In the Society of Nature Philippe Descola,1994 The Achuar Indians live in the remote forest reaches of the Upper Amazon and have developed sophisticated strategies of resource management Philippe Descola who has gathered material over several years of fieldwork documents their rich knowledge of the environment He explains how this technical knowledge of the increasingly threatened Amazonian ecosystems is interwoven with cosmological ideas that endow nature with the characteristics of society Combining a symbolist approach with an ecological analysis the book contributes a new theory of the social construction of nature **International Law at a Time of Perplexity** Yoram Dinstein,Mala Tabory,2024-01-08

The Road to the Land of the Mother of God Stephen G. Perz,Jorge Luis Castillo Hurtado,2023-05 The Interoceanic Highway is many things to many people an emblematic project during a period focused on integration a dream realized for an isolated region a symbol of the profound fragility of state institutions a key cause of political corruption and a major driver of ecological and cultural devastation This highway links the Andean highlands with the Amazonian lowlands in southern Peru offering an outlet for Brazil s emergent economy While it finally brought an end to the isolation of Madre de Dios and other parts of southern Peru and the western Amazon it was made possible by political corruption revealed in the Lava Jato scandal and it permitted the spread of criminal business activities But the Interoceanic Highway s deeper history must be appreciated in order to fully understand why it was built and the impacts it has generated The Road to the Land of the Mother of God explores more than five hundred years of the history of Peru s Interoceanic Highway showing how the purposes portrayals and importance of roads change fundamentally over time and thus how roads bring significantly more impacts and costs than their advocates and critics generally anticipate By taking a deeper look at infrastructure history Stephen G Perz and Jorge Luis Castillo Hurtado portray infrastructure as an integrative optic for understanding changes in local livelihoods regional development and social conflicts The Second Blight War John Sagert,2018-07-27 It is a time of

beginnings a time of endings a time when the vast world of Andoran comes under great upheaval nearing the end of one age only to give birth to another An ancient evil not seen since the Age of Dreams has come forth again to consume the living or bring death to those that would not be consumed It is a time shortly after an unnatural plague ravaged those who lived in a hard fought for short time of peace and harmony the Shadow Plagues brought upon by the re awakening of an even more ancient enemy called the Void that which seeks to utterly consume all that lives Fear rules the hearts and souls of all Though most only know this fear as something that could be about to happen a never ending ominous darkness that looms just out of sight the kind of apoplectic feeling that all wish and hope is only a bad dream It is dark times were the Lord of the Undead has reawakened from a three millennia old sleep The armies of the wicked join under the banner of this mad Lord These armies roam freely the lands once held by good people who died in the plagues There is hope as those few who still possess the strength of the First Men and Love of the Creator will stand defy and overcome or die trying to defeat that which would destroy any of the good placed in this vast mythical world Only the legions of the South and these few remaining ancestors of the First Men stand in the way of utter ruin
