**This is Not Just a Painting** Bernard Lahire, 2019-04-15 In 2008 the Mus e des Beaux Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Mus e des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions

and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art **Being and Ambiguity** Brook

Ziporyn,2015-10-28 Being and Ambiguity is a brilliant work of philosophy filled with insights jokes and topical examples Professor Ziporyn draws on the works of such Western thinkers as Wittgenstein Nietzsche Freud Sartre and Hegel but develops his main argument from Tiantai school of Chinese Buddhism This important work introduces Tiantai Buddhism to the reader and demonstrates its relevance to profound philosophical issues Ziporyn argues that we can make both of the claims below simultaneously This book is about everything It contains the answers to all philosophical problems which ever shall exist This book is all claptrap It is completely devoid of objective validity of any kind These claims are not contradictory Rather they state the same thing in two different ways To be objective truth is to be subjective claptrap and vice versa All interchanges of any kind conversations daydreams sensations are not only about something but also about everything Thus this book concerns itself with no less than the nature of what is and what it means for something to be what it is It provides a new approach to the basic Western philosophical and psychological issues of identity determinacy being desire boredom addiction love and truth **World Scriptures** Kenneth Kramer,1986 World Scripture is a guidebook to the primary source materials of the classical living religions of the world It is a guidebook which innovatively blends critical and interpretative tools with sacred symbols and stories of Ultimacy

**Religion, Globalization and Culture** Peter Beyer,Lori Gail Beaman,2007 The topic of religion and globalization is complex susceptible to a great variety of approaches This book combines contributions from many authors who examine a wide range of subjects ranging from overall theoretical considerations to detailed regional perspectives No single understanding of either religion or globalization is privileged

*Notes on Bergson and Descartes* Charles Peguy,2019-02-12 Charles P guy 1873 1914 was a French religious poet philosophical essayist publisher social activist Dreyfusard and Catholic convert There has recently been a renewed recognition of P guy in France as a thinker of unique significance a reconsideration inspired in large part by Gilles Deleuze's Difference et répétition which ranked him with Nietzsche and Kierkegaard In the English speaking world however access to P guy has been hindered by a scarcity of translations of his work This first complete translation of one of his most important prose works with accompanying interpretive introduction and notes will introduce English speaking readers to a new voice which speaks in a powerful and original way to a modern West in a condition of cultural and spiritual crisis The immediate circumstance of the writing of this last prose essay unfinished at the time of P guy's early death was the placing of Henri

Bergson's philosophical works on the Catholic Index and P. Guy's undertaking to defend his former teacher from his critics both Catholic and secular. But the subject of Bergson is also a springboard for the exploration of the perennial themes philosophical, theological and literary most central to P. Guy's thought. Epistemic Ambivalence Daniel Medeiros de Freitas, Carolina Maria Soares Lima, Krzysztof Nawratek, Bernardo Miranda Pataro, 2023-07-28. This book delves into the complex relationship between religious imaginaries and the perception of space among followers of Candomblé and Pentecostal churches in Belo Horizonte, Brazil's third largest urban agglomeration. It adopts a dual perspective examining the broader political, economic and social dimensions of these religious communities: urbanisation and spatial distribution and their members' individual beliefs and behaviours. Through this approach, the book aims to provide a nuanced and insider's view of these religious positions, challenging our preconceived notions of urban spaces and contributing to the larger discussion of decolonial urban theory and spatialised post-secular thought. This transdisciplinary book will appeal to a broad range of researchers, particularly those interested in urban and religious studies. Its strong spatial perspective makes it attractive to architects and urban designers. It will be of interest to those in human geography, urban planning, design, architecture, political science, religious studies and culture studies. **The biblical illustrator: or, Anecdotes [&c.] on the verses of the Bible, by J.S. Exell** Joseph Samuel Exell, 1886.

**Man's Fate and God's Choice** Bhimeswara Challa, 2021-06-29. Stagnate as a creepy caterpillar or transform into a beautiful butterfly: this path-breaking book of a rare genre suggests is the seminal choice before mankind and every one of us. In this setting, the book raises some fundamental questions: What is man's rightful place in the cosmos and his manifest destiny on earth? Why are we so self-righteously self-destructive? Are we a doomed species? Or divine beings struggling to overcome the hubris of the human intellect? Is God getting weary of mankind? How should we synergize human effort and Divine Grace? The book posits that any betterment in human behavior needs a cathartic change at the deepest levels. That requires diluting the dominance of the mind and reawakening the long dormant intelligence of the human heart. To meet that challenge, we need minimum numbers: a critical mass to create self-sustained momentum for transformation through consciousness change. And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species-scale difference. The book offers a menu of ideas and an agenda of action. This book could itself become an input to mobilize that very critical mass it advocates for human transformation. Well-planned and cohesively written, the book is noteworthy for its delightful blend of information and arguments and reveals the depth of the author's understanding of the human predicament. This is a closely argued and thought-provoking book. *The Hindu* 13 Sept 2011. This book is a gripping exposition on human nature and self-transformation without preference to religion. Challa has critically provided a foundational argument for a deeper discussion of philosophical

and practical ideals concerning self transformation harmonizing the head and the heart is the way for humans to function as spiritual beings Recommended by the USSR The US Review of Books The author reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness The strength of this treatise is the sweep of Challa s reach and his treatment of a vastly complex set of issues that bedevil humankind today India International Center Quarterly Summer 2012 As a thinker and erudite scholar the author has made a profound study of the world situation and the moral decadence of man This book deserves to be on the shelves of university college and public libraries Triveni Magazine July Sept 2011 It is difficult to pigeon hole this book as a prophetic discourse a journey into the human mind a guide for human survival a spiritual treatise It is an amalgam of all these and more the volume reaches out to those who are already uneasy about the way we on this earth are progressing The Book Review India June 2013

My Tax Dollars Ruth Braunstein, 2025-04-15 When the mundane reality of paying taxes takes on moral significance In My Tax Dollars Ruth Braunstein maps the contested moral landscape in which Americans experience and make sense of the tax system Braunstein tells the stories of Americans who view taxpaying as more than a mundane chore antigovernment tax defiers who challenge the legitimacy of the tax system antiwar activists who resist the use of their taxes to fund war antiabortion activists against taxpayer funded abortions and a diverse group of people who promote taxpaying as a moral good Though taxpaying is often portrayed as dull and technical exposure to collective rituals civic education propaganda and protest transforms the practice for many Americans into either a sacred rite of citizenship or a profane threat to what they hold dear These sacred and profane meanings can apply to the act of taxpaying itself or to the specific uses of tax dollars Despite intense disagreement about these meanings politically diverse Americans engaged in both taxpaying and tax resistance valorize the individual taxpayer and my tax dollars Braunstein explores the profound implications of this meaning making for tax consent the legitimacy of the tax system and citizens broader understandings of their political relationships Going beyond the usual focus on tax policy Braunstein s innovative view of taxation through the lens of cultural sociology shows how citizens in value diverse societies coalesce around shared visions of the sacred and fears of the profane

Dis/organization as Communication Consuelo Vásquez, Timothy Kuhn, 2019-03-13 This book accounts for the transformation of organizations in a post bureaucratic era by bringing a communicational lens to the ontological discussion on organization disorganization offering a conceptual and methodological toolbox for studying dis organization as communication Increasingly scholars acknowledge that communication is constitutive of organization because meaning is always indeterminate communication also and simultaneously generates disorganization The book synthesizes the major theoretical trends and empirical studies in communication that engage with dis organization Drawing on dialectics relational ontologies critical theory systems theory and affect thinking the first part of the book offers communicational explanations of how dis organization unfolds The second part of the book grounds this theoretical reflection providing empirical studies that

mobilize diverse methodological and analytical frameworks e.g. ethnography, situational interactional and genre analysis for studying the practices of disorganization. Overall, the book exposes organizations and organizing processes as significantly messier, irrational or a rational and paradoxical than scholars of organization typically think. It also offers readers the conceptual and methodological tools to understand these complex processes as communication. This book will be essential reading for scholars in organizational communication or management and organization studies together with senior undergraduate and graduate students studying organizational communication, organizational discourse, discourse analysis, including rhetoric, semiotics, pragmatism, narratology and courses in management studies. It will also be richly rewarding for organizational consultants, managers and executives.

**Durkheim's Sociology of Religion** WSF Pickering, 2009-05-28

Religion is central to Durkheim's theory of society and his work laid most of the foundations of the sociology of religion. Daring and brilliant though his analysis was, its bold claims and questionable premises have made it the subject of ongoing academic debate. Durkheim's work on the subject reached a peak with the publication in 1912 of what turned out to be a classic in its field: *The Elementary Forms of the Religious Life*. No other book has explained Durkheim's views on religion using the whole corpus of his writings. Dr Pickering shows how Durkheim's position developed and explains the themes and theories that run through Durkheim's work. This includes Durkheim's attitude towards secularisation and Christian churches as well as his notion of the contemporary cult of the individual.

**To Take Place** Jonathan Z. Smith, 1987. In this broad-ranging inquiry into ritual and its relation to place, Jonathan Z. Smith prepares the way for a new approach to the comparative study of religion. Smith stresses the importance of place in particular constructed ritual environments to a proper understanding of the ways in which empty actions become rituals. He structures his argument around the territories of the Tjilpa aborigines in Australia and two sites in Jerusalem: the temple envisioned by Ezekiel and the Church of the Holy Sepulchre. The first of these locales, the focus of one of the more important contemporary theories of religious ritual, allows Smith to raise questions concerning the enterprise of comparison. His close examination of Eliade's influential interpretation of the Tjilpa tradition leads to a powerful critique of the approach to religion, myth and ritual that begins with cosmology and the category of *The Sacred*. In substance and in method, *To Take Place* represents a significant advance toward a theory of ritual. It is of great value not only to historians of religion and students of ritual but to all whether social scientists or humanists who are concerned with the nature of place. This book is extraordinarily stimulating in prompting one to think about the ways in which space or place is perceived, marked and utilized religiously. A provocative example of the application of humanistic geography to our understanding of what takes place in religion.

**Dale Goldsmith Interpretation** **Mine!** Michael A. Heller, James Salzman, 2022-02-15. Mine is one of the first words babies learn and by the time we grow up, the idea of ownership seems natural: whether we are buying a cup of coffee or a house. But who controls the space behind your airplane seat you're reclining or the squished laptop user behind you? Why is plagiarism wrong but it's okay to knock off a recipe?

or a dress design And after a snowstorm why does a chair in the street hold your parking space in Chicago while in New York you lose both the space and the chair In Mine Michael Heller and James Salzman two of the world s leading authorities on ownership explain these puzzles and many more Remarkably they reveal there are just six simple rules that everyone uses to claim everything Owners choose the rule that steers us to do what they want But we can pick differently This is true not just for airplane seats but also for battles over digital privacy climate change and wealth inequality Mine draws on mind bending often infuriating and always fascinating accounts from business history courtrooms and everyday life to reveal how the rules of ownership control our lives and shape our world *The Liberty Wars: The Trump Time Bomb* Joe Dixon,2018-02-07

Trump is in the White House Forget the Culture Wars the Liberty Wars are about to erupt on the grand apocalyptic scale Do you know the difference between positive and negative liberty You had better find out fast They define the world we live in and the immense conflicts to come Politics has failed The advent of Donald Trump a Plutocrat with zero political experience as the President of the USA shows that democracy is now coming to its end If the President can be a non politician a demagogue of the old school why do we need any politicians at all What have the politicians ever done for us The Reckoning is here As John F Kennedy said The hottest places in Hell are reserved for those who in time of moral crisis preserve their neutrality **Animals as Religious Subjects** Celia Deane-Drummond,Rebecca Artinian-Kaiser,David L. Clough,2013-08-01

This book examines one of the most pressing cultural concerns that surfaced in the last decade the question of the place and significance of the animal This collection of essays represents the outcome of various conversations regarding animal studies and shows multidisciplinary at its very best namely a rigorous approach within one discipline in conversation with others around a common theme The contributors discuss the most relevant disciplines regarding this conversation namely philosophy anthropology religious studies theology history of religions archaeology and cultural studies The first section Thinking about Animals explores philosophical anthropological and religious perspectives raising general questions about the human perception of animals and its crucial cultural significance The second section explores the intriguing topic of the way animals have been used historically as religious symbols and in religious rituals The third section re examines some Christian theological and biblical approaches to animals in the light of current concerns The final section extends the implications of traditional views about other animals to more specific ethical theories and practices **Artificial Intelligence** Ronald

Chrisley,Sander Begeer,2000 Reflections on The Moral & Spiritual Crisis in Education David E. Purpel,William M. McLaurin,2004 This book takes a sharply critical view of contemporary society with a searing indictment of our morally and intellectually bankrupt educational system Uniquely the book contains both the original version of David Purpel s highly influential Moral and Spiritual Crisis in Education first published in 1989 as well as an updated critique of that work reflections from our current times of growing despair about the directions of education and the nation Reflections on the Moral and Spiritual Crisis in Education focuses on the possibility and necessity of generating hope through the redemptive

and energizing power of the human spirit
