citizens to furnish a safe inclusive and fair working environment for all staff and members and to secure greater responsiveness and accountability of government Bringing together a vibrant group of parliamentary scholars and practitioners it proposes an institutional world of possibilities beyond the present Westminster village to help restore faith in democracy **African Parliaments** M.
