This landmark book is the result of interviews with many of the greatest names in Ferrari history and is loaded with never before seen stories and photos **Road and Track on Ferrari** R. M. Clarke,1991-05-31 *Road & Track on Ferrari, 1981-1984* ,1985 Road & Track Ferrari F355-360-F430 Portfolio R. Clarke,2006-11-15 Ferrari the very sound of the name conjures up mental images of exciting and stylish sports cars being driven at great speed add in the fabulous sound of the V8 s exhaust and you are very close to motoring nirvana With the arrival of the F355 a descendant from the marvelous little Dino 246 Ferrari was raising the stakes considerably in their quest for supremacy in their chosen market niche and sales of the F355 and its replacement the 360 have risen dramatically Not entirely coincidentally with this rise in popularity of the sports car side of the business has been Ferrari s dominance in the Formula One arena With these mid engine sports coupes Ferrari has also embraced new technology with electronic engine management F1 style paddle shifts on the steering wheel together with high technology aluminum frame construction of the chassis all helping to give a storming performance that buyers of these sports car demand **Ferrari** Dennis Adler,2006 From the author of Porche comes the stunning magnificently illustrated story of Enzo Ferrari and the matchless cars he s presented to the public for more than half a century Road & Track on Ferrari, 1950-1968 ,1984 *Ferrari's World Champions* Enrico Mapelli,2010-02-01 Nineteen Formula 1 Drivers and Constructors World Championship titles from 1952 to the present day and a further fourteen sports car World Championships Few car manufacturers can boast a roll of honor as rich as that of Ferrari a protagonist on road and track throughout the world for over half a century The sporting history of the Maranello marque recounted through its championship winning cars illustrated with hundreds of previously unpublished color and black and white photos and accompanied by a brief but authoritative text **Road and Track Ferrari F355 and 360 Portfolio 1995-2002** R. M. Clarke,Brooklands Books,2003-03 This is an exciting new series of books taken from the pages of Road Track magazine one of the most popular automotive magazines ever published The Road Track books will be of immense interest to the enthusiast covering top performance cars and containing feature stories road test narratives and complete specifications along with performance data For auto enthusiasts this series is an excellent reference for collecting restoring or buying the car of one s dreams Published by CarTech Brooklands Books **Ferrari Road Cars 1946-1956 - Road Test Portfolio** R. M.

Clarke,2009-06-01 An in depth reference book compiled from multiple sources these incredibly focused portfolios contain a wealth of information for the collector restorer or enthusiast As much of the mystique of the Ferrari marque is associated with its racing successes it is more usual for authors and publishers to document Ferrari s racing successes while the road going automobiles are rarely given any consideration However the road cars constructed between 1946 and 1956 played a significant part in Ferrari s growth and development during those formative years and this portfolio traces the history of those iconic cars Brooklands Books UK has dug into their archives and compiled a wonderful assembly of documentation for the early road cars Road tests and track tests written by extremely knowledgeable authors historians and drivers such as Phil Hill Peter Coltrin Warren Fitzgerald John Bentley Michael Bowler Hans Tanner and Dean Batchelor to name just a few and in no significant order However the demarcation between the race cars and the early road cars is often blurred as many of the cars that were constructed during that era had dual personalities and many of the so called road cars were nothing more than thinly disguised race cars Therefore while the intention of this book is to focus on the true road going Ferraris manufactured from 1946 to 1966 the reader has to accept that there will be some gray areas Brooklands Books Ltd has been publishing road test portfolios on a wide range of automobiles and motorcycles since the early 1950 s and the series now runs in excess of 500 titles This book is part of the digitally produced series of portfolios and VelocePress is proud to be part of the publication effort in conjunction with Brooklands Books Typically the contents include road tests track tests new model reviews owner commentary driving impressions specifications performance data design and styling articles
