different both communities benefiting from trading with each other This led to the development of a brilliant art style often depicting scenes from Scythian mythology and everyday life It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life their beliefs their burial practices their love of fighting and their ambivalent attitudes to gender It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials from the graves of kings on the Pontic steppe with their elaborate gold work and vividly coloured fabrics to the frozen tombs of the Altai mountains where all the organic material wooden carvings carpets saddles and even tattooed human bodies is amazingly well preserved Barry Cunliffe here marshals this vast array of evidence both archaeological and textual in a masterful reconstruction of the lost world of the Scythians allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia      Masters of the Steppe: The Impact of the Scythians and Later Nomad Societies of Eurasia Svetlana Pankova, St John Simpson, 2021-01-21 This book presents 45 papers presented at a major international conference held at the British Museum during the 2017 BP exhibition Scythians warriors of ancient Siberia Papers include new archaeological discoveries results of scientific research and studies of museum collections most presented in English for the first time      Gold Coins of the World Arthur L. This edited collection which brings together nearly fifty authors from across the globe and various disciplines makes a valuable contribution to the field of conservation covering a wide range of topics regarding the protection of heritage in times of war and peace. Uniquely linking the two typically separate perspectives, the book builds on the wealth of discussions that took place during the 2021 and 2022 installments of the international Heritage in War and Peace Seminars held in Rome and Montréal respectively. Issues explored in the volume include but are not limited to questions surrounding the protection of contentious heritages, unsustainability of the current dichotomic cultural/natural heritage protection frameworks, digitalization of heritage, place of heritage in military conflicts, use of heritage by armed non-state actors, indigenous peoples' relationships with heritage, the intersection of intellectual property (IP) law and heritage, human rights matters linked to heritage protection, and the latest case studies surrounding restitution. Given its scope, the book will be of particular interest not only to practitioners and conservation specialists but also to academics and students in the broader social sciences and humanities and to all those who hope to preserve our heritage for future generations.
