Road Dogs and Loners Timothy D. Pippert, 2007-01-01 Using ethnographic interviews and affiliation scale and observational data from two soup kitchens of homeless men Road Dogs and Loners investigates the various family types that homeless road dogs and loners rely on for support Pippert specifically compares homeless men who typically partnered up with homeless men who were self-described loners The groups are compared here in terms of their contact and support with biological created and fictive families Interdisciplinary in nature this work tackles themes that are relevant to the study of social class stratification economics social problems family sociology social theory and research methods Road Dogs and Loners provides an updated and in depth personal perspective on the lives and relationships of homeless men in America

Fishing Dogs Raymond Coppinger, 2014-02-04 If you're familiar with the world of hunting you know how important dogs are in the field Less known however is how vital these canines are to fishermen For many anglers packing your tackle and wading through the river without a trusted fishing dog is a recipe for disaster In *Fishing Dogs* Raymond Coppinger sheds light on the true value of fishing dogs of every size shape and color Monsoon dogs for example lay in the bilge of boats until they are disturbed by the shipping of water At that point they rise up out of the bilge and unleash with tremendous power a series of epicentric rotational reciprocations thus expelling inches of boat threatening water Coppinger also introduces readers to the Maine bowplunk dog which received its name from its deeply ingrained habit of standing proud and brave on the bow of his master's boat as it moves through the choppy waters off Maine's coast As a biologist distinguished fisherman and a known storyteller and fan of satire Coppinger is more than qualified to discuss the various breeds of fishing dogs in addition to topics as the evolution of dogs from wolves the dangers of crossbreeding and finding a fisherman's perfect fishing dog Skyhorse Publishing is proud to publish a broad range of books for fishermen Our books for anglers include titles that focus on fly fishing bait fishing fly casting spin casting deep sea fishing and surf fishing Our books offer both practical advice on tackle techniques knots and more as well as lyrical prose on fishing for bass trout salmon crappie baitfish catfish and more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home

Isle of Dogs Patricia Cornwell, 2002-10-01 Patricia Cornwell's novels of big city police have taken this classic genre to a new level Now with this 1 New York Times bestselling novel she outdoes herself with a wry tale of life and turmoil behind the blue wall Chaos breaks loose when the governor of Virginia orders that speed traps be painted on all streets and highways and warns that speeders will be caught by monitoring aircraft flying overhead But the eccentric island of Tangier fourteen miles off the coast of Virginia in Chesapeake Bay responds by declaring war on its own state Judy Hammer newly installed as the superintendent of the Virginia State Police and Andy Brazil a state trooper and Hammer's right hand and confidant find themselves at their wits end as they try to protect the public from the politicians and vice versa

in this pitch perfect darkly comic romp **Detector Dogs and Scent Movement** Tom Osterkamp, 2020-04-06 Dogs detect scent from a source that is carried to them in a plume by the wind The most important tool for a detector dog handler to have on searches is a knowledge of scent plume movement or scent dynamics the science of scent movement Such knowledge resides primarily in scientific journals that are largely inaccessible to detector dog handlers and written in language that is difficult to understand Detector Dogs and the Science of Scent Movement A Handler's Guide to Environments and Procedures retrieves reviews and interprets the results of pertinent scientific research on scent dynamics and presents these results in terms that are easier for handlers to understand Information on the physiology of the dog's nose their sense of smell and the properties of scent provide the essential information on the process of scenting The composition of training aids for explosives narcotics human remains and other sources is discussed Recommendations are made on the use of training aids their placement during training and the resulting availability of scent Potential problems and handler errors in the use of training aids are also examined The characteristics of scent plumes and how wind influences their movement are a key focus of the book The primary task for the handler is to get the dog into the scent plume so that the dog can detect the scent and follow it to the source the handler seeks As such a knowledge of scent and scent plume movement will vastly improve the ability of the handler to accomplish this task The influence of weather and physical settings such as terrain vegetation ground cover soil and water on scent movement are examined in detail Strategies for searching detecting and locating sources in all physical settings are presented Specific effects associated with hills and mountains fields and forests bare soils and soils covered by vegetation different soil types and lakes and rivers are examined in detail This includes specific recommendations are made about weather and physical settings that result in higher probability of success on searches Detector Dogs and the Science of Scent Movement will be a vital resource for K9 handlers in the private and public sectors including in Homeland Security law enforcement and military settings as well as a useful guide for lawyers forensic and investigative professionals who need to better understand K9 operations **Beggars and Thieves** Mark S.

Fleisher, 1995-08-01 As the incidence of violent crime rises in the United States so does the public demand for a solution But what will work Mark S Fleisher has spent years among inmates in jails and prisons and on the streets with thieves gang members addicts and life long criminals in Seattle and other cities across the country In Beggars and Thieves he writes about how and why they become and remain offenders and about the actual role of jails and prisons in efforts to deter crime and rehabilitate criminals Fleisher shows with wrenching firsthand accounts that parents who are addicts abusers and criminals beget irreversibly damaged children who become addicts abusers and criminals Further Fleisher contends that many well intentioned educational and vocational training programs are wasted because they are offered too late to help And he provides sobering evidence that many youthful and adult offenders find themselves better off in prison with work to do medical care a clean place to sleep regular meals and stable social ties than they are in America's cities Fleisher calls for anti

crime policies that are bold practical and absolutely imperative He prescribes life terms for violent offenders but in prisons structured as work communities where privileges are earned through work in expanded productive industries that reduce the financial burden of incarceration on the public But most important he argues that the only way to prevent street crime cut prison growth and reduce the waste of money and human lives is to permanently remove brutalized children from criminal addicted and violent parents Dogs and People in Social, Working, Economic or Symbolic Interaction L.

Snyder,2016-07-29 This the final title to be published from the sessions of the 2002 ICAZ conference focuses on the role of man s best friend As worker or companion the dog has enjoyed a unique relationship with its human master and the depth and variety of the papers in this fascinating collection is a testament to the interest that this symbiotic arrangement holds for many scholars working in archaeology today The book covers an eclectic range of subjects such as considering dogs as animals of sacrifice and animal components of ancient and modern religious ritual and practice dogs as human companions subject to loving care visual symbolic representation deliberate or accidental breed manipulation as working dogs and finally as co inhabitants of human dwelling paces and co consumers of human food resources While many of the papers in this volume have a predominant focus they also demonstrate that the relationships between humans and dogs are rarely if ever singular or simple Instead these relationships are complex often combining the practical the ideological and the symbolic
