by combining the rich character development of his contemporary pieces with the larger political themes of his period pieces In this volume Gerstle translates five plays four histories and one contemporary piece never before available in English that complement other collections of Chikamatsu s work revealing new dimensions to the work of this great Japanese playwright and artist Voices of Southeast Asia George E. it possible to trace the movements of poetic ideas and poetic expression as they veer toward and away from Pound's creations. In supplying the full Fenollosa texts the volume overturns decades of scholarship that has mystified Pound's translation process as a kind of clairvoyance displaying instead the impressive amount of sinological learning preserved in Fenollosa's hard to read notebooks and by detailing every deviation from the probable sense of the originals. The edition also supplies exhaustive historical critical and textual notes clarifying points that have sometimes lent obscurity to Pound's poems and making the process of translation visible even for readers with no knowledge of Chinese. *Cathay: A Critical Edition* includes the original fourteen Chinese translations as well as Pound's unique version of *The Seafarer* which is fully annotated alongside its Anglo-Saxon source. Also included are Pound's fifteen additional Chinese translations from *Lustra* and other contemporary publications; his essay *Chinese Poetry* 1919; a substantial textual Introduction and original essays by Christopher Bush and Haun Saussy on international modernism, the mediation of Japan and translation. The meticulous treatment and analysis of the texts for this landmark edition will forever change how readers view Pound's Chinese poems. In addition to discoveries that permanently alter the scholarly record and force us to revise a number of critical commonplaces, the critical apparatus allows readers to make fresh discoveries by making available the specific networks through which poetic expression moved among hands, languages and media. Ultimately this edition not only enables us more fully to appreciate a canonical work of Modernism but also resituates the art of Pound's translations by recovering the historical circulations that went into the making of a multiply authored and intrinsically hybrid masterpiece.

Spirit Tree E. Leslie Williams, 2007. Despite what some scholarship has suggested, Shinto does exhibit a unifying cognitive integrity. *Spirit Tree* offers a unique social psychological interpretation of Shinto ritual at the Hakozaki Hachiman Shrine in Fukuoka, Japan, and situates the cosmological organization of this practice within the larger context of ritual in East Asia. Employing a comparative approach, this study blends two theoretical orientations: cultural anthropology and Jungian psychology. Hakozaki's rituals are a combination of a Yayoi period female medium tradition with a complex set of Chinese Yin Yang Five Phase principles. Both systems are based on the feminine archetype, a fundamental conceptual foundation of Shinto ritual practice which cognitively links woman and the earth. While the female shaman tradition is female affirming in outlook, the later Chinese system is much less so. This monograph is a new acknowledgement of the conceptual continuity of Shinto ritual as an outgrowth of social cognition.
