River God Wilbur Smith, Stephen Colbourn, 2002 Med den velbegavede slave Taita som taler r berettes om dagligdag og lidenskab i det gamle gypten p et tidspunkt hvor nationen rystes i sin grundvold af krig og magtbeg r **Inter Moesos et Thraces** Agnieszka Tomas, 2016-07-10 Excavations at the Roman legionary base at Novae in Lower Moesia reveal one of the most important sites in the Lower Danubian provinces Towards late Antiquity the military camp was transformed into a civil town with Episcopal residence and survived until the beginning of the 7th century Inter-religious Practices and Saint Veneration in the Muslim World Michel Boivin, Manoël Pénicaud, 2023-10-13 Inter religious Practices and Saint Veneration in the Muslim World studies the immortal saint Khidr Khizr a mysterious prophet and popular multi religious figure and Sufi master venerated across the Muslim world Focusing on the religious figure of Khidr Khizr and the practice of religion from Middle East to South Asia the chapters offer a multi disciplinary analysis The book addresses the plurality in the interpretation of Khizr and underlines the unique character of the figure whose main characteristics are kept by Muslims Christians Hindus and Sikhs Chapters examine vernacular Islamic piety and intercommunal religious practices and highlight the multiples ways through which Khidr Khizr allows a conversation between different religious cultures Furthermore Khidr Khizr is a most significant case study for deciphering the complex dialectic between the universal and the local The contributors also argue that Khidr Khizr played a leading role in the process of translating a religious tradition into the other in incorporating him through an association with other sacred characters Bringing together the different worship practices in countries with a very different cultural and religious background the study includes research from the Balkans to the Punjabs in Pakistan and in India It will be of interest to researchers in History Anthropology Sociology Comparative Religious Studies History of Religion Islamic Studies Middle Eastern Studies South Asian Studies and Southeast European Studies *An Intermediate Greek-English Lexicon*, 1900 **Notes and Queries: a Medium of Inter-communication for Literary Men, Artists, Antiquaries, Genealogists, Etc**, 1898 *Egyptomania* Ronald H. Fritze, 2021-02-04 Egyptomania takes us on a historical journey to unearth the Egypt of the imagination a land of strange gods mysterious magic secret knowledge monumental pyramids enigmatic sphinxes and immense wealth Egypt has always exerted a powerful attraction on the Western mind and an array of figures have been drawn to the idea of Egypt Even the practical minded Napoleon dreamed of Egyptian glory and helped open the antique land to explorers Ronald H Fritze goes beyond art and architecture to reveal Egyptomania s impact on religion philosophy historical study literature travel science and popular culture All those who remain captivated by the ongoing phenomenon of Egyptomania will revel in the mysteries uncovered in this book *The Architecture of Rome* Ulrich Fürst, 1998 Architects and artists have always acknowledged over the centuries that Rome is rightly called the eternal city Rome is eternal above all because it was always young always in its prime Here the buildings that defined the West appeared over more than 2000 years here the history of European architecture was written The

foundations were laid even in ancient Roman times when the first attempts were made to design interiors and thus make space open to experience as something physical And at that time the Roman architects also started to develop building types that are still valid today thus creating the cornerstone of later Western architecture In it Rome's primacy remained unbroken whether it was with old St Peter's as the first medieval basilica or new St Peter's as the building in which Bramante and Michelangelo developed the High Renaissance or with works by Bernini and Borromini whose rich and lucid spatial forms were to shape Baroque as far as Vienna Bohemia and Lower Franconia and also with Modern buildings of which there are many unexpected pearls to be found in Rome All this is comprehensible only if it is presented historically i.e. in chronological sequence and so the guide has not been arranged topographically as usual but chronologically This means that one is not led in random sequence from a Baroque building to an ancient or a modern one but the historical development is followed successively Every epoch is preceded by an introduction that identifies its key features This produces a continuous lavishly illustrated history of the architecture of Rome and thus at the same time of the whole of the West Practical handling is guaranteed by an alphabetical index and detailed maps whose information does not just immediately illustrate the historical picture but also makes it possible to choose a personal route through history

That Tyrant, Persuasion J. E. Lendon, 2024-12-17 How rhetorical training influenced deeds as well as words in the Roman Empire The assassins of Julius Caesar cried out that they had killed a tyrant and days later their colleagues in the Senate proposed rewards for this act of tyrannicide The killers and their supporters spoke as if they were following a well known script They were Their education was chiefly in rhetoric and as boys they would all have heard and given speeches on a ubiquitous set of themes including one asserting that he who kills a tyrant shall receive a reward from the city In *That Tyrant Persuasion* J E Lendon explores how rhetorical education in the Roman world influenced not only the words of literature but also momentous deeds the killing of Julius Caesar what civic buildings and monuments were built what laws were made and ultimately how the empire itself should be run Presenting a new account of Roman rhetorical education and its surprising practical consequences *That Tyrant Persuasion* shows how rhetoric created a grandiose imaginary world for the Roman ruling elite and how they struggled to force the real world to conform to it Without rhetorical education the Roman world would have been unimaginably different

Allen, Franklin T. Richards, 1903 **Ilias Latina** Steven J. Green, 2025-03-27 The Ilias Latina the title coined by Emil Baehrens in his 1881 edition is a condensed version of Homer's Iliad spanning 1 070 verses of Latin hexameter It was likely composed during the latter part of the principate of Nero c AD 60 65 The poem has long suffered the scholarly status of second order poetry the sort of imitative translation work that a Roman might compose at the beginning of his literary career The poem's chief legacy as a medieval school text that acquainted a Greek less audience with Homer has done little to assist its literary reputation More recent times however have seen a greater appreciation for the literary cultural and political significance of Latin translation of Greek works More specifically there is now a growing awareness that the Ilias Latina is a sophisticated enterprise in its own right the poem is a Roman appropriation of Homer's Iliad reinterpreted through Rome's own national epic Virgil's Aeneid and recalibrated to fit the artistic and political sensibilities of the early imperial age This book includes introductory chapters Latin text English translation and detailed verse by verse commentary on the poem The translation is the first to appear in English in a major mainstream press The commentary also the first to appear in English takes on board the full range of international scholarship and provides new insights into the poem's intricacies and creative engagement with Homer and the Roman poets American Journal of Numismatics , 1907 River God Wilbur A. Smith, 2002 Babylon of Egypt Peter Sheehan, 2015 Presents a history of old Cairo known by the Romans as Babylon based on new archaeological evidence gathered between 2000 and 2006 revealing continuous occupation extending from the 6th century BC to the present day **Fasti** Ovid, 2004-10-28 Written after he had been banished to the Black Sea city of Tomis by Emperor Augustus the Fasti is Ovid's last major poetic work Both a calendar of daily rituals and a witty sequence of stories recounted in a variety of styles it weaves together tales of gods and citizens together to explore Rome's history religious beliefs and traditions It may also be read as a subtle but powerful political manifesto which derides Augustus attempts to control his subjects by imposing his own mythology upon them after celebrating the emperor as a Jupiter on earth for example Ovid deliberately juxtaposes a story showing the king of the gods as a savage rapist Endlessly playful this is also a work of integrity and courage and a superb climax to the life of one of Rome's greatest writers **A Classical and Archaeological Dictionary of the Manners, Customs, Laws, Institutions, Arts, Etc. of the Celebrated Nations of Antiquity, and of the Middle Ages** P. Austin Nuttall, 1840 **Parallel Myths** J.F.
