Weather Bureau, 1917 **New Castle County, I-95-Route 40 Growth Corridor** United States. Department of Housing and Urban Development. Office of Environmental Quality, 1978 **The Ends of the Earth** Roger Willemssen, 2014-12-15 An author foreign correspondent academic and television personality Roger Willemssen is a familiar figure in Germany and *The Ends of the Earth* offers English language readers a chance to engage with his uniquely astute take on the world Consisting of twenty two essays recounting and reflecting on a lifetime of travel to the far and forgotten corners of our planet the book offers remarkable encounters and mysterious entanglements in locations as diverse as a Kamchatkan volcano a Burmese railway station an Arctic icebreaker and a Minsk hospital ward Willemssen is the perfect companion reveling in the strange and unlovely and tracing unexpected connections among places times and peoples *Special Publication*, 1935 The Meaning of Rivers T. S. McMillin, 2011-03-15 In the continental United States rivers serve to connect state to state interior with exterior the past to the present but they also divide places and peoples from one another These connections and divisions have given rise to a diverse body of literature that explores American nature ranging from travel accounts of seventeenth century Puritan colonists to magazine articles by twenty first century enthusiasts of extreme sports Using pivotal American writings to determine both what literature can tell us about rivers and conversely how rivers help us think about the nature of literature *The Meaning of Rivers* introduces readers to the rich world of flowing water and some of the different ways in which American writers have used rivers to understand the world through which these waters flow Embracing a hybrid essayistic form part literary theory part cultural history and part fieldwork *The Meaning of Rivers* connects the humanities to other disciplines and scholarly work to the land Whether developing a theory of palindromes or reading works of American

literature as varied as Henry David Thoreau's *A Week on the Concord and Merrimack Rivers* and James Dickey's *Deliverance*. McMillin urges readers toward a transcendental retracing of their own interpretive encounters. The nature of texts and the nature of nature require diverse and versatile interpretation; interpretation requires not only depth and concentration but also imaginative thinking, broad-mindedness, and engaged connection-making. By taking us upstream as well as down, McMillin draws attention to the potential of rivers for improving our sense of place and time. *Coastal Processes Study of San Bernard River Mouth, Texas*. Nicholas C. Kraus, Li-Hwa Lin, 2002. **Tales of Life and Daph**. Phillipa Nefri

Clark, 2021-07-24. A retreat in the mountains sounds perfect with spa treatments for Daphne and fishing for John. Until a killer strikes, Daphne Jones is invited to an exclusive conference in the high country in Victoria. The annual meeting of wedding officiants is her first, and she's excited to attend sessions with her peers. In between a bit of spoiling, of course. Within hours of John leaving for an overnight camping trip to the best fishing river in the region, Daphne is knee-deep in a fountain full of puzzles in the middle of the night. Literally. Was there really a body in the water feature, or is this an elaborate hoax? A note arrives with a terrible warning: Murder is on the menu at the banquet. But who is the target? People are quick to point fingers at Daphne, whose sleuthing reputation preceded her. She suspects there is a whole lot more going on in this Bridgerton-style hotel, and between power outages, planted evidence, and missing diamonds, closes in on the killer. Until the only way down the mountain is blocked. Book three in the *Daphne Jones Mysteries* puts Daphne in the middle of someone's dangerous game, and it might take more than her homemade cookies to get her out of this alive. A light and quirky story with a nosy main character.

Almost Heaven. Marianne Wiggins, 1999-12. Before his thirtieth birthday, Holden Garfield has already burned out as a journalist in war-torn Bosnia. Returning to the United States, he hopes the familiar sunshine and rolling hills of Virginia will help him put aside the horrors he reported. Instead, he finds Melanie, his mentor's sister, who is institutionalized with a mysterious amnesia after her husband and son were killed five weeks earlier by a freak force of nature. Struck as if by lightning by her beauty, Holden sets out to help her reconstruct her past, and the pair is swept up in a passionate love affair, one fighting to remember, the other struggling to forget. With this breakneck story of love and loss, Marianne Wiggins delivers a compelling novel that is a series of powerful metaphors for the curative forces of love as well as her own personal love letter to the American South. *Columbia and Lower Willamette Rivers Below Vancouver, Washington, and Portland, Oregon*. United States. Engineers Corps, 1962. *A Textbook of Environmental Chemistry*. V. Subramanian, 2011-08-24. This book addresses key topics related to the broad subject of Environmental Chemistry.
