Balochistan culturally and politically the Baloch carved out a nation state the Khanate of Kalat In 1839 the British occupied Balochistan and subsequently it was divided into various parts In the wake of the British withdrawal from India in 1947 Balochistan regained its sovereignty but soon Pakistan occupied it in 1948 The historical account of the Baloch is the story of a pastoralist nomadic people from ancient times to mid twentieth century The author outlines the origin of the Baloch state and its variegated history of survival against powerful neighbors such as the Persians the British and finally Pakistan This fascinating research work discovers the background of the long drawn out conflict between the Baloch and Pakistan and Iranian states **Moving in the Margins: Desert Travel and Power in Medieval Central Asia** Paul D. Wordsworth,2024-09-23 Central Asia has been perceived as a landscape of connections of Silk Roads an endless plain across which waves of conquerors swiftly rode on horseback In reality the region is highly fragmented and difficult to traverse and overcoming these obstacles led to routes becoming associated with epic travel and high value trade Put simply the inhabitants of these lands became experts in the art of travelling the margins This volume seeks to unravel some of the myths of long distance roads in Central Asia using a desert case study to put forward a new hypothesis for how medieval landscapes were controlled and manipulated *Making Mesopotamia: Geography and Empire in a Romano-Iranian Borderland* Hamish Cameron,2018-12-24 In Making Mesopotamia Geography and Empire in a Romano Iranian Borderland Hamish Cameron examines the representation of the Mesopotamian Borderland in the geographical writing of Strabo Pliny the Elder Claudius Ptolemy the anonymous Expositio Totius Mundi and Ammianus Marcellinus This inter imperial borderland between the Roman Empire and the Arsacid and Sasanid Empires provided fertile ground for Roman geographical writers to articulate their ideas about space boundaries and imperial power By examining these geographical descriptions Hamish Cameron shows how each author constructed an image of Mesopotamia in keeping with the goals and context of their own work while collectively creating a vision of Mesopotamia as a borderland space of movement inter imperial tension and global engagement **Jewish Travel in Antiquity** Catherine Hezser,2011 This book provides the first comprehensive study of Jewish travel and mobility in Hellenistic and Roman times based on a critical analysis of Jewish Graeco Roman and early Christian literary epigraphic and archaeological sources and a social historical evaluation of the material Catherine Hezser shows that certain segments of ancient Jewish society were quite mobile Mobility seems to have increased in the later Roman period when an extensive road system facilitated travel within the province of Syria Palestine and the neighbouring Middle Eastern regions Second Temple Judaism was centralized with Jerusalem as its central space and seat of priestly authority In post 70 rabbinic Judaism on the other hand connections between rabbis could be established through mutual visits and second and third degree contacts only Mobility formed the basis of the establishment of a decentralized rabbinic network in Palestine and Babylonia in late antiquity Numerous narrative and halakhic traditions indicate the importance of mobility for communication and the exchange of knowledge amongst rabbis It is argued that the rabbis who were most mobile sat at the

nodal points of the rabbinic network and elicited the largest amount of influence They would have combined business travel with scholarly exchange Scholars journeys between Palestine and Babylonia are viewed within the wider context of Rome and Persia s economic and cultural exchange in which Jews just like Christians may have played the role of intermediaries
