Sculpture Resource:

Sculpture and Enlightenment Erika Naginski, 2009 This volume explores the ways in which the aesthetics of public art were affected by the social political and cultural changes of the Enlightenment Michelangelo's Sculpture Leo Steinberg, 2018-11-28 Leo Steinberg was one of the most original and daring art historians of the twentieth century known for taking interpretative risks that challenged the profession by overturning reigning orthodoxies In essays and lectures that ranged from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His works sometimes provocative and controversial remain vital and influential reading For half a century Steinberg delved into Michelangelo's work revealing the symbolic structures underlying the artist's highly charged idiom This volume of essays and unpublished lectures explicates many of Michelangelo's most celebrated sculptures applying principles gleaned from long hard looking Almost everything Steinberg wrote included passages of old fashioned formal analysis but here put to the service of interpretation He understood that Michelangelo's rendering of figures as well as their gestures and interrelations conveys an emblematic significance masquerading under the guise of naturalism Michelangelo pushed Renaissance naturalism into the furthest reaches of metaphor using the language of the body and its actions to express fundamental Christian tenets once expressible only by poets and preachers or as Steinberg put it in Michelangelo's art anatomy becomes theology Michelangelo's *Sculpture* is the first in a series of volumes of Steinberg's selected writings and unpublished lectures edited by his longtime associate Sheila Schwartz The volume also includes a book review debunking psychoanalytic interpretation of the master's work a light hearted look at Michelangelo and the medical profession and finally the shortest piece Steinberg ever published

Cézanne's Gravity Carol Armstrong, 2018-11-13 A transformative study freeing the artist from outdated art historical narratives and revealing his work as newly strange again Cézanne's Gravity is an ambitious reassessment of the paintings of Paul Cézanne 1839-1906 Whereas previous studies have often looked at the artist's work for its influence on his successors and on the development of abstraction Carol Armstrong untethers it from this timeline examining Cézanne's painting as a phenomenological and intellectual endeavor Armstrong uses an interdisciplinary approach to analyze Cézanne's work pairing the painter with artists and thinkers who came after him including Roger Fry Virginia Woolf Albert Einstein Maurice Merleau-Ponty Rainer Maria Rilke R.D. Laing and Helen Frankenthaler Through these pairings Armstrong addresses diverse subjects that illuminate Cézanne's painting from the nonlinear narratives of modernist literature and the ways in which space and time act on objects to color sensation and the schizophrenic mind Cézanne's Gravity attends to both the physicality of the artist's works and the weight they bear on the history of art This distinctive study not only invites its readers to view Cézanne's paintings with fresh

eyes but also offers a new methodology for art historical inquiry outside linear narratives one truly fitting for our time

Two Thousand Years Ago Charles A. The Moment of Caravaggio Michael Fried, 2023-10-17 A major reevaluation of Caravaggio from one of today's leading art historians This is a groundbreaking examination of one of the most important artists in the Western tradition by one of the leading art historians and critics of the past half century In his first extended consideration of the Italian Baroque painter Michelangelo Merisi da Caravaggio 1573-1610 Michael Fried offers a transformative account of the artist's revolutionary achievement Based on the A W Mellon Lectures in the Fine Arts delivered at the National Gallery of Art The Moment of Caravaggio displays Fried's unique combination of interpretive brilliance historical seriousness and theoretical sophistication providing sustained and unexpected readings of a wide range of major works from the early Boy Bitten by a Lizard to the late Martyrdom of Saint Ursula The result is an electrifying new perspective on a crucial episode in the history of European painting Focusing on the emergence of the full-blown gallery picture in Rome during the last decade of the sixteenth century and the first decades of the seventeenth Fried draws forth an expansive argument one that leads to a radically revisionist account of Caravaggio's relation to the self-portrait of the role of extreme violence in his art as epitomized by scenes of decapitation and of the deep structure of his epoch-defining realism Fried also gives considerable

attention to the art of Caravaggio's great rival Annibale Carracci as well as to the work of Caravaggio's followers including Orazio and Artemisia Gentileschi Bartolomeo Manfredi and Valentin de Boulogne Please note All images in this ebook are presented in black and white and have been reduced in size
