R. Kets de Vries, 2011-09-19 Views from the interface of psychoanalysis and organizational life In the books in this series Manfred Kets de Vries failed engineer entrepreneur manqué reluctant economist international management guru psychoanalyst wit and outdoorsman offers an overview of his work spanning four decades a period in which he has established himself as the leading figure in the clinical study of organizational leadership At a key point in his career working as he puts it in the twilight zone of economics management and psychoanalysis he decided to strike out on a little trodden path and bring the person back into the organization Now Kets de Vries occupies a unique position in the academic business world putting leaders and companies of the couch and working at the often intimate interface where the inner theater of the individual meets the outer world of the organization The second book in this series *Reflections on Leadership and Career Development* takes different perspectives on the intimate connection between the personality or inner theater of individuals

and the organizational context in which they work how different personality types in positions of leadership or as members of management teams affect the functioning and success of organizations Kets de Vries looks at the way basic psychological processes operate on individual and corporate performance and analyzes them in the context of case studies of leaders and organizations He examines narcissism dysfunctional collusion between leaders and followers some new leadership archetypes and the roles that organizational therapists coaches or consultants can play in their interventions The book includes a lengthy study of Vladimir Putin as CEO of Russia Inc an assessment of the former Russian president's performance as an organizational leader The final part of the book examines the career life cycle and how executives cope or fail to cope with rites de passage like succession and retirement For the first time this book provides a glimpse of Manfred Kets de Vries own inner theater as the wellspring of his success as psychoanalyst mentor and inspiration to a generation of leaders Reflections on Leadership and Career Development offers a rare opportunity to observe Manfred on his own legendary couch a personal perspective not to be missed Paul McMorran HR Director TNK BP *Soviet Union Review* ,1927

Russia and the World Natasha Kuhrt,2014-10-14 This volume brings together analyses of key domestic foreign and security policy issues during the Putin and Medvedev administrations Indeed the chapters demonstrate the extent to which domestic and foreign policy issues are inextricably linked in particular in the domain of security whether hard or soft Internal debates regarding Russia's trajectory including issues of national identity economic modernisation human rights and democracy continue to be at the forefront of concern Moreover these debates are intimately connected to Russia's self image and the image therefore that it wishes to project in the wider world The debates focus on Russia as energy superpower as one of the BRICS as an Eurasian landbridge or a window on the Asia Pacific Such debates are a constant reminder of the uncertainty surrounding Russia's future path This book expresses these uncertainties which range from the role of nuclear weapons and energy to critiques of Russia's approach to concepts such as sovereignty and self determination the fight against terrorism insurgency and the role of Islam within and without Russia may have left the chaos of the Yeltsin years behind but as we move into Putin 3.0 the concerns of these chapters will remain critical both to Russia itself and to Russia's relations with the wider world This book was published as a special issue of Europe Asia Studies
