Parole E Immagini Futuriste Dalla Collezione Wolfson:

Parole e immagini futuriste Silvia Barisione, Matteo Fochessati, Gianni Franzone, 2001 Italian Futurism and the Poetry of Materiality Dalila Colucci, 2024-06-17 This monograph offers the first ever full length analysis of the most irreverent book of Italian Futurism L anguria lirica printed in 1934 on tin metal sheets with design and poetic text by Tullio d Albisola and illustrations by Bruno Munari This study which features the unabridged reproduction of the pages of the tin book accompanied by the first English translation of the poem aims to disentangle the complex relationship between text and image in this total artwork It shows how the endless series of material transformations at its core of woman into food of love into desecrating religion of man into machine of poetry into matter fostered a radical change in poetry writing thus breaking Embattled Avant-Gardes Walter L. Adamson, 2007-11-06 Adamson leads his readers away from a stagnant lyrical past through intricate debates with care and skill Even the non specialist reader will come away with an understanding of the stakes in modernist studies Mary Gluck author of Popular Bohemia Modernism and Urban Culture in Nineteenth Century Paris No serious student of the European avant garde in the early twentieth century will be able to overlook this subtle and impassioned attempt to rethink its history its far reaching ambitions and its strategies for achieving them its successes and its failures Because of Adamson's distinctive perspective and the breadth of his research I persistently found myself being forced to rethink the history of the European avant garde and guestion some of my own assumptions and conclusions Robert Wohl author of The Spectacle of Flight Aviation and the Western Imagination 1920 1950 **Words in Revolution** Anna M. Lawton, Herbert Eagle, 2005 In her extensive Introduction Lawton has highlighted the historical development of the movement and has related futurism both to the Russian national scene and to avant garde movements worldwide 2018 Günter Berghaus, Domenico Pietropaolo, Beatrice Sica, 2018-04-09 The eighth volume of the International Yearbook of Futurism Studies is again an open issue and presents in its first section new research into the international impact of Futurism on artists and artistic movements in France Great Britain Hungary and Sweden This is followed by a study that investigates a variety of Futurist inspired developments in architecture and an essay that demonstrates that the Futurist heritage was far from forgotten after the Second World War These papers show how a wealth of connections linked Futurism with Archigram Metabolism Archizoom and Deconstructivism as well as the Nuclear Art movement Spatialism Environmental Art Neon Art Kinetic Art and many other trends of the 1960s and 70s The second section focuses on Futurism and Science and contains a number of papers that were first presented at the fifth bi annual conference of the European Network for Avant Garde and Modernism Studies EAM held on 1 3 June 2016 in Rennes They investigate the impact of science on Futurist aesthetics and the Futurist quest for a new perception and rational understanding of the world as well as the movement s connection with the esoteric domain especially in the field of theosophy the Hermetic tradition Gnostic mysticism and a whole phalanx of Spiritualist beliefs The Archive section offers a survey of collections and archives in Northern Italy that are

concerned with Futurist ceramics and a report on the Fondazione Primo Conti in Fiesole established in April 1980 as a museum library and archive devoted to the documentation of the international avant garde and to Italian Futurism in particular A review section dedicated to exhibitions conferences and publications is followed by an annual bibliography of international Futurism studies exhibition catalogues special issues of periodicals and new editions Berghaus, 2020-11-23 Volume 10 examines how the innovative impulses that came from Italy were creatively merged with indigenous traditions and how many national variants of Futurism emerged from this fusion Ten essays investigate various aspects of Italian Futurism and its links to Austria Georgia France Hungary and Portugual and in fields such as Typography Olfaction Photography Section 2 examines seven examples of caricatures and satires of Futurism in the contemporary press followed by Section 3 reporting on the Archiv der Avantgarden AdA in Dresden Section 4 communicates bibliographic details of 120 book publications on Futurism in the period 2017 2020 including exhibition catalogues conference proceedings and editions The Fishing Net and the Spider Web Claudio Fogu, 2020-11-23 This book explores the role of Mediterranean imaginaries in one of the preeminent tropes of Italian history the formation or making of Italians While previous scholarship on the construction of Italian identity has often focused too narrowly on the territorial notion of the nation state and over identified Italy with its capital Rome this book highlights the importance of the Mediterranean Sea to the development of Italian collective imaginaries From this perspective this book re interprets key historical processes and actors in the history of modern Italy and thereby challenges mainstream interpretations of Italian collective identity as weak or incomplete Ultimately it argues that Mediterranean imaginaries acted as counterweights to the solidification of a national Italian identity and still constitute alternative but equally viable modes of collective belonging **2016** Günter Berghaus, 2016-05-24 Volume 6 2016 is an open issue with an emphasis on Nordic countries Denmark Finland Lithuania Estonia Iceland Four essays focus on Russia two on music other contributions are concerned with Egypt USA and Korea Furthermore there are sections on Futurist archives Futurism in caricatures and Futurism in fiction Futurism Paola Bonani.Francesca Italian Art Ceramics Valerio Terraroli, 2007 A visual survey of Italian ceramic production as reflected by Velardita, 2006 five hundred objects created by artists during the first half of the twentieth century features essays that examine key stylistic trends biographical profiles of top artists a catalogue of back stamps and more Portrait of an idea - art and architecture in the fascist era Rossana Bossaglia, 2002 Dal merletto alla motocicletta Anty Pansera, Tiziana Occleppo, 2002
