Elizabethan Sea-Dogs: A Chronicle of Drake and His Companions William Charles Henry Wood, In the early spring of 1476 the Italian Giovanni Caboto who like Christopher Columbus was a seafaring citizen of Genoa transferred his allegiance to Venice The Roman Empire had fallen a thousand years before Rome now held temporal sway only over the States of the Church which were weak in armed force even when compared with the small republics dukedoms and principalities which lay north and south But Papal Rome as the head and heart of a spiritual empire was still a world power and the disunited Italian states were first in the commercial enterprise of the age as well as in the glories of the Renaissance North of the Papal domain which cut the peninsula in two parts stood three renowned Italian cities Florence the capital of Tuscany leading the world in arts Genoa the home of Caboto and Columbus teaching the world the science of navigation and Venice mistress of the great trade route between Europe and Asia controlling the world s commerce Thus in becoming a citizen of Venice Giovanni Caboto the Genoese was leaving the best home of scientific navigation for the best home of sea borne trade His very name was no bad credential Surnames often come from nicknames and for a Genoese to be called Il Caboto was as much as for an Arab of the Desert to be known to his people as The Horseman Cabott ggio now means no more than coasting trade But before there was any real ocean commerce it referred to the regular sea borne trade of the time and Giovanni Caboto must have either upheld an exceptional family tradition or struck out an exceptional line for himself to have been known as John the Skipper among the many other expert skippers hailing from the port of Genoa **A**

Polar Dictionary Bernadette Hince, 2025-07-08 This ice breaking book collects the English words of the Antarctic and the Arctic for the first time These words relate to weather ice and snow auroras clothes food housing social structures wildlife plants politics as well as many other aspects of polar life The terms are presented with scientific precision a helpful interpretative commentary and moments of irresponsible whimsy Apart from Antarctica and the Arctic the regions covered here stretch to places as remote as the Faroe Islands Iceland Tristan da Cunha and the Falkland Islands *Politicians on an Island* Ronald J. Plachno, 2015-05-02 This book is a humor book intended to make you smile It is set an undisclosed distance in the future in the USA in order to try and not conflict with any political parties or people or issues of today In this future USA the political parties are now the Bulls and the Bears And for the sake of humor they are even more extreme than today and to say the least do not get along But fortunately the rules for becoming a US president are now easier A very nice man and his family had just emigrated to the US from Asia India in particular and this nice man and his family wish to help out

their new country the US And so Rajak Gandhi Patel the 35th manages to become president But can he deal with the craziness he sees Is the family really prepared for what they find Will anyone help him I realize that a person could ask me the author if I have any political bent in this book And that answer would be no I do not belong to any political party I do not even go to all birthday parties that I am invited to And more to the point I made both parties so extreme that I certainly would not want to belong to either of these parties and my guess is that the reader will feel the same way But that is getting too serious The purpose of this book is simply humor And my goal is to make you smile If this book has any point at all other than humor it might be the good that just a few good people can accomplish and that people accomplish more when they work together Other than that it is all in fun I truly hope others will enjoy reading this book as much as I enjoyed writing it
