F. Platt, 2019-01-15 Is there an essential Russian identity What happens when Russian literature is written in English by such authors as Gary Shteyngart or Lara Vapnyar What is the geographic home of Russian culture created and shared via the internet Global Russian Cultures innovatively considers these and many related questions about the literary and cultural life of Russians who in successive waves of migration have dispersed to the United States Europe and Israel or who remained after the collapse of the USSR in Ukraine the Baltic states and the Central Asian states The volume's internationally renowned contributors treat the many different global Russian cultures not as displaced

elements of Russian cultural life but rather as independent entities in their own right. They describe diverse forms of literature, music, film, and everyday life that transcend and defy political, geographic, and even linguistic borders. Arguing that Russian cultures today are many, this volume contends that no state or society can lay claim to be the single or authentic representative of Russianness. In so doing, it contests the conceptions of culture and identity at the root of nation building projects in and around Russia.

Joseph Brodsky and Modern Russian Culture, 2024-09-23. This volume is a major contribution to the study of the life, work, and standing of Joseph Brodsky, 1987 Nobel Prize Laureate and the best known Russian poet of the second half of the twentieth century. This is the most significant book devoted to him in the last 25 years and features work by many of the leading experts on him both in Russia and the West. Every one of the chapters makes a real contribution to different aspects of Brodsky: the growth of interest in his work, his world view and political position, and the unique aspects of his poetics. Taken together, the sixteen chapters offer a rounded interpretation of his significance for Russian culture today.

*Twentieth-Century Russian Poetry*, Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21. The canon of Russian poetry has been reshaped since the fall of the Soviet Union. A multi-authored study of changing cultural memory and identity, this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval. Literary canon and national identity are inextricably tied together, the composition of a canon being the attempt to single out those literary works that best express a nation's culture. This process is, of course, fluid and subject to significant shifts, particularly at times of epochal change. This volume explores changes in the canon of twentieth-century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008. In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy, the way was open for wholesale reinterpretation of twentieth-century poets such as Iosif Brodskii, Anna Akhmatova, and Osip Mandelstam, their works, and their lives. In the last twenty years, many critics have discussed the possibility of various coexisting canons rooted in official and non-official literature and suggested replacing the term Soviet literature with a new definition: Russian literature of the Soviet period. Contributions to this volume explore the multiple factors involved in reshaping the canon, understood as a body of literary texts given exemplary or representative status as classics. Among factors which may influence the composition of the canon are educational institutions, competing views of scholars and critics, including figures outside Russia, and the self-canonising activity of poets themselves. Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre-revolutionary cultural traditions through a narrative of the past which foregrounds continuity. Despite persistent nostalgic yearnings in some quarters for a single canon, the current situation is defiantly diverse, balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground. Required reading for students, teachers, and lovers of Russian literature, *Twentieth-Century Russian Poetry* brings our understanding of post-Soviet Russia up to date.

**An Indwelling Voice** Stuart Goldberg, 2023-10-02 How have poets in recent centuries been able to inscribe recognizable and relatively sincere voices despite the wearing of poetic language and reader awareness of sincerity's pitfalls How are readers able to recognize sincerity at all given the mutability of sincere voices and the unavailability of inner worlds What do disagreements about the sincerity of texts and authors tell us about competing conceptualizations of sincerity And how has sincere expression in one particular illustrative context Russian poetry both changed and remained constant *An Indwelling Voice* grapples uniquely with such questions In case studies ranging from the late neoclassical period to post postmodernism it explores how Russian poets have generated the pragmatic framings and poetic devices that allow them to inscribe sincere voices in their poetry Engaging Anglo American and European literature as well as providing close readings of Russian poetry *An Indwelling Voice* helps us understand how poets have at times generated a powerful sense of presence intimating that they speak through the poem
