*Gauguin's 'nirvana'* Paul Gauguin,Wadsworth Atheneum Staff,Stephen H. Kornhauser,Wadsworth Atheneum Museum of Art,Wadsworth Atheneum,2001-01-01 Shortly before Gauguin made his first Tahitian journey in 1891 he spent nearly two years in the remote Breton fishing village of Le Pouldu Seeking creative isolation in a primitive setting he pursued his art accompanied by several followers One of them was the Dutch painter Meyer de Haan who was able to pay the living expenses in Le Pouldu and was also knowledgeable in

literary and philosophical matters that fascinated Gauguin Their association resulted in some of Gauguin s most remarkable works including the Wadsworth Atheneum s symbolist portrait of de Haan inscribed Nirvana This and the rich variety of paintings and sculpture by Gauguin produced in 1889 90 are the focus of this beautiful book Gauguin and de Haan settled into an inn at Le Pouldu run by an attractive unwed mother named Marie Henry who began a liaison with de Haan despite the fact that he was a sickly hunchback The intensity of relations between Gauguin and de Haan is reflected in many of the works including frescoes which they installed in the inn Gauguin s time in Le Pouldu was crucial to the advancement of his art and the vivid Breton subjects and personality of Meyer de Haan remained in his imagination to reappear even during his later Tahitian period In this book several distinguished experts draw on previously unavailable sources to examine in depth the history of this period Gauguin s relationship with de Haan their interest in religion and exotic cultures and the meaning of the many innovative symbolist works they produced

**Gauguin's Challenge** Norma Broude, 2018-03-08 Several decades have now passed since postcolonial and feminist critiques presented the art historical world with a demythologized Paul Gauguin 1848 1903 a much diminished image of the artist hero who had once been universally admired as the father of modernist primitivism In this volume both long established and more recent Gauguin scholars offer a provocative picture of the evolution of Gauguin scholarship in the recent postmodern era as they confront and consider how the dismantling of the longstanding Gauguin myth positions us now in the 21st century to deal with and assess the life work and legacy of this still perennially popular artist To reassess the challenges that Gauguin faced

in his own day as well as those that he continues to present to current and future scholarship they explore the multiple contexts that influenced Gauguin's thought and behavior as well as his art and incorporate a variety of interdisciplinary approaches from anthropology philosophy and the history of science to gender studies and the study of Pacific cultural history Dealing with a wide range of Gauguin's production they challenge conventional art historical thinking highlight transnational perspectives and offer clues to the direction of future scholarship as audiences worldwide seek to make multicultural peace with Gauguin and his art Broude has raised the bar of Gauguin scholarship ever higher in this groundbreaking volume which will be necessary reading for students and scholars of art history late 19th century French and Pacific culture gender studies and beyond

**Potential Images** Dario Gamboni, 2002 In *Potential Images* Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles
