Sacred Journeys The Anthropology Of Pilgrimage:

Sacred Journeys Alan Morinis, 1992-10-26 This interdisciplinary collection is a new landmark in the study of the world's pilgrimage traditions. Experts from many disciplines approach the subject from a variety of perspectives that are designed to lead to the understanding of pilgrimage in general. Specific case studies represent most of the major religious traditions of the world. Anthropologists, historians, sociologists, social psychologists, and students of religion will find that these theoretical and case studies suggest new areas for further research. Alan Morinis presents a many-faceted examination of sacred journeys in India, Southeast Asia, the Pacific, West Asia, Africa, North America, and the Caribbean. The introduction provides a framework for the case studies which follow. In-depth accounts of patterns of pilgrimage ranging from Hindu practices to a comparison of Catholic and Baptist pilgrimage in Haiti and Trinidad to a narration of a Maori sacred journey provide valuable comparative information. Pilgrimage is viewed in relation to methodological issues and an analysis is offered showing how pilgrimage and tourism are related. Victor Turner's foreword and Colin Turnbull's postscript lend authoritative weight to this increasingly significant field of study.

Intersecting Journeys Ellen Badone, Sharon R. Roseman, 2004-09-23 *Intersecting Journeys* offers ethnographic analysis of the conflicts over resources, meanings associated with sacred sites such as Lourdes, Rome, Jerusalem, as well as the sense of community they inspire.

Memory and Desire Peter Wagstaff, 2023-04-12 This study challenges the conventional view of R. T. de la Bretonne as a chronicler of eighteenth-century France and notorious exponent of *la littérature galante* to provide both students and scholars with a fresh analysis focusing on two themes: autobiography and utopianism, which feature prominently in his writing. It suggests that each is the product of similar impulses reflecting common polarities between public and private self and others, past and future. In tracing R. T.'s persistent but frustrated attempts to reconcile the conflicting elements of the world he inhabits—rural and urban, old and new, stable and changing—this volume analyses the failure of his utopian dream of a well-ordered and harmonious society. By exploring his absorption in the autobiographical project and in particular *Monsieur Nicolas* ou *le cœur humain dévoilé*, it offers an interpretation of his work as a sustained reflection on selfhood and on the power of memory which enables R. T. to create within the confines of the text a utopian space where self and world are reconciled and time and space no longer count.

Driven by Hope James E. Dittes, 1996-01-01 In this book James Dittes invites men to embrace their spiritual and decidedly masculine way in the world. Dittes confronts negative stereotypes and offers male-affirming alternatives to the understanding of the nature of maleness.

Marion,2017-12-29 Lauren Miller Griffith and Jonathan S Marion introduce the concept of apprenticeship pilgrimage to help explain why performers travel to places both near and far in an attempt to increase both their skill and their legitimacy within various genres of art and activity What happens when your skill level surpasses local training opportunities whether in dance martial arts or other skills and practices Apprenticeship Pilgrimage provides a new and exciting model of apprenticeship pilgrimages including local regional opportunistic and virtual that practitioners undertake to develop embodied knowledge skills and legitimacy unavailable at home For most people there is a limit to how much training is available from the teachers and classes at home As skill and know how increase the resources and training opportunities available become limits on one s learning Similarly a practitioner s legitimacy may be suspect without exposure to appropriate cultural context such as ties with the homeland of certain dance forms or martial arts Whether for skill alone or activity specific legitimacy individuals may feel compelled to travel for training Such travelers see themselves quite differently from other tourists and the seriousness with which they pursue their journeys makes it appropriate to call them pilgrims Given the goal of learning from and developing their own skills by training with experts at their destinations apprenticeship pilgrims is even more appropriate Rather than focus on specific geographic regions or genres of apprenticeship this book builds a robust theoretical framework for understanding the role of travel for developing expertise in embodied genres This book links and expands on the existing scholarship concerning anthropologies of education and tourism but takes new strides in exploring the global circumstances wherein skill development requires travel Throughout the authors use apprenticeship pilgrimage as a robust new framework for considering the interrelated roles of going learning and doing for identity construction within contemporary globalization For more information check out A Conversation with Lauren Griffith and Jonathan Marion **Dark Tourism and Pilgrimage** Daniel H.
