

The background of the cover is a monochromatic blue photograph. It depicts a vast mountain landscape. In the foreground, the dark, silhouetted branches of trees are visible on the left side. The middle ground is filled with layers of mountains, their peaks and ridges partially obscured by soft, white clouds or mist. The sky above is a pale, clear blue. The overall mood is serene and majestic.

[Finding Salvation in Christ](#) Christopher D. Denny, Christopher McMahon, 2011-05-01 Finding Salvation in Christ brings together some of the most important figures in contemporary theology to honor the work of William Loewe systematic theologian and specialist in the theology of Bernard Lonergan SJ For over three decades Loewe's writings have sought to make classic christological and soteriological doctrines comprehensible to a Catholic Church that is working to integrate individual subjectivity communal living and historical consciousness in the wake of the Second Vatican Council Essays included in this volume assess Loewe's reinterpretation of patristic and medieval Christology from Irenaeus to Anselm of Canterbury and explain the significance of the theology of Lonergan and Loewe for the fields of soteriology economics family life and interreligious theology While some recent postliberal theologies have polarized the church's relationship with contemporary culture by minimizing similarities between Christianity and other worldviews the contributors in this volume continue Lonergan's project of integrating the findings of various intellectual

disciplines with Christian theology and use Loewe's historical and systematic work as a guide in that endeavor. While Lonergan's transcendental Thomism has been criticized by both traditionalists and revisionists, essays in this collection apply Loewe's theological methodology in a variety of ways to demonstrate that time-honored doctrines about Christ can be transplanted into new cultural contexts and gain intelligibility and credibility in this process. Having lived and labored through the far-reaching changes in Catholic thought introduced in recent decades, Loewe's career provides a model for theologians attempting to build bridges between the past and the present and between the church and the world.

The Optimist Creed Christian D. Larson, 2012-05-24 The first ever collection of writings by Christian D. Larson, author of the famous Optimist Creed and one of the twentieth century's pioneers of motivational thought. Contemporary research has shown that optimistic people experience longer and healthier lives, better relationships, and higher incomes. Generations before such findings, however, inspirational writer Christian D. Larson showed an amazing grasp of the life-changing power of gratitude and optimism. Today, Larson is known worldwide for his powerful meditation, *The Optimist Creed*, and other classics of spiritual living. But no single volume has collected his greatest writings. Here at last is a long overdue anthology that makes Larson's foundational writings available to the countless readers who already know his name and work. Like no one else of his day, Larson understood the metaphysical and psychological dimensions of grateful living, or as he famously put it, an attitude of gratitude. Affirmative thought, Larson reasoned, sets in motion unseen forces, both spiritual and psychical, and aids in manifesting our desires. *The Optimist Creed* features complete editions of Larson's most deeply affecting works, each redesigned and reset. It contains *The Pathway of Roses*, *Your Forces and How to Use Them*, the work that features his original Optimist Creed, *Mastery of Self*, *The Ideal Made Real*, and *Just Be Glad*.

Inherited Land Whitney A. Bauman, Richard R. Bohannon, Kevin J. O'Brien, 2011-08-04 Religion and ecology has arrived. What was once a niche interest for a few academics concerned with environmental issues and a few environmentalists interested in religion has become an established academic field with classic texts, graduate programs, regular meetings at academic conferences, and growing interest from other academics and the mass media. Theologians, ethicists, sociologists, and other scholars are engaged in a broad dialogue about the ways religious studies can help understand and address environmental problems, including the sorts of methodological, terminological, and substantive debates that characterize any academic discourse. This book recognizes the field that has taken shape, reflects on the ways it is changing, and anticipates its development in the future. The essays offer analyses and reflections from emerging scholars of religion and ecology, each addressing her or his own specialty in light of two questions: 1. What have we inherited from the work that has come before us? and 2. What inquiries, concerns, and conversation partners should be central to the next generation of scholarship? The aim of this volume is not to lay out a single and clear path forward for the field. Rather, the authors critically reflect on the field from within, outline some of the major issues we face in the academy, and offer perspectives that will nurture continued dialogue.

What is Wrong with Us? Eric Coombes, Theodore

Dalrymple,2016-11-08 Can any of us entirely banish from our hearts and minds grave misgivings about the condition of the culture we now inhabit Expressions of those misgivings are mostly unheard in public forums ignored in the dominant media and if noticed at all dismissed by state supported bureaucracies and commercial vested interests To have any chance of gaining attention they must resolve themselves into coherent forms We need to clarify our perceptions of the things that trouble us by articulating and developing our thoughts about them That is we are in need of serious criticism serious criticism aesthetic social and political which is notably lacking in the contemporary world especially in places readily available to the educated non specialist such as the quality weekend newspapers and especially perhaps in relation to the visual arts The pieces collected in this volume are not presented as amounting to an overall account or theory of our cultural condition They are offered merely as examples of serious criticism of what we need if we are to begin to think more profitably about our condition daring in defiance of contemporary dogmatism to make the necessary judgements of value without which our culture will continue to disintegrate *Expository Notes, with Practical Observations, on the New Testament ... Wherein the Sacred Text is at Large Recited, the Sense Explained, and the Instructive Example of the Blessed Jesus and His Holy Apostles to Our Imitation Recommended ...* William Burkitt,1844 **Dualities** Michelle Voss Roberts,2010-01-01 Philosophy and theology have each struggled with the problem of dualism the conviction that reality comprises material and nonmaterial entities Too often this split places God spirit mind and the masculine in opposition to evil body matter and the feminine These intellectual divisions support social structures that oppress rather than embrace women the poor people of color and others With this volume Voss Roberts expertly shows how comparative theology uproots dualism and fosters new modes of community built on cooperation instead of oppression **The Christian Pattern Paraphrased** Luke Milbourne,Thomas (à Kempis),1697 Historic Churches of the World.... Robert Borneman Ludy,1926 **EGYPT AND ITS MONUMENTS** ROBERT HICHENS,1908 *The Spell of Egypt* Robert Hichens,2021-04-25 In *The Spell of Egypt* Robert Hichens presents a captivating exploration of the enigmatic allure of Egypt intertwining rich descriptions with introspective musings Written in a lyrical evocative style the book captures both the beauty and mystery of the Egyptian landscape as well as the complex emotions it inspires within the travelers who immerse themselves in its history Set against the backdrop of early 20th century European fascination with Egyptology Hichens deftly encapsulates the era's cultural obsession with the exotic offering readers a glimpse into both the external allure and internal dilemmas faced by his characters Robert Hichens an English novelist and travel writer was profoundly influenced by his numerous journeys particularly to the mesmerizing terrains of North Africa His intimate knowledge of the region combined with a burgeoning interest in the spiritual and mystical elements of life informs this intricate work Hichens's diverse literary career and his ability to navigate between fiction and travel writing positioned him as a distinctive voice reflective of a time when travel stirred both imagination and enlightenment For readers drawn to lush prose and the exquisite tension of cultural encounters *The Spell of Egypt* is an

essential addition to the literary canon Hichens s portrayal of a land steeped in history intertwined with poignant human experiences resonates deeply making it not only a travel narrative but a meditation on the perennial quest for beauty and truth
