Parties In Wartime:

Parties at War Andrew Thorpe, 2009-01-08 The Second World War represented the most sustained challenge to the British party system during the twentieth century *Parties at War* explores how the main political parties responded to this challenge showing that struggles over organization had significance for the long term development of party in modern British politics

The Labour Party, War and International Relations, 1945-2006 Mark Phythian, 2007-10-11 This book provides an in depth political analysis of the Labour Party's attitude towards war and international relations since 1945

Britain in the Second World War Mark Donnelly, 1999-06-24 This book presents a new and vivid survey of politics society culture and military strategy in Britain between 1939 and 1945 It covers the major historical debates in these areas

The American Civil War Steven E. Woodworth, 1996-12-09 The single most important volume for anyone interested in the Civil War to own and consult From the foreword by James M McPherson The first guide to Civil War literature to appear in nearly 30 years this book provides the most comprehensive up to date and informative survey and analysis of the vast body of Civil War literature More than 40 essays each by a specialist in a particular subfield of Civil War history offer unmatched thoroughness and discerning assessments of each work's value The essays cover every aspect of the war from strategy tactics and battles to logistics intelligence supply and prisoner of war camps from generals and admirals to the men in the ranks from the Atlantic to the Far West from fighting fronts to the home front Some sections cover civilian leaders the economy and foreign policy while others deal with the causes of war and aspects of Reconstruction including the African American experience during and after the war Breadth of topics is matched by breadth of genres covered Essays discuss surveys of the war general reference works published and unpublished papers diaries and letters as well as the vast body of monographic literature including books dissertations and articles Genealogical sources historical fiction and video and audio recordings also receive attention Students of the American Civil War will find this work an indispensable gateway and guide to the enormous body of information on America's pivotal experience

The Party of Patriotism Nigel Keohane, 2016-12-05 The First World War was a period of turbulent and unprecedented political upheaval that witnessed contrasting fortunes for Britain's major political parties This book demonstrates how the Conservative Party was able to respond effectively in these years by refining a wartime patriotism that ensured its unity as a party helped define its electoral fortunes and shaped ideological cohesion Concepts of patriotism determined not only attitudes to the prosecution of the war to voluntary and forced military enlistment but also to class politics Irish Unionism democratic reform and the relationship between citizen and state Fundamental conclusions about modern Conservatism emerge its organic ideological genesis into a property defending party its peculiar willingness and capacity to adapt not only to the immense challenges of total war but also to the new political climate awakened by the conflict Conservatism was therefore at once flexible and ideological Filling the historiographical gap created by an overemphasis upon its rival Liberal and Labour parties and using previously unused

party sources this study sheds new light on many aspects of the war of Conservative Party history and its regeneration following three disastrous general election defeats in succession and of British politics in the twentieth century *Parties, Politics, Peace* Carrie Manning, Ian O. Smith, Ozlem Tuncel Gurlek, 2023-06-29 This pathbreaking book uncovers the important underappreciated role of armed opposition groups turned political parties in shaping long term patterns of politics after war Based on an empirically grounded and theoretically informed retrospective on nearly 30 years of post conflict democratic state building efforts it examines whether this practice has contributed to peace and finds that engaging post rebel parties in electoral politics has proven to be a viable long term strategy for bringing political stability that disparate post rebel parties from different political contexts invest heavily in electoral politics and that few post rebel parties actively seek return to civil conflict as a solution after becoming a political party This book will be of key interest to scholars students and practitioners in democracy governance elections political parties post conflict peacebuilding and more broadly to international relations comparative politics and regional politics

The Anglo-Soviet Alliance Colin Turbett, 2021-04-14 Considers the inter war and wartime relationship between Britain and the USSR and its impact on the attitudes of ordinary citizens From the onset of the Bolshevik Revolution in Russia in 1917 until the German invasion of the Soviet Union in 1941 Britain enjoyed an ambiguous relationship with the USSR and its people All inter war governments were concerned about the communist ideals of the new state and the threat they presented to British interests at home and abroad and this was inevitably reflected amongst the general population However there was a well established British Communist Party whose fortunes were tied to the Soviet Union s successes and failures The wartime alliance offered the Communists an opportunity to extend their influence and win electoral support Or did it There were influences at work stemming from both sides that sought to put the importance of allied victory above competing ideology with agreement over the need for a strong and unconditional anti Fascist alliance Compromises were made and relationships formed that would have seemed strange indeed to the pre war observer There were however tensions throughout the period of the war By mid 1945 the alliance was threatened by differences that reflected original ideologies that had been glossed over for the duration of the conflict these led to a Cold War for the next 45 years This book using both contemporary sources as well as post war analyses examines these matters alongside images that take us back to the period and help us understand its intricacies It will start with a look at Britain s opposition to the Bolshevik Revolution and the consolidation of the Soviet State under Lenin and then Stalin The main body of the book goes on to give detail of the Wartime Alliance and the various forms through which it was expressed from Government led Lend Lease of equipment to voluntary Aid for Russia t ends with the War s aftermath and the division of the world between the influences of capitalism on the one hand and the really existing socialism of the Soviet Union and its satellites on the other Tensions and expectations resulted amongst other great social events in the launch of the Welfare State the demise of the British Empire the nuclear arms race and ultimately the end of the Soviet Union in 1991

Freedom, Union, and Power Michael S. Green, 2004 *Freedom Union and Power* analyzes the beliefs of the Republican Party during the Civil War how those beliefs changed and what those changes foreshadowed for the future The party's pre war ideology of free soil free labor free men changed with the Republican ascent to power in the White House With Lincoln's election Republicans faced something new responsibility for the government With responsibility came the need to wage a war for the survival of that government the country and the party And with victory in the war came responsibility responsibility for saving the Union by ending slavery and for pursuing policies that fit into their belief in a strong free Union Michael Green shows how Republicans had to wield federal power to stop a rebellion against freedom and union Crucial to their use of federal power was their hope of keeping that power the intersection of policy and politics *American Labor and the Cold War* Robert Cherny, William Issel, Kiernan Walsh Taylor, 2004-07-29 The American labor movement seemed poised on the threshold of unparalleled success at the beginning of the post World War II era Fourteen million strong in 1946 unions represented thirty five percent of non agricultural workers Why then did the gains made between the 1930s and the end of the war produce so few results by the 1960s This collection addresses the history of labor in the postwar years by exploring the impact of the global contest between the United States and the Soviet Union on American workers and labor unions The essays focus on the actual behavior of Americans in their diverse workplaces and communities during the Cold War Where previous scholarship on labor and the Cold War has overemphasized the importance of the Communist Party the automobile industry and Hollywood this book focuses on politically moderate conservative workers and union leaders the medium sized cities that housed the majority of the population and the Roman Catholic Church These are all original essays that draw upon extensive archival research and some upon oral history sources **Patriot Fires** Melinda Lawson, 2002-11-27 The Civil War is often credited with giving birth to the modern American state The demands of warfare led to the centralization of business and industry and to an unprecedented expansion of federal power But the Civil War did more than that as Melinda Lawson shows it brought about a change in American national identity redefining the relationship between the individual and the government Though much has been written about the Civil War and the making of the political and economic American nation this is the first comprehensive study of the role that the war played in the shaping of the cultural and ideological nation state In *Patriot Fires* Lawson explains how when threatened by the rebellious South the North came together as a nation and mobilized its populace for war With no formal government office to rally citizens the job of defining the war in patriotic terms fell largely to private individuals or associations each with their own motives and methods Lawson explores how these interpreters of the war helped instill in Americans a new understanding of loyalty to country Through efforts such as sanitary fairs to promote the welfare of soldiers the war bond drives of Jay Cooke and the establishment of Union Leagues Northerners cultivated a new sense of patriotism rooted not just in the subjective American idea but in existing religious political and cultural values Moreover Democrats and Republicans Abolitionists and Abraham Lincoln created their own

understandings of American patriotism and national identity raising debates over the meaning of the American idea to new heights Examining speeches pamphlets pageants sermons and assemblies Lawson shows how citizens and organizations constructed a new kind of nationalism based on a nation of Americans rather than a union of states a European styled nationalism grounded in history and tradition and celebrating the preeminence of the nation state Original in its insights and innovative in its approach Patriot Fires is an impressive work of cultural and intellectual history As America engages in new conflicts around the globe Lawson shows us that issues addressed by nation builders of the nineteenth century are relevant once again as the meaning of patriotism continues to be explored *Socialism and the Challenge of War (RLE The First World War)* Jay M. Winter, 2014-04-24 The First World War marks a crucial period in the history of the socialist wing of the British labour movement This book is an account of the development of the political ideas and activities of some of the most influential British socialist thinkers of that time Beatrice and Sidney Webb R H Tawney and G D H Cole The first part of the book examines the state of the Labour movement and of socialist ideas on the eve of the conflict then turns to the central question of the impact of the War on the dissemination of British socialist ideas Cold War in the Working Class Ronald L. Filippelli, Mark D. McCulloch, 1995-01-01 This book tells the story of the rise and decline of the United Electrical Radio and Machine Workers of America UE from 1933 to 1990 Once the third largest industrial union in the United States the UE was the most powerful left wing institution in U S history and arguably the most significant victim of the anti communist purges that marked post World War II America This is an institutional study of the formation of the UE and the struggle for its control by left wing and right wing factions Unlike most books on unions during the Cold War this study carries the story up to the present showing the long term effects of the ideological battles *China at War* Xiaobing Li, 2012-01-10 This comprehensive volume traces the Chinese military and its experiences over the past 2 500 years describing clashes with other kingdoms and nations as well as internal rebellions and revolutions As the first book of its kind China at War An Encyclopedia expands far beyond the conventional military history book that is focused on describing key wars battles military leaders and influential events Author Xiaobing Li an expert writer in the subjects of Asian history and military affairs provides not only a broad chronological account of China s long military history but also addresses Chinese values concepts and attitudes regarding war As a result readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China s decision making process This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework allowing students to compare Chinese with Western and American views and approaches to war Topics among the hundreds of entries by experts in the field include Sunzi s classic The Art of War Mao Zedong s guerrilla warfare in the 20th century Chinese involvement in the Korean War and Vietnam War and China s nuclear program in the 21st century The Winning of the War Roland Greene Usher, 1918 *The Party Family* Kimberley Ens

Manning,2023-08-15 Co winner of the Canadian Political Science Association Prize in Comparative Politics of the Canadian Political Science Association *The Party Family* explores the formation and consolidation of the state in revolutionary China through the crucial role that social ties specifically family ties played in the state's capacity to respond to crisis before and after the foundation of the People's Republic of China Central to these ties Kimberley Ens Manning finds were women as both the subjects and leaders of reform Drawing on interviews with 163 participants in the provinces of Henan and Jiangsu as well as government documents and elite memoirs biographies speeches and reports Manning offers a new theoretical lens attachment politics to underscore how family and ideology intertwined to create an important building block of state capacity and governance As *The Party Family* details infant mortality in China dropped by more than half within a decade of the PRC's foundation a policy achievement produced to a large extent through the personal and family ties of the maternalist policy coalition that led the reform movement However these achievements were undermined or reversed in the complex policy struggles over the family during Mao's Great Leap Forward 1958-60

A People's History of the World Chris Harman,2017-05-02 Building on *A People's History of the United States* this radical world history captures the broad sweep of human history from the perspective of struggling classes An indispensable volume on class and capitalism throughout the ages for readers reckoning with the history they were taught and history as it truly was Howard Zinn From the earliest human societies to the Holy Roman Empire from the Middle Ages to the Enlightenment from the Industrial Revolution to the end of the twentieth century Chris Harman provides a brilliant and comprehensive history of the human race Eschewing the standard accounts of Great Men of dates and kings Harman offers a groundbreaking counter history a breathtaking sweep across the centuries in the tradition of history from below In a fiery narrative he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments While many scholars see the victory of capitalism as now safely secured Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age A vital corrective to traditional history *A People's History of the World* is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress

Critical Companion to the Russian Revolution, 1914-1921 Edward Acton,V. I. Cherniiaev,V. I. Cherniiaev,William G. Rosenberg,1997 Essays by 46 historians reflect the impact of the fall of the Soviet Union on the study of the revolution that birthed it including better access to archives and new opportunities for collaborations between Russian and other specialists They cover the revolution as event actors and the question of agency parties movements and ideologies institutions and institutional cultures social groups identities cultures and the question of consciousness economic issues and problems of everyday life and nationality and regional questions

Forging the Franchise Dawn Langan Teele,2018-09-18 The important political motivations behind why women finally won the right to vote In the 1880s women were barred from voting

in all national level elections but by 1920 they were going to the polls in nearly thirty countries What caused this massive change Why did male politicians agree to extend voting rights to women Contrary to conventional wisdom it was not because of progressive ideas about women or suffragists pluck In most countries elected politicians fiercely resisted enfranchising women preferring to extend such rights only when it seemed electorally prudent and in fact necessary to do so Through a careful examination of the tumultuous path to women s political inclusion in the United States France and the United Kingdom Forging the Franchise demonstrates that the formation of a broad movement across social divides and strategic alliances with political parties in competitive electoral conditions provided the leverage that ultimately transformed women into voters As Dawn Teele shows in competitive environments politicians had incentives to seek out new sources of electoral influence A broad based suffrage movement could reinforce those incentives by providing information about women s preferences and an infrastructure with which to mobilize future female voters At the same time that politicians wanted to enfranchise women who were likely to support their party suffragists also wanted to enfranchise women whose political preferences were similar to theirs In contexts where political rifts were too deep suffragists who were in favor of the vote in principle mobilized against their own political emancipation Exploring tensions between elected leaders and suffragists and the uncertainty surrounding women as an electoral group Forging the Franchise sheds new light on the strategic reasons behind women s enfranchisement

Parties in Wartime Louise Price Bell, 1943 Village China at War Dagfinn Gatu, 2008 This groundbreaking study on the forging of Chinese communism in the furnace of the anti Japanese war focuses on North China where the Chinese Communist Party first took root and later expanded to conquer China Whilst the explosive growth of the Chinese communist movement during the war years is a fact the nature of this expansion remains disputed Here the author examines a set of interrelated issues that have so far not received comprehensive treatment with regard to the main communist base areas in North China regions where the CCP secured most of its recruits and where its policy programmes were most severely tested by Japanese military campaigns The analysis centres on how the CCP strove to combine two objectives that it perceived as crucial to building up a sustained mass resistance movement to the Japanese socio economic and political restructuring in favour of the poor and the forging of a grassroots rural united front including all social strata The author also stresses the host of severe constraints that the party s policy ambitions ran up against such as massive destruction of the local economy by the Japanese army the economic burden of running the resistance peasant ambivalence to revolutionary changes and the shortage of trained cadres Ultimately the movement spread too rapidly and too widely for the party centre to exert more than a very weak or mediated vanguard function outside scattered enclaves This in turn allowed localities an autonomous dynamic that often conflicted with higher party echelons Nevertheless the movement had a broad if highly uneven redistributive impact on power resources in the region leading to a structural fluidity that lowered the barriers to a future revolution History accelerated

The book delves into Parties In Wartime. Parties In Wartime is a vital topic that needs to be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Parties In Wartime, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:

- Chapter 1: Introduction to Parties In Wartime
- Chapter 2: Essential Elements of Parties In Wartime
- Chapter 3: Parties In Wartime in Everyday Life
- Chapter 4: Parties In Wartime in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, this book will provide an overview of Parties In Wartime. This chapter will explore what Parties In Wartime is, why Parties In Wartime is vital, and how to effectively learn about Parties In Wartime.
3. In chapter 2, this book will delve into the foundational concepts of Parties In Wartime. This chapter will elucidate the essential principles that need to be understood to grasp Parties In Wartime in its entirety.
4. In chapter 3, this book will examine the practical applications of Parties In Wartime in daily life. The third chapter will showcase real-world examples of how Parties In Wartime can be effectively utilized in everyday scenarios.
5. In chapter 4, the author will scrutinize the relevance of Parties In Wartime in specific contexts. This chapter will explore how Parties In Wartime is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, the author will draw a conclusion about Parties In Wartime. This chapter will summarize the key points that have been discussed throughout the book.

The book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Parties In Wartime.
