Animals and Agency Sarah McFarland, Ryan Hediger, 2009-06-02 While many scholars who write about animals deal with animal agency in some way, this volume is the first to position the question of nonhuman agency as the primary focus of inquiry. Section I presents studies of actual animals demonstrating agency. Section II moves agency into new terrain while considering key representations of animal agency in literature. Section III analyzes animals as mediators and as conveyances of human to human communication, and Section IV investigates the agency of beings who defy conventional species categories. The Envoi demonstrates how the microscopic polyp is interwoven into notions of agency and mythical superagency. This volume's interdisciplinary explorations press hard on issues of agency to open up space for more questions about how we can understand relationships between the human and the nonhuman. *The Wild Vine* Todd

Kliman, 2011-05-03 A rich romp through untold American history featuring fabulous characters, *The Wild Vine* is the tale of a little-known American grape that rocked the fine wine world of the nineteenth century and is poised to do so again today. Author Todd Kliman sets out on an epic quest to unravel the mystery behind Norton, a grape used to make a Missouri wine that claimed a prestigious gold medal at an international exhibition in Vienna in 1873. At a time when the vineyards of France were being ravaged by phylloxera, this grape seemed to promise a bright future for a truly American brand of wine, making earthy and wild. And then Norton all but vanished. What happened? The narrative begins more than a hundred years before California wines were thought to have put America on the map as a wine-making nation and weaves together the lives of a fascinating cast of renegades. We encounter the suicidal Dr. Daniel Norton tinkering in his experimental garden in 1820s Richmond, Virginia. Half on purpose and half by chance, he creates a hybrid grape that can withstand the harsh New World climate and produce good drinkable wine, thus succeeding where so many others had failed so fantastically before. From the Jamestown colonists to Thomas Jefferson himself, thanks to an influential Long Island New York seed catalog, the grape moves west where it is picked up in Missouri by German immigrants who craft the historic 1873 bottling. Prohibition sees

these vineyards burned to the ground by government order but bootleggers keep the grape alive in hidden backwoods plots. Generations later retired Air Force pilot Dennis Horton who grew up playing in the abandoned wine caves of the very winery that produced the 1873 Norton brings cuttings of the grape back home to Virginia. Here dot com millionaire turned vintner Jenni McCloud on an improbable journey of her own becomes Norton's ultimate champion deciding against all odds to stake her entire reputation on the outsider grape. Brilliant and provocative *The Wild Vine* shares with readers a great American secret resuscitating the Norton grape and its elusive inky drink and forever changing the way we look at wine. America and long cherished notions of identity and reinvention. **Koko** Peter Straub, 2011-04-06 From the 1 New York Times bestselling author of *Ghost Story* comes an inspired thriller.
