Merchant Vessels of the United States... United States. Coast Guard, 1976 *Cases in Entrepreneurship* Eric A. Morse, 2006 The Ivey Casebooks Series is a co-publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario. Due to their popularity, more than 60 countries approximately 200 new cases are added to the Ivey School of Business library each year. Each of the casebooks comes equipped with instructor resources on CD-ROM available upon request. These affordable collections will not only help students connect to real-world situations but will benefit corporations seeking continued education in the field as well. *Cases in Entrepreneurship: The Venture Creation Process* is the first book to be based upon a cognitive framework of entrepreneurship. These cases are compatible with courses in Entrepreneurship and New Venture Management at the undergraduate and MBA level in schools of business. The instructor's resources on CD-ROM include detailed 6-10 page casenotes for each case, preparation questions for students to review before class, discussion questions, and suggested further readings. This Casebook has been organized based on the following concepts: Searching for ideas, Screening those ideas for business opportunity, Planning how to exploit the opportunity, Financing the opportunity, Setting up, Starting up the business, Growing the business, Harvesting the value created in the business. The IVEY Casebook Series includes: *Cases in Business Ethics*, *Cases in Entrepreneurship*, *Cases in Gender Diversity in Organizations*, *Cases in Operations Management*, *Cases in Organizational Behavior*, *Cases in the Environment of Business*, *Cases in Alliance Management*, *Mergers and Acquisitions Text and Cases*. *Merchant Vessels of the United States ... (including Yachts)*, 1969 *The Doryman's Reflection* Paul Molyneux, 2017-07-25 What happens when the oceans are emptied of all their fish? What happens when three hundred years of human knowledge and expertise disappear before the onslaught of the technology-driven world? *The Doryman's Reflection* is simply the most accurate and eloquent account of what transpired in the New England fisheries over the past half-century as told by the people who lived it, including author Paul Molyneux. Fishermen survive as relics, the last hunter-gatherers among us. Their boats, crammed with ropes and nets, carry the mystique of a nearly forgotten world ruled by the elements. Now an accomplished writer, Molyneux, as a young man journeyed to Maine with no experience and a dream of working on a boat. This is the story of his apprenticeship with Bernard Raynes, one of Maine's last independent commercial fishermen. *The Doryman's Reflection* speaks to those who want to know what really happened and what will happen on our oceans. Part coming-of-age memoir, part biography, it is a very personal account of what families in this dying but important industry face each day. Molyneux shares his own history as a young man seeking the fisherman's life in Maine and Alaska. Originally published in 2005, it has been thoroughly updated to cover the events of the past ten years. Told through the life of the colorful and engaging Bernard Raynes, *The Doryman's Reflection* is

alive and real and powerful far from a dry pedantic treatise on the economics of commercial fishing Adventure Kayaking: Russian River Monterey Michael Jeneid,2010-11-01 Explore by kayak the lagoons bays rivers and lakes of Northern California including the Russian River San Francisco Bay Monterey Bay Lake Tahoe and Donner Lake Author Michael Jeneid hand picked the most scenic and enjoyable kayaking areas for both beginners and experts With this fact filled book you can find the hidden kayak spots The 24 trips include daytrips overnight trips easy paddles options for canoers and real adventurers for the advanced kayaker **The Encyclopedia of Tourism and Recreation in Marine Environments** Michael Lück,2008 Marine tourism has become one of the fastest growing areas within the tourism industry With the increased use of marine environments comes the need for informed planning and sustainable management as well as for the education and training of planners managers and operators Combining the disciplines of marine scientists and tourism researchers this encyclopedia will bring together the terms concepts and theories related to recreational and tourism activities in marine settings Entries range from short definitions to medium and long articles Cruising World ,2008-10 **Cruising World** ,2008-10 **Cruising World** ,1985-01 **Walking the Land** Shay Rabineau,2023-01-03 Israel has one of the most extensive and highly developed hiking trail systems of any country in the world Millions of hikers use the trails every year during holiday breaks on mandatory school trips and for recreational hikes Walking the Land offers the first scholarly exploration of this unique trail system Featuring more than ten thousand kilometers of trails marked with hundreds of thousands of colored blazes the trail system crisscrosses Israeli controlled territory from the country s farthest borders to its densest metropolitan areas The thousand kilometer Israel National Trail crosses the country from north to south Hiking trails and the ubiquitous three striped trail blazes appear everywhere in Israeli popular culture they are the subjects of news articles radio programs television shows best selling novels government debates and even national security speeches Yet the trail system is almost completely unknown to the millions of foreign tourists who visit every year and has been largely unstudied by scholars of Israel Walking the Land explores the many ways that Israel s hiking trails are significant to its history national identity and conservation efforts *Supplement to Merchant Vessels of the United States* ,1981 *Telling the Story of Mormon History* William G.
