Opportunities and Challenges in Institutionalising Participatory Development Kudzai Chatiza,2008 Social development [Anonymus AC02847171],1992 **Zimbabwe's Fight To The Finish** Moore,2016-04-15 This book challenges the Western interpretation that poor governance under President Mugabe is the sole cause of the Zimbabwean crisis It considers inherited and highly unequal colonial structures and the impoverishing impact of an IMF and World Bank Understanding Environmental Policy Processes James Keeley,2014-10-14 A critical analysis of the post Rio consensus on environment and development which questions the role of particular forms of internationalized elite scientific expertise It asks why certain understandings of environmental change stick with such tenacity In exploring this the authors unravel the politics of knowledge surrounding policymaking looking particularly at Ethiopia Mali and Zimbabwe and their land and soils management The book also looks at prospects for more inclusive participatory forms of policymaking *Policies and Governance Structures in Woodlands of Southern Africa* Godwin S. Kowero,Bruce Morgan Campbell,Ussif Rashid Sumaila,2003-01-01 Political Transition Paul Gready,2003-04-20 In the twentieth century many countries around the globe experienced rapid and often traumatic political transformations From East Germany and Northern Ireland to Argentina Chile and Zimbabwe political transition has been momentous and has had a deep impact on the individual culture of each society This collection explores these periods of political transition and the impact that they have had through an analysis of memory identity space place and voice Concentrating in particular on post colonial and post oppressive regimes in Europe Southern Africa and Latin America the contributors assess how individuals come to terms with rapid political change and the enduring legacies of the past in the present They examine how political transformations affect people s memories and identities reworking spaces places and voices and how both official and unofficial mechanisms set up to cope with these changes impact on these issues Juxtaposing different country and regional experiences and different historical eras this is a comprehensive guide to the vast range of issues involved in political transition **Managing Natural Resources for Sustainable Livelihoods** Barry Pound,2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company *Zimbabwe's Trajectory* V. Masunungure,2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it

Tragically they paid no heed to Africa's esteemed elder statesmen. Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population. However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since. While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009-2013. Virtually all development indicators point in the wrong direction and the crisis of poverty, unemployment and the erosion of health, education and other public goods continues unabated. The imperatives of political survival and power politics supersede those of sound economics and public welfare. Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill. Zimbabwe's Trajectory tells the story of the country's post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world.

Election Violence in Zimbabwe Vimbai Chaumba Kwashirai, 2023-03-02. The ramifications of election violence in Zimbabwe are huge and ongoing and the loss of lives in the quest for democratic rights might be regarded as the foremost tragedy of post colonial Zimbabwe. In this book Vimbai Chaumba Kwashirai examines the prevalence of electoral violence in Zimbabwe from the early 1980s to the present day. With a range of rich examples Kwashirai offers a nuanced analysis of the overt and covert forms of violence that have pervaded the country's general elections. While remaining attentive to the specifics of the Zimbabwean political landscape Kwashirai addresses broader debates in African politics and shows how insidious violence, ethnic tensions and the weakness of opposition parties serve to undermine democracy across Africa. Adopting an interdisciplinary approach he explores the various ways in which violence can be understood and crucially how it might be prevented.

Flows and Practices Mehta, Lyla, Derman, Bill, 2017-05-19. For the past two decades Integrated Water Resources Management (IWRM) has been the dominant paradigm in water resources. This book explores how ideas of IWRM are being translated and adapted in Mozambique, South Africa, Tanzania, Uganda and Zimbabwe. Grounded in social science theory and research, it highlights the importance of politics, history and culture in shaping water management practices and reform and demonstrates how

Africa has clearly been a laboratory for IWRM While a new cadre of professionals made IWRM their mission we show that poor women and men may not have always benefitted In some cases IWRM has also offered a distraction from more critical issues such as water and land grabs privatisation the negative impacts of water permits and a range of institutional ambiguities that prevent water allocations to small and poor water users By critically examining the interpretations and challenges of IWRM the book contributes to improving water policies and practices and making them more locally appropriate in Africa and beyond
