The Other Israel, 1983

The Religionization of Israeli Society Yoav Peled, Horit Herman Peled, 2018-07-18 During Israel s military operation in Gaza in the summer of 2014 the commanding officer of the Givati infantry brigade Colonel Ofer Vinter called upon his troops to fight the terrorists who defame the God of Israel This unprecedented call for religious war by a senior IDF commander caused an uproar but it was just one symptom of a profound process of religionization or de secularization that Israeli society has been going through since the turn of the twenty first century This book analyzes and explains for the first time the reasons for the religionization of Israeli society a process known in Hebrew as *hadata* Jewish religion inseparable from Jewish nationality was embedded in Zionism from its inception in the nineteenth century but was subdued to a certain extent in favor of the national aspect in the interest of building a modern nation state *Hadata* has its origins in the 1967 war has been accelerating since 2000 and is manifested in a number of key social fields the military the educational system the media of mass communications the *teshuvah* movement the movement for Jewish renewal and religious feminism A major chapter of the book is devoted to the religionization of the visual fine arts field a topic that has been largely neglected by previous researchers Through careful examination of religionization this book sheds light on a major development in Israeli society which will additionally inform our understanding of the Israeli Palestinian conflict As such it is a key resource for students and scholars of Israel Studies and those interested in the relations between religion culture politics and nationalism secularization and new social movements

studies will appreciate Narratives of Dissent **A House Divided** Noah S. Friedland, 2010-02-22 Jonathan Geller an ambitious young academic is struggling to build a new life for himself in the US An American born Jew who had immigrated to Israel with his family as a child Geller fled the Jewish State after a deadly incident that occurred during his service in the Israeli army Ten years into his self imposed exile Geller's younger brother is killed in the line of duty so he reluctantly returns to Israel to attend the funeral Once back Geller is forced to confront his broken family and a life and country he thought he had left behind for good Colored by his own military experiences he begins to question the circumstances of his brother's death Aided by a mysterious source a childhood friend an old flame and his brother's girlfriend a fiery young redhead he slowly uncovers the truth a path that embroils him in a deadly clandestine chess game between two opposing forces each fighting for what they believe is the very soul of the Jewish state A fast paced character driven thriller A House Divided provides an authentic first hand look into Israeli society and its legendary military Unlike many other books in this genre which have focused on the Arab Israeli conflict this work examines the long term effects of almost one hundred years of conflict on a nation deeply divided on how best to define its future It also explores how a wounded family whose bonds have been weakened by distance and time copes with adversity and loss Hadassah Magazine Friedland has written a good story that shows an intimate knowledge of the military the landscape of Israel and the effect of the ongoing conflict on the country's citizens *Archive Collection of The Other Israel, Newsletter of the Israeli Council for Israeli-Palestinian Peace*, 1983 **Invariance, Markedness and Distinctive Feature Analysis** Yishai Tobin, 1994-12-15 This volume provides a new kind of contrastive analysis of two unrelated languages English and Hebrew based on the semiotic concepts of invariance markedness and distinctive feature theory It concentrates on linguistic forms and constructions which are remarkably different in each language despite the fact that they share the same familiar classifications and labels Tobin demonstrates how and why traditional and modern syntactic categories such as grammatical number verb tense aspect mood and voice conditionals and interrogatives etc are not equivalent across languages It is argued that these so called universal concepts function differently in each language system because they belong to distinct language specific semantic domains which are marked by different sets of semantic features The data used in this volume have been taken from a wide range of both spoken and written discourse and texts reflecting people's actual use of language presented in their relevant linguistic and situational contexts *Israel* Anita Shapira, 2014-08-05 A history of Israel in the context of the modern Jewish experience and the history of the Middle East *Out of This World* Rachel S. Cordasco, 2021-12-28 The twenty first century has witnessed an explosion of speculative fiction in translation SFT Rachel Cordasco examines speculative fiction published in English translation since 1960 ranging from Soviet era fiction to the Arabic language dystopias that emerged following the Iraq War Individual chapters on SFT from Korean Czech Finnish and eleven other source languages feature an introduction by an expert in the language's speculative fiction tradition and its present day output Cordasco then breaks down each

chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language She also examines the reasons a given subgenre has been translated into English An informative and one of a kind guide *Out of This World* offers readers and scholars alike a tour of speculative fiction s new globalized era

Israelis in Conflict Adriana Kemp,Uri Ram,David Newman,Oren Yifta,2014-06-01 Globalisation and increased cultural heterogeneity have had a major impact on states whose identity has been defined in terms of a single often socially constructed allegiance to the state and a single hegemonic ideology Nowhere are changing notions of identity more prevalent than in Israel a country whose dominant Western Jewish society has been subject to understanding their past and present in terms of a single ideology of state formation Zionism This book challenges some of the traditional analytical paradigms prevalent in Israeli social science for the past fifty years *Philosophy and Geography III* Andrew Light,Jonathan M. Smith,1998 Places are today subject to contrary tendencies They lose some functions which may scale up to fewer more centralized places or down to numerous more dispersed places and they gain other functions which are scaling up and down from other places This prompts premature prophecies of the abolition of space and the obsolescence of place At the same time a growing literature testifies to the persistence of place as an incorrigible aspect of human experience identity and morality Place is a common ground for thought and action a community of experienced particulars that avoids solipsism and universalism It draws us into the philosophy of the ordinary into familiarity as a form of knowledge into the wisdom of proximity Each of these essays offers a philosophy of place and reminds us that such philosophies ultimately decide how we make use and understand places whether as accidents instruments or fields of care
