**PARSLEY the Lion & Friends** ,1994 *TV Toys* Anthony A McGoldrick,2013-03-10 Since the dawn of children s television in the 1950s toy companies have been keen to capitalise on the success of these programmes Toy historian and collector Anthony A McGoldrick here charts the history of the most successful TV toys from Muffin the Mule in the 1950s to Star Trek The Next Generation in the 1980s The colourful illustrations whether of Daleks iconic cars action figures or spaceships evoke the excitement of the programmes and also of playing with the toys that allowed children to recreate them Whether you grew up in the days of Andy Pandy The Saint Kojak or Knight Rider this book offers a nostalgic look at some of the most appealing toys of the late twentieth century *Gender and the Quest in British Science Fiction Television* Tom Powers,2016-11-01 The subjects of this book constitute a significant cross section of BBC science fiction television With such characters as the Doctor an enigmatic time traveling alien Kerr Avon a problematic rebel leader Dave Lister a slovenly last surviving human and Captain Jack Harkness a complex omnisexual immortal these shows have both challenged and reinforced viewer expectations about the small screen masculine hero This book explores the construction of gendered heroic identity in the series from both production and fan perspectives The paradoxical relationships between the producers writers and fans of the four series are discussed Fan fiction criticism and videos are examined that both celebrate and criticize BBC science fiction heroes and villains *The Moon in the Greek and Roman Imagination* Karen ní Mheallaigh,2020-10-22 The Moon exerted a powerful influence on ancient intellectual history as a playground for the scientific imagination This book explores the history of the Moon in the Greco Roman imaginary from Homer to Lucian with special focus on those accounts of the Moon its attributes and its inhabitants given by ancient philosophers natural scientists and imaginative writers including Pythagoreans Plato and the Old Academy Varro Plutarch and Lucian n Mheallaigh shows how the Moon s enigmatic presence made it a key site for thinking about the gaze erotic philosophical and scientific and the relation between appearance and reality It was also a site for hoax in antiquity as well as today Central issues explored include the view from elsewhere sel noskopia the relation of science and fiction the interaction between the beginnings of science in the classical polis and the imperial period and the limits of knowledge itself The Archaeological Journal ,1881 *The Listener* ,1970-07 *Reports and Papers Read at the Meetings of the Architectural Societies of the Archdeaconry of Northhampton, the Counties of York and Lincoln (etc.)* , The British National Film Catalogue ,1982 **Cook Lionfish** Polly Alford,Claire Wood ,2017-11-01 Why Cook Lion fish Lion fish are native to the Pacific Indian Ocean and the Red Sea Unfortunately they have found their way into the Atlantic Gulf of Mexico and the Caribbean Experts believe that the cause of the lion fish

invasion is the dumping of unwanted lion fish from aquariums into the Atlantic for over 2 decades Lion fish have no natural predators in these waters and are ferocious predators themselves like vacuum cleaners that suck the life out of the ocean The invasive lion fish are a very real threat to our coral reefs and ecosystems They breed rapidly releasing 15 20 000 eggs every 4 days and even the larvae have few predators They eat juvenile fish and cleaners such as shrimp that keep reef fish free from parasites They are feeding on our key species such as juvenile parrot fish algae and coral fight for photosynthesis The parrot fish help keep the coral alive by feeding on the bad algae If the algae smother the reef the coral will die and there is no chance of recovery It is estimated that marine plants produce between 70 80% of the oxygen that we need in order to survive Without coral reefs life as we know it cannot exist The eat em to beat em campaign was launched by the National Oceanic and Atmospheric Administration NOAA in 2010 to encourage a seafood market as a means of mitigating the species impact on reef communities In 2003 Polly Alford founded a conservation diving organisation in Belize She encountered her first lion fish in 2009 and was subsequently shocked by the rapid invasion Her organisation introduced a project to remove them collect data and create local and national awareness In 2016 Polly decided to enroll her twin sister Claire a chef in the UK in a project to combine their skills and write a lion fish cookbook The objective was to write easy to follow recipes using lion fish to create tasty dishes for home cooking The recipes in this book demonstrate the versatility of this fish and the good news is that lion fish is not only delicious but also high in omega 3 We wrote this book to encourage you to cook one of the most sustainable foods available whilst helping to reduce this potentially catastrophic environmental problem
