classic and current material in a concise yet thorough and rigorous manner Chapters range from attraction to love attachment to jealousy conflict to relationship dissolution all written in a warm personal and engaging voice Each chapter is organized around the major issues and relevant theories in addition to a critical evaluation about the research When appropriate the authors discuss and evaluate popular ideas about relationship processes in the context of scientific research This includes critical evaluations of evolutionary approaches to attraction victim based accounts of abuse and the separate cultures view of the sexes

Adolescent Romantic Relationships as Precursors of Healthy Adult Marriages Benjamin R. Karney, 2007 Policymakers are interested in promoting healthy marriages in adulthood by providing services to strengthen the adolescent precursors of healthy marriage especially within low income populations But if programs and curricula targeting adolescent romantic relationships are to be effective they must be grounded in an accurate understanding of how adolescent relationships function and the role that they play in the development of healthy adult marriages This report evaluates the current landscape of theory research and interventions addressing the role of adolescent romantic relationships in the development of healthy adult marriages Drawing on a thorough review of the existing theoretical and empirical literature in this area as well as interviews with practitioners directly involved with developing or administering relationship education to adolescents the authors bring together relevant research and theory from a wide range of disciplines that have examined these issues and suggest future directions for research and intervention In particular they note that although research describing romantic relationships in low income populations is sparse there are already existing nationally representative data sets that include data from substantial numbers of well sampled low income adolescents Analyses of these data would have relatively low cost and a potentially high yield for informing policies that target low income youth
