Russia Under Catherine The Great Vol 1

Orlando Figes

Russia Under Catherine The Great Vol 1:

A History of Russia Volume 1 Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss's accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps fully updated bibliographies accompanying each chapter as well as a general bibliography a glossary and chronological and genealogical lists [The Making of Russian Absolutism 1613-1801](#) Paul Dukes, 2014-01-14 Revised and expanded the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801 The central theme of the book is the growth of absolutism in Russia throughout these years and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being [Catherine the Great](#) Simon Dixon, 2015-10-23 Neither a comprehensive life and times nor a conventional biography this is an engaging and accessible exploration of rulership and monarchical authority in eighteenth century Russia Its purpose is to see how Catherine II of Russia conceived of her power and how it was represented to her subjects Simon Dixon asks essential questions about Catherine's life and reign and offers new and stimulating arguments about the Enlightenment the power of the monarch in early modern Europe and the much debated role of the great individual in history **The Story of Russia** Orlando Figes, 2022-09-20 This is the essential backstory the history book that you need if you want to understand modern Russia and its wars with Ukraine with its neighbors with America and with the West Anne Applebaum author of *Twilight of Democracy* and *Red Famine* Named a Most Anticipated Book of the Year by Publishers Weekly and Kirkus Reviews From the great storyteller of Russian history Financial Times a brilliant account of the national mythologies and imperial ideologies that have shaped Russia's past and politics essential reading for understanding the country today The Story of Russia is a fresh approach to the thousand years of Russia's history concerned as much with the ideas that have shaped how Russians think about their past as it is with the events and personalities comprising it No other country has reimaged its own story so often in a perpetual effort to stay in step with the shifts of ruling ideologies From the founding of Kievan Rus in the first millennium to Putin's war against Ukraine Orlando Figes explores the ideas that have guided Russia's actions throughout its long and troubled existence Whether he's describing the crowning of Ivan the Terrible in a candlelit cathedral or the dramatic upheaval of the peasant revolution he reveals the impulses often unappreciated or misunderstood by foreigners that have driven Russian history the medieval myth of Mother Russia's holy mission to the world the imperial tendency toward autocratic rule the popular belief in a paternal tsar dispensing truth and justice the cult of sacrifice rooted in the idea of the Russian soul and always the nationalist myth of Russia's unjust treatment by the West How the Russians came to tell their

story and to revise it so often as they went along is not only a vital aspect of their history it is also our best means of understanding how the country thinks and acts today Based on a lifetime of scholarship and enthrallingly written *The Story of Russia* is quintessential Figgis sweeping revelatory and masterful *The Russian Empire 1450-1801* Nancy Shields Kollmann, 2017-02-09 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today *The Russian Empire 1450-1801* surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation *The Russian Empire 1450-1801* explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures **Catherine the Great** Alexander Kamenskii, 2020-09-15 Catherine the Great A Reference Guide to Her Life and Works covers all aspects of her life and work Empress Catherine the Great was one of the most famous and amazing women in world history Includes a detailed chronology of Catherine's life family and work The A to Z section includes the major events places and people in Catherine's life The bibliography includes a list of publications concerning her life and work The index thoroughly cross references the chronological and encyclopedic entries **Russia under Western Eyes** Martin E Malia, 2009-06-30 A dazzling work of intellectual history by a world renowned scholar spanning the years from Peter the Great to the fall of the Soviet Union this book gives us a clear and sweeping view of Russia not as an eternal barbarian menace but as an outermost if laggard member in the continuum of European nations [A History of the Urals](#) Paul Dukes, 2015-02-26 The Urals are best known as the boundary between Europe and Asia A History of the Urals demonstrates the region's importance in its own right as a crucible of Russia's defence industry in particular In the first English language book to explore the subject fully Paul Dukes examines the region's contribution to the power of the state in tsarist Soviet and post Soviet times offering a refreshing

antidote to Moscow centric interpretations of Russian history The book contextualises more recent periods with chapters on the earlier years of the Urals and covers the key environmental as well as economic political and cultural themes The book contains illustrations and maps plus lists of books and websites as aids to further research and understanding of the subject A History of the Urals is an important book that provides new and valuable insights for all students of Russian history The Russian Nobility in the Age of Alexander I Patrick O'Meara,2019-05-30 The reign of Alexander I was a pivotal moment in the construction of Russia's national mythology This work examines this crucial period focusing on the place of the Russian nobility in relation to their ruler and the accompanying debate between reform and the status quo between a Russia old and new and between different visions of what Russia could become Drawing on extensive archival research and placing a long neglected emphasis on this aspect of Alexander I's reign this book is an important work for students and scholars of imperial Russia as well as the wider Napoleonic and post Napoleonic period in Europe *Russia and the Russians* Geoffrey A. Hosking,2001 Chronicles the history of the Russian Empire from the Mongol Invasion through the Bolshevik Revolution to the aftereffects of the Cold War **Threads of Empire** Charles Steinwedel,2016-05-09 A history and analysis of Bashkiria and its transformation into a Russian imperial region of the course of three and a half centuries Threads of Empire examines how Russia's imperial officials and intellectual elites made and maintained their authority among the changing intellectual and political currents in Eurasia from the mid sixteenth century to the revolution of 1917 The book focuses on a region 750 miles east of Moscow known as Bashkiria The region was split nearly evenly between Russian and Turkic language speakers both nomads and farmers Ufa province at Bashkiria's core had the largest Muslim population of any province in the empire The empire's leading Muslim official the mufti was based there but the region also hosted a Russian Orthodox bishop Bashkirs and peasants had different legal status and powerful Russian Orthodox and Muslim nobles dominated the peasant estate By the twentieth century industrial mining and rail commerce gave rise to a class structure of workers and managers Bashkiria thus presents a fascinating case study of empire in all its complexities and of how the tsarist empire's ideology and categories of rule changed over time An original and well researched study of the incorporation of the Bashkir lands and their transformation into a Russian imperial region over the course of three and a half centuries Steinwedel argues that the history of Bashkiria exposes a number of the empire's achievements as a multiethnic society He draws out both important shifts and abiding continuities in the history of the region and by employing a multi dimensional approach covering a range of intersecting topics provides a fuller appreciation for the region He also does a nice job pointing out the useful commonalities and differences between the Bashkir lands and other parts of the empire making a compelling case for Bashkiria's importance for understanding larger processes Willard Sunderland author of Taming the Wild Field Colonization and Empire on the Russian Steppe With its solid grounding in Russian archival and printed sources and its sophisticated comparative approach Steinwedel's work will serve as a point of departure for historians of the Russian Empire and will

become a book of reference for any future study of empires in global history American Historical Review Steinwedel's book is both a skilful exercise in local and regional history and an important contribution to the history of Imperial Russia as a whole Slavonic and East European Review *A Compendium of World Sovereigns: Volume III Early Modern* Timothy Venning, 2023-06-30 The Compendium of World Sovereigns series contains three volumes Ancient Medieval and Early Modern These volumes provide students with easy to access who's who with details on the identities and dates ages and wives where known of heads of government in any given state at any time within the framework of reference The relevant original and secondary sources are also listed in a comprehensive bibliography Providing a clear reference guide for students to who was who and when they ruled in the dynasties and other ruler lists for the Ancient Medieval and Early Modern worlds primarily European and Middle Eastern but including available information on Africa and Asia and the pre Columbian Americas The trilogy accesses and interprets the original data plus any modern controversies and disputes over names and dating reflecting on the shifts and widening of focus in student and academic studies Each volume contains league tables of rulers records and an extensive bibliographical guide to the relevant personnel and dynasties plus any controversies so readers can consult these for extra details and know exactly where to go for which information All relevant information is collected and provided as a one stop shop for students wishing to check the known information about a world Sovereign The Early Modern volume begins with Eastern and Western Europe and moves through the Ottoman Empire South and East Asia Africa and ends in Central and South America Compendium of World Sovereigns Volume III Early Modern provides students and scholars with the perfect reference guide to support their studies and to fact check dates people and places Women in Russia and the Soviet Union Rochelle Goldberg Ruthchild, 1993 Cites nearly 900 works written in or translated into English that contain significant information or ideas about women or gender Includes encyclopedia and journal articles bibliographies histories poetry autobiographies dissertations and works of sociology and psychology Arranged in chronological sections stretching from the ancient period through the empire and revolutions to the end of the Soviet Union in 1991 The annotations are descriptive Annotation copyright by Book News Inc Portland OR **Vodka Politics** Mark Lawrence Schrad, 2014-01-06 Russia is famous for its vodka and its culture of extreme intoxication But just as vodka is central to the lives of many Russians it is also central to understanding Russian history and politics In Vodka Politics Mark Lawrence Schrad argues that debilitating societal alcoholism is not hard wired into Russians genetic code but rather their autocratic political system which has long wielded vodka as a tool of statecraft Through a series of historical investigations stretching from Ivan the Terrible through Vladimir Putin Vodka Politics presents the secret history of the Russian state itself a history that is drenched in liquor Scrutinizing rather than dismissing the role of alcohol in Russian politics yields a more nuanced understanding of Russian history itself from palace intrigues under the tsars to the drunken antics of Soviet and post Soviet leadership vodka is there in abundance Beyond vivid anecdotes Schrad scours original documents and archival

evidence to answer provocative historical questions How have Russia's rulers used alcohol to solidify their autocratic rule What role did alcohol play in tsarist coups Was Nicholas II's ill-fated prohibition a catalyst for the Bolshevik Revolution Could the Soviet Union have become a world power without liquor How did vodka politics contribute to the collapse of both communism and public health in the 1990s How can the Kremlin overcome vodka's hurdles to produce greater social well-being prosperity and democracy into the future Viewing Russian history through the bottom of the vodka bottle helps us to understand why the liquor question remains important to Russian high politics even today almost a century after the issue had been put to bed in most every other modern state Indeed recognizing and confronting vodka's devastating political legacies may be the greatest political challenge for this generation of Russia's leadership as well as the next

Paths of Emancipation Pierre Birnbaum, Ira Katznelson, 2014-07-14 Throughout the nineteenth century legal barriers to Jewish citizenship were lifted in Europe enabling organized Jewish communities and individuals to alter radically their relationships with the institutions of the Christian West In this volume one of the first to offer a comparative overview of the entry of Jews into state and society eight leading historians analyze the course of emancipation in Holland Germany France England the United States and Italy as well as in Turkey and Russia The goal is to produce a systematic study of the highly diverse paths to emancipation and to explore their different impacts on Jewish identity dispositions and patterns of collective action Jewish emancipation concerned itself primarily with issues of state and citizenship Would the liberal and republican values of the Enlightenment guide governments in establishing the terms of Jewish citizenship How would states react to Jews seeking to become citizens and to remain meaningfully Jewish The authors examine these issues through discussions of the entry of Jews into the military the judicial system business and academic and professional careers for example and through discussions of their assertive political activity In addition to the editors the contributors are Geoffrey Alderman Hans Daalder Werner E Mosse Aron Rodrigue Dan V Segre and Michael Stanislawski Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Chart History of the World and a Three Years' Course of Study James R. Kaye, 1912

Russia Under Catherine the Great Paul Dukes, 1978

Russian Foreign Policy in the Twenty-First Century and the Shadow of the Past Robert Legvold, 2007-03-27 Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation history offers a special vantage point from which to judge the current course of events In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history The authors explain the impact of empire and its loss the interweaving

of domestic and foreign impulses long standing approaches to national security and the effect of globalization over time Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today These patterns are driven by the country s political makeup geographical circumstances economic strivings unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia s approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve A truly unique collection this volume utilizes history to shed crucial light on Russia s complex occasionally inscrutable relationship with the world In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined

Society and Economy in Early Modern Europe, 1450-1789 Barry Taylor,1989

Russia And The Soviet Union John M Thompson,2019-08-22 This book is a brief lucid account of Russian and Soviet history from ancient Kievan Rus to the present day Equal attention is paid to the early and the modern periods of Russian history The author has revised this new edition to include the dramatic changes in the Soviet Union and its foreign policy during Gorbachev s first five years in office The text is supplemented with maps and illustrations and includes bibliographies at the end of each chapter Designed for use by students in either a one or two semester introductory course in Russian history Russia and the Soviet Union will also be valuable to any reader seeking to become acquainted with the story of the Russian people their tribulations and courage tragedies and triumphs and their remarkable contribution to world culture
