Russia France And The Idea Of Europe:

Russia, France, and the Idea of Europe Julie M. Newton, 2003
Julie M Newton's analysis of Franco Russian relations brings to light fundamental questions of international relations. Analysing the relationship from 1958 to 2002 the author highlights ideas and identity as primary causes of the change in Moscow's Westpolitik. This work also examines how since 1991 Western actions have frayed Russia's identification with Europe with potentially negative consequences for future Russian Western relations.

The Idea of Europe Shane Weller, 2021-06-03
There is an increasingly widespread sense that Europe is in crisis. Notions of a shared European identity and a common European culture appear to be losing their purchase. This crisis is often seen as a conflict between a cosmopolitan and a nationalist idea of Europe. The reality is however considerably more complex as the long history of the idea of Europe reveals. In *The Idea of Europe: A Critical History* Shane Weller explores that history from its origins in classical antiquity to the present day. Drawing on a wide range of sources he demonstrates that all too often seemingly progressive ideas of Europe have been shaped by Eurocentric culturally supremacist and even racist assumptions. Seeking to break with this troubling pattern Weller calls for an idea of Europe shaped by a spirit of self critique and by an openness to those cultures that have for so long been dismissed as non European.

Russia and the Idea of Europe Iver B. Neumann, 2016-10-14
The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia's relationship with Europe. In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing nationalist views and Europe orientated liberal views can ever be resolved. Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where it left off in the early 1990s bringing the discussion fully up to date. Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism. The book also offers an additional focus on post Cold War developments. In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation. Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations.

Russia and Europe in the Twenty-First Century Jackie Gower, Graham Timmins, 2009-02-01
There has never been a more important time to understand Russia's relationship with Europe and it is the subsequent sense of unease both in Russia and Europe which provides the focus for this investigation and which will make it of use to specialist and general readers alike.

Institutions, Ideas and Leadership in Russian Politics Julie Newton, William Tompson, 2010-06-23
A stimulating and thought provoking collection that challenges some of the emerging conventional wisdom about contemporary Russia. It

examines the role of leadership institutions and ideas and the interactions among them in shaping Russia's post Soviet transformation

The Armies of Europe ... England, France, Russia, Prussia, Austria and Sardinia (etc.) George B Mac-Clellan, 1861

Russia and Europe Kjell Engelbrekt, Bertil Nygren, 2014-03-18 Russian European political relations have always been problematic and one of the main reasons for this is the different perspectives on even the very basic notions and concepts of political life With a worldwide recession the problems as well as the opportunities in Russian European relations are magnified While most works on Russian European Russian American and Russian West relations focus on current policies and explain them from a standard set of explanatory variables this book penetrates deeper into the structural and ideational differences that tend to bring about misperceptions miscalculations misinterpretations and misdeeds in this two directional relationship It applies a very broad conceptual framework to analyse differences that are as relevant for Europe and the EU as it is to Russia's immediate neighbours and while doing so identifies the key factors that will dominate Russia EU ties in the next decade

Europe and the British Geographical Imagination, 1760-1830 Paul Stock, 2019-10-03 Europe and the British Geographical Imagination 1760 1830 explores what literate British people understood by the word Europe in the late eighteenth and early nineteenth centuries Was Europe unified by shared religious heritage Where were the edges of Europe Was Europe primarily a commercial network or were there common political practices too Was Britain itself a European country While intellectual history is concerned predominantly with prominent thinkers Paul Stock traces the history of ideas in non elite contexts offering a detailed analysis of nearly 350 geographical reference works textbooks dictionaries and encyclopaedias which were widely read by literate Britons of all classes and can reveal the formative ideas about Europe circulating in Britain ideas about religion the natural environment race and other theories of human difference the state borders the identification of the centre and edges of Europe commerce and empire and ideas about the past progress and historical change By showing how these and other questions were discussed in eighteenth and nineteenth century British culture Europe and the British Geographical Imagination 1760 1830 provides a thorough and much needed historical analysis of Britain's enduringly complex intellectual relationship with Europe

The History of the Idea of Europe Jan van der Dussen, Kevin Wilson, 2005-09-26 First published in 1995 Routledge is an imprint of Taylor Francis an informa company

Count Sergei Witte and the Twilight of Imperial Russia Sidney Harcave, 2015-04-08 Sergei Witte served as finance minister and later prime minister of Russia during the reigns of Alexander III and Nicholas II and was in large part responsible for the development policies which saw Russia transformed from a peasant economy into an industrial nation This is the first biography of Witte in English

Reflections on Europe Hans-Åke Persson, 2007 When Dutch and subsequently French voters rejected the Draft Treaty for a Constitution for Europe in Spring 2005 many voices called for a pause for reflection This book is in part a result of that moment of reflection We wanted to contribute to the debate about Europe but crucially we sought to do so by taking a step back from the problem formation and agenda setting

of Brussels For the authors of this volume one key to establishing critical distance has been the reappraisal of the historical perspective Another has been the problematisation of Europe as a space as opposed to looking for a definition of borders The authors also seek critical distance through a focus on the tension between Europe as a culture as a polity and as an economy These tensions have often been neglected or even ignored and the relationships have been seen as more or less synonymous and harmonious The aim of this volume then is two fold It wants developing a critical distance to the present Europe to contribute to the vivid academic research and debate on Europe which too often either develops distance without commenting on the present state of affairs or comments on the present without critical distance

Russia and Europe: Conflict or Cooperation? M. Webber, 2000-07-12 This volume focuses on how Russian policy toward Europe and sometimes by extension the West more broadly has developed since the end of the Cold War and the disintegration of the Soviet Union It argues that important aspects of cooperation have endured in the relationship despite all the vicissitudes of Russian domestic politics and at a time of flux in the international relations of the European continent This cooperation has at times been fragile and has not prevented some obvious and deep seated disagreements It has however survived Indeed Russia and Europe have increasingly routinized their relationship in a range of formal multilateral institutions

A History of England, Volume 2 Clayton Roberts, David Roberts, Douglas Bisson, 2016-07-01 A History of England Volume 2 1688 to the Present focuses on the key events and themes of English history since 1688 Topics include Britain's emergence as a great power in the 18th century the American War for Independence the Industrial Revolution and the economic crisis of the 1970s

An Historical Geography of Europe Robin Alan Butlin, Robert A. Dodgshon, 1998 An Historical Geography of Europe represents the first multi authored comprehensive study on the subject It provides the reader with an analytical and explanatory account of European historical geography from classical times to the modern period including the vast changes to landscape settlements population and in political and cultural structures and character that have taken place since 1500 The book takes account of the vast volume of relevant research and literature that has been published over the past two or three decades in order to achieve a unique coverage and synthesis of this very broad range of evidence and opinion and has tried to engage with many of the main themes and debates to give a clear indication of changing ideas and interpretations of the subject This book brings together British and European authors from a number of disciplines who have considerable distinction in the various fields of historical geography and related fields including a significant number who have already written on the wider problem of European historical geography It is amply illustrated with maps and diagrams to present many of the issues in a visual form

Littell's Living Age Eliakim Littell, Robert S. Littell, 1864

The History of Modern Europe: With a View of the Progress of Society from the Rise of the Modern Kingdoms to the Peace of Paris, in 1763 William Russell, 2025-07-29 Reprint of the original first published in 1839 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition

in order to preserve their cultural heritage **The Revolutions of Europe** Christophe Koch, 1839 France, Europe and
the Two World Wars René Albrecht-Carrié, 1969 Europe in Arms Everard Wyrall, 1915
